A rising queen. Three handsome consorts. A deadly court full of intrigue.

Just in case becoming a vampire wasn't interesting enough, learning you've basically been destined to overthrow the crazed vampire queen is only icing on the cake.

Aurora Hedvige has had her world turned inside out, upside down, and every which way in between. But it hasn't been all bad. Sure, things keep happening, and there's a prophecy involved, but she has Carver and Lucian, and they make everything just a tad better.

But the harder they try to complete their mission, the more tangled everything becomes. New enemies step from the shadows, as old allies risk their lives for the future of a new supernatural order. There's only one question left at the end of the day, will Aura's best efforts be enough? Or will temptation lead her past her limits and into a future that wasn't in the cards.

Danni Rogers says

This is the second book to a great series! Totally addictive! Couldn't put it down! Aurora's relationship with Lucian develops beautifully in this book, as she works with him and Carter to try and find Abe and overthrow the evil queen. But the queen has another agenda and is jealous of the relationship between Carter and Aurora. Aurora has to play the part and try and prove herself a respectable pawn in court. Their bond is strong and emotions are high. But will it be enough to fulfil their destiny?

Veronica LaRoche says

Holy Hell that ending, I want the next book ASAP. Carver & Aura will doing anything to stop Morana but it seems like Morana is one step ahead. This series will have you hooked especially with Carver & Lucien. It's a dangerous game that Aurora hopes to be the victor of with the help of her friends and allies. I wish the next book was out because I NEED to know what is going too happen next. Great read that will have you hooked from page 1.

I received this book from the author in exchange for an honest review.

Interesting continuation of Aurora's story

Found this particular book of segment of Aurora's story not as fulfilling as the last as Aurora is displaying some very un-queen like behavior. I'm not going to give anything away of this story but the self pity is understandable to a point but it gets carried to far and I started to not like her because of the selfishness being shown and the lack of concern for others she claims to love. Hopefully next installment shows her growing up and thinking of all the people she loves.

Wow

My mind is just as blown after this book as it was after book one. Aura is still trying to find her way around the vampire world with a crazy queen and danger around every corner. Things are heating up now as she tried fulfill her prophecy while trying to stay alive at the same time. Lots of twists and turns with a surprise ending making you wish for book three. I totally loved it so I give it 5/5 stars.

I received an arc in exchange for an honest review.

I really had a hard time rating this one. I felt like there was a lot going on but nothing really happened if that makes sense to anyone. The first one sucked me in and kept in locked in. This one took a bit more for me to stay invested.

I liked that we got more information about the different supernatural species in this world, all the sexy scenes, and I'm especially happy about Lucien. I know in RH we aren't supposed to have favorites, but he totally is right now.

Some things that disappointed me where that we didn't find out who the third consort would be and Aurora's attitude drop towards the middle. She needed some real convincing that she didn't need a man to go on.

Hopefully, the third book in Aurora's story will be the best! This one did in a cliffhanger, a pretty big one so I'll be reading Turned to see how it turns out and I'm ready to see how they are going to take down Morana.

Damn I love this series! This book was even better than the first one! I am so invested in Aura and her guys! And the story just keeps getting more interesting! I can't wait to meet Abe and see who Aura's other guy is. I NEED book 3 now!!!!

Denise Wengert says

This is the second book in the Kresova Vampire Harems: Aurora series. In this book, Aurora has accepted her fate as being a vampire, with the help of her friends, Carver and Lucian. Just when things are settling down, Aurora receives a summons from the Queen to come to court in Paris. Good thing she has Carver and Lucian to help her through all the court tensions. The ending left me wanting more.

This book was amazing and I really wish I had the third book right now! I seriously can't wait to read it and find out about Aurora's next moves and Aurora meeting her third guy (if she hasn't already...).

Book Addict says

This is a good second book in the series, however to me not as good as book one. I had a hard time staying captivated in this book, However it is good to read about Aurora's relationship developing with Carver and of course Lucian, can't forget him!! Carver is still my favourite though!! I wish we had meet the third that will be part of the group but these two made up for it! This book sets the scene for what is coming next and what must be done to take down the evil b*tch and I am excited to read book 3 in this exciting series. Highly recommended series!!

Kayla Pipkin says

Not sure about this one.

Aurora is trying to overcome the hurdles of being a newly made vampire.

As well as trying to figure out the mystery of being a Dria.

Carter and Lucien help with the murder.

Their mission seems to be thwarted at every turn.

I'm on the fence about this book.

I struggled to stay focused on the material.

A lot seems to happen, but yet not very much.

If that makes any sense.

It didn't seem like it was anything vital to the series that happened.

I felt like a lot of it was repetitive.

Especially her feelings towards Lucien.

I almost felt as if this book could be skipped in the overall scheme of things.

If that's actually true, I'm not sure.

There is some stuff that happens that I could see you needing to know before the next book, but I think you would understand still.

I'm just not sure how I feel about this book.

I really enjoyed the first book.

I'm just on the fence on this one.

I'm going to read the third one and hope it will suck me back in.

I still recommend reading this series.

I think you would enjoy it.

Plus I'd like for y'all to form your own opinion about them.

Aura is still getting used to the fact that she not only a Kresova vampire, but a Dria, one of three queens destined to resurrect the ancient royal Abe. Add the hot Carver and the broody and unavailable Lucian and a deadly ancient queen, life is bound to get complicated. And there's supposed to be a third guy to add into the mix! Will the newly turned Aura be able to survive Morana's wrath? Will anyone?

The first book was good, but a little slow. This book was a little better but still short. I liked how there was more action in this book, and it actually addressed that Morana will be a problem. The romance is ok. But it

feels like Carver and Lucian only want to be with Aura because of the prophecy and not because they actually love her. The prophecy is supposed to be one of the main focus points in this series, but it's in the background. All this book focused on was the romance and Queen Morana. They are supposed to be trying to find Abe, like actually try not just give up on the first try. And where is this third guy? I can't wait until he gets introduced.

CA says

Finished it as hate to give up on a book but didn't enjoy this as much as the 1 st. In the first Lucian states his engagement is one of family strengths and not love but the beginning of book 2 is all about not breaking up his engagement because of love...which I found annoying. Again the book ended on a cliff hanger, sadly I am done and won't be reading the 3rd. Shame as parts of the book I loved

Marie's Tempting Reads ARC Review:

HOLY AMZEBALLS!!! This book WAS INTENSE...A CRAZY, WILD, INSANE RIDE THAT KEPT ME ON THE LEDGE AND AT THE SAME TIME IT FREAKING SIZZLED! This series just keeps getting more and more adventurous. Thrilling, exciting, and more tempting, I can't help but to be in AWE! And that ending...GAWD I am SHAKING with the need to have the next book like NOW!

I am enjoying the heck out of The Kresova Vampire Harems. I loved how these characters got under my skin. They seem to energize me as well as the story. Each one is more interesting than the last and the way this story seems to twist and curve keeps me guessing and has me on edge. I LOVE LOVE LOVE LOOOOOVED IT!!

Tempt gets a MIND BLOWING FIVE SHOOTING STARS!!

Things are moving slowly forward in this second installment. Aurora has accepted her fate. With the help of Carver and friends, she is willing to do anything to stop the vicious vampire queen. It isn't an easy thing to do, because Morana is always a step ahead. Danger and despair will find Aurora.

In this book, we learn about the different vampire races. We also get to know more about Carver and Lucian. I wanted to know all these things since the first book. I enjoyed the dynamics between Aura, Carver, and Lucian, as well as between Rowland and Reina. Although, I was hoping that there would be more on finding Aurora's third consort, or finding the other Drias. Regardless, it's a great read. The ending left me hanging on the edge of my seat. What an ending. Can't wait to see what happens next. At least it's a short wait.

This is a well planned out series with each book set out astutely with a distinct beginning, middle and a crescendo finish. Aura is a likable and credible character and together with her bestie sidekick and smoldering blokes there is a good mix of relationships balancing out a good old fashioned vampire love story.

Ashley Martinez (ilovebooksandstuffblog) says

Omg! The ending was killer on this one! I can't wait to read the next book!

This book was a dangerous game of cat and mouse with our fearless characters trying to fight to stay alive and discover how to bring the prophecy about.

Fast-paced, thrilling and sexy! This book has me on the edge of my seat till the very end. It does end in a bit of a cliff hanger so be prepared to be begging for the next book!
