It starts well with the subject facing difficulty in bringing up his kids. The flow goes well and after 70-80 pages of read, the subject's thought processes changes every now and then, it got to my nerves. Decided never to be such a fickle minded, ever :-D..

May be that's the main reason behind Byrappa sir writing this book, asking people not be fickle minded ;-).

Loved a part which bought tears was when the subject's elder daughter speaks up and gives her final verdict about what's her 'firm' plan for life :-).

I would recommend this book.
