Patty says

This was actually the first book I read of the series. Since I work in a Library, I see all these good books and the cover got my attention!

Kurtbg says

A fun read , per usual, as references to music bands and genres are peppered throughout the book in tongue and cheek way.

Following through in the spirit of my review of *The Warlock Insane* of wondering how much autobiographical elements are woven into stories... I can picture the author trying to figure out how to teach his kids how do develop critical thinking skills.

In the book he “sneaks” in these lessons as the Gallowglass family seeks answers. Though, the father in the book doesn’t teach the children, it’s Fess, the robot horse companion that finesses the lessons.

Eruwenn says

Storyline was subpar... but SO MANY PUNS.

Cheryl says

Soft rock, acid rocks, the beetles and Rolling Stones make hard rocks. Why are the dead dancing all over Gramarye?

Bidesh says

Myslím, že si tu práci dám a seženu si n?kde v originále. V ?eštin? trochu zanikají jisté slovní h?í?ky, ale i tak to bylo fajn.

?enis says

Toto ma teda nebavilo. Celý ?as mi na um chodila Pratchettova knižka o Soul music a jeho Valiace sa kamene. Do toho každú chví?u sa Rod pýšil a hrdil svojimi de?mi, aké sú vyspelé, šikovné a sebesta?né až mi to liezlo na nervy.

Esther_a says

One of the perils of comedic fantasy is the temptation to allow random cutesy puns to overtake the story. It's jarring to the suspension of disbelief.
