Wanting Calle J. Brookes

She saw herself in the missing little girl, and Special Agent Carrie Sparks would do whatever she had to do to find that child. Even pair up with Unit Chief Sebastian Lorcan.

Lorcan always watched her, judging every move she made. And Carrie knew she always came up short with him. Still...there was a little girl out there who needed them both...

Sebastian Lorcan was fascinated by Carrie Sparks and had been since his transfer to the PAVAD division two months earlier. And when his friend's daughter runs away, Carrie is his first choice for help in finding that little girl.

But it soon became apparent someone else is searching for Carrie...someone with an agenda far from good...

Dayreader Reviews says

This was my first book by Calle J. Brookes. I will say, she is no longer a new to me author! I have found a new favorite that I will stalk for new releases.

The beginning of this book was a little comical at the hatred that these two people had for each other. As the book reads on, you understand where her hesitation comes from. As Lorcan starts to unlayer Carrie he finds out that he feels so protective of her and he is so confused by these feelings.

Carrie finally starts to realize that maybe there is more to Lorcan than what most people think. She is a little confused at how she can be so comfortable with an arch enemy.

Yes, this book has some misspelled words and some added words in the sentences that should not belong there, but the overall read was amazing. It kept me on my toes and made my feelers work in overdrive.

Too many names, slow plot, pretty lukewarm romance.

Good!

After reading the first book of the series I went straight into this one. I have to say that I did prefer this book so much more than the first. This book had so much more going on, and it was basically the characters we've met before. I love Carrie. Being a mother with an autistic child I like to read about stories where there is light at the end of the tunnel. People hear the word autism and they don't think that child will ever amount to anything. Well, autistic people are highly clever and I wish there was more books detailing that. I give the author ten out of ten for that.

With a decent edit to polish up a lot of repeated words and sentences this book could be a five star read. If you like crime novels then you'll enjoy this series.

Clarie Giselle Mercado says

Romantic Suspense

High on the suspense low on the romance. An enjoyable read with a different heroine. Carrie was unique. A heroine with high functioning autism. And very intelligent. Sebastian's patience with Carrie was commendable. Carrie and Sebastian together were great. And supporting characters were also quite enjoyable.

Wanting (PAVAD: FBI Romantic Suspense, #2) by Calle J. Brookes

This is the second book in the PAVAD Series, Calle J. Brookes writing is easy to read and love the story lines and the characters in each book.

Great Romantic Suspense novel.

I have rated Wanting 4 stars, and I will continue to read the rest of this series.

Pamela(AllHoney) says

The first book in the *PAVAD: FBI - Romantic Suspense* series by Calle J. Brookes. Unit Chief Sebastian Lorcan goes to Special Agent Carrie Sparks' home to ask her to help him find a friend's runaway daughter. She agrees and they take off to look for her. When others at the FBI office find out they are concerned because of Carrie's Asperger's. Meanwhile, a man is looking for Carrie and is concerned for her safety. Apparently someone from his past is out to hurt her.

I think I liked this book slightly more than the first book in the series.

Sebastian and Carrie. They are FBI agents, she has Asperger's. The story line was okay, but I wasn't feeling the attraction between the two. Add to that the changing POV, the fact that it seemed like each character had three names (for example, Sebastian, Bastion, Lorcan), and there were so many characters to keep track of for previous and future books, it just wasn't doing it for me.

Darla C. James says

Disappointing

I immediately hooked on the characters of Sebastian and Carrie and was willing to overlook how easily everything worked in the plot.....then about half-way in, the whole story became so unbelievable in development that I finished it just to see what happened to Carrie but was almost offended by the absurdity of the tale.

Lillie says

I really liked Carrie and Sebastian. At first, they seem so different that you would never expect them to get together. But Sebastian isn't put off by Carrie's Asperger's and gives her credit for being a good FBI agent and a capable woman. There were a couple of intertwined plots, with a lot of twists and turns.

Dakota says

I enjoyed this book a lot more than I expected. a bit more insight on the oether members of PAVAD

Karen says

I liked this novel as the heroine was not only kickass at her job, intelligent & compassionate. She did it all, despite horrific trauma in her past, an acute sensory sensitivity & her teams tendency to coddle her.
Love to read more

Very well done! This book was just what I needed to take a break from sweet romances and women's fiction. It is a great FBI mystery/detective story involving a number of teams and a number of interesting cases from missing and kidnapped children, street children, murder and burglary with deception within the police force and without. I found it somewhat difficult to keep track of all the characters because there were many and because the author sometimes called them by their last names and sometimes by their first names, although I know this is very common within FBI, CCU and Police and Special Investigative agencies.

The story also has enough romance with Carrie and Sebastian and other agents to keep the interest of the reader. Characters were well developed and memorable and I look forward to reading more about them from this author. I read this book late into the night when I just couldn't put it down. This was my first read by Calle J. Brookes, and I say Thank You and Well done!

Love this series !

This series is sooo good, I don't want ANY of them to end !! It's wonderful to read about autism in the work place, that co-workers are trying to understand the issues they have and deal with it together. How people are homeless, why, how they manage to get their lives together and turn into good people given the chance and education ! I love everything about all of them- very perceptive author !! ❤?

Deepa says

First time I am reading this author. Got a deal on BookBub and read my free copy.

What i liked about it. The main characters, their weirdness, the chemistry.

What i disliked about it. There were too many plots. It felt more like reading a collection of short stories. I felt it would have been better if the author had taken one or max 2 storylines and run with it.

Will i read another book by this author? Probably. It was a decent read despite the issues.
