## **Trevor Reese: His Secret Love** Mallory Monroe

Bad boy businessman and government operative Trevor Reese never wanted to fall in love. But when he met Carly, and hired her to work for him, he couldn't stop the feeling. He refuses to admit it to himself, or anyone else, as their relationship remains his precious secret. But when his beloved, Carly Sinatra, finds herself in trouble, his actions speak for him.

With help from her father, Big Daddy Charles Sinatra, and her uncle, Mick the Tick Sinatra, as well as a heaping side dish of the Gabrinis, Trevor is willing to turn this world upside down to keep Carly safe.

In the first installment of a new series, Trevor Reese learns the hard way that falling in love in his profession can be hazardous to his health.

## **From Reader Review Trevor Reese: His Secret Love for online ebook**

### **Sharon Keyes says**

#### **This is a nice change**

I loved the Gabrinis first, and I'm in love with the Sinatras, now it seems the Reeses. I agree with another reader the others seemed rushed but this story took its time and I liked that. I'm glad to be on this new journey.

---

### **Zandra says**

#### **Good but not great.**

I love Mallory's world she weaves, and I'm super excited to have Carly and Trevor on board. Unfortunately, I think this book could have been much better with showing instead of telling. The action scenes seemed a bit too over the top the way it was written. It felt like an over-excited family member over embellishing some gossip. With that said, I am definitely in for the next part of their saga.

---

### **Judy McDowall says**

#### **Another great book!!!!**

Excellent plot with intrigue and suspense. A little comedy as always with Reno and Sal. Definitely worth reading. I felt that I understood Carly a bit more in this book. Well done Mallory

---

### **Cherryl Montgomery says**

#### **What a ride!**

wow, Mallory knows how to weave a story. Just when you think you've figured out who did what, you realize that you don't. Trevor and Carli's love for each other has grown to the point now that they cannot hide it any more. What would be the point of hiding when all of the reasons for doing so have been taken away.

The Sinatra / Gabrini family have once again proven that they are a close knit family, ready to battle the enemies of the family. They are a ride or die family for each other. That Reno and Sal know that they can talk some crazy trash. Always enjoy reading their interactions.

This book was a well written plot with lots of drama and suspense just like I like a good story. Well done.

### **KBeautiful1 says**

I am so happy that author Mallory Monroe gave us Trevor Reese story and not only the present day but his back story of how he came to be and most importantly cross paths with Carly Sinatra.

Trevor Reese is an enigma working for the government, running a Fortune 500 company and a man who will kill you just when you are about to blink. Trevor Reese a hardhearted man has found himself in a crossroads by the name of Carly Sinatra, a woman who is the head of his PR department and his lover who is his secret love. We know Trevor isn't a secret with Carly when it comes to her family but to the rest of the world, she is a secret and has to be. The life of a government operative (who carries out kills, amongst other things can not even think to have a personal life). So to the government, Carly is just a list of lovers that Trevor has and it is safer that way but now that a hit he was called to do goes wrong and he discovers he has been set up, the race is on to keep Carly safe from all harm.

Carly Sinatra know loving Trevor Reese is risky to say the least, he can be a hard man at times with her but she knows he loves her. Carly worries when Trevor has to go out of town on one of his assignments, she worries that he may not make it back to her alive, but when the heart beats for no other than him, it is a chance she is all to willing to take. Carly knows their relationship is just between the two of them but sometimes she wishes they can hold hands in public or kiss in public, just show affection to one another out in the open instead of behind closed doors. Carly is not naive to the lifestyle because she knows the life, from her Uncle Mick the Tick and her cousins who she calls her uncles as well, Reno, Tommy and Sal and her dad Big Daddy Sinatra who is not in that scene can get down and dirty when he has too. But unbeknownst to Carly, a storm is coming and its heading right at her.

Trevor Reese knows that storm is coming for him over the horizon, he also knows this is one fight he can't do alone, with the finding out the agency set him up, the Sinatras and the Gabrinis are riding into the fight to be along side him. Everyone will take up their arms to protect Carly Sinatra and now Trevor because they know he is now one of them.

Trevor Reese story was fantastic and so well written. Author Mallory Monroe knows how to write these stories and her ability to keep producing such brilliant work is a testimony to her story telling. Trevor Reese will totally electrify you and makes you want to read more and more about him, if you choose to read this book you will not be disappointed.

Well Until My Next Review...Ciao Bellas!

### **Davina says**

I mean, if you read Mallory Monroe's books you know what to expect. :) That said, the author's writing has been strong these last few books, including this one.

This is a much needed fleshing out of both Carly and Trevor from their initial romance introduction book (which was somewhat of hot mess). I like their relationship and I look forward to reading more of their adventures, especially if Trevor & Carly end up in Mick's world.

---

### **Mspraise50 says**

Another great read for me. This author can hardly do any wrong for me. However, I was not mad about the cover. Carly does not come across as the cover may betray her and I think that was doing the couple a bit of an injustice. However, I did enjoy their story and look forward to seeing more of them.

---

### **Andrea Johnson says**

#### **I Was Going to Give it 1 Star**

When I buy romance, I am looking for complex characters and steamy sex scenes. This just didn't foot the bill. The sex scenes are brief and poorly written. The suspense fizzles out and the "bad guy" could never be guessed because it's based on an event we never even knew about. The editing is even poor. I gave it a second star for effort, but I won't be spending anymore \$ on this author.

---

### **Rosalyn Ellis says**

#### **Another great one**

I can see so many possible stories expanding from this book? What will happen to Hammer and Reggie? Is Carly really safe from Reggie? What about Mick's offer, will Trevor turn down the offer.....

---

### **Taz Will says**

Getting back to Trevor was really good but...he came off too soft to the guys, especially Mick. I understand with the whole tough guy thing but in the beginning Trevor came off like a boss himself who wouldn't let anyone play him. I love when the gang gets together in these but...the action is over before we can really enjoy it. They did all that just to get there and boom it's over, not even an argument. Love these, the author does a great job pulling you in and connecting you to the characters. I can't wait for the next one.

---

### **Genevieve Woods says**

#### **Loved every moment**

Trevor and Carly, now this is a power

---

### **Lucille Edmond says**

**Trevor Reese is the guy to have on your side. Carly was what Reese needed in his life. Mallory Monroe you are the best!**

Trevor Reese is the guy to have on your side. Mallory Monroe you are a great Interracial Author. Looking forward to your next book.

---

### **\*Dee's Reading Time Matters says**

**EXCELLENT STORY... A GREAT PAGE-TURNER THAT I SAVORED BECAUSE I LOVED THE ROMANCE AND SUSPENSE WITH THE ANTICIPATION OF WHO DONE IT!**

Yes, I need to go back and read the other books with all these bad boys from Mick the Tick, Big Daddy Sinatra, Sal, Reno and Tommy to really learn about the relationships and where Carlita (Carly) Sinatra came in but I will tell readers this... "Trevor Reese: His Secret Love" was a true 5+ stars!

There was suspense, sexy romance, comedy (Sal and Reno) and even parts in the story where it was loaded with all the Alpha men in one room fighting over who was best suited to protect Carly Sinatra. Trevor was just a good hero for Carly and Carly was everything to Trevor ; just a perfect couple.

---

### **Sharon McDowall says**

#### **Another great story**

I thoroughly enjoyed Trevor and Carly's love story, and the other Sinatras and Gabrinis thrown in the mix makes for a rollercoaster ride as usual.

---

### **Sarita says**

#### **Mallory Knocks It Out of the Park Again!**

I absolutely loved this story. I have been looking forward to the continuation of Trevor and Carly's story. It was a great plot and kept me guessing as to what could possibly happen next.

She ended the book on a note that could lead to some great storytelling in the future. I loved how she wove the Sinatras and Gabrinnis into the story. I love those characters and welcome them any time they show up. I can't wait for the next installment of this family's adventures.
