## **Bled** Marata Eros

When Rachel is taken by Zach of the rogue she is determined to resist him. But her unique Druid biology controls her and she slips perilously close to succumbing.

Cole searches for the one Druid that can make his life complete. While his comrade Nathan, in a heroic maneuver to help him, suffers at the hands of their sadistic ruler, Alexander.

While searching for Cole, Nathan discovers another Druid in the wrong place at the wrong time. Could she be the catalyst that brings two enemies together?

Is Holly more than she seems?

## From Reader Review Bled for online ebook

### Sammy Loves Books says

This book is the 2nd part of a trilogy. I intend to only write one review...Here is the link to that review

<https://www.goodreads.com/review/show...>

3.5 Stars full of Abduction, No-Con Vampire Seduction, and Bloody Murder!!!

---

### Jen says

I am really enjoying this series so far. This is book #2 and we not only get Rachel's POV in this story; but also Cole's. Rachel is still being held captive by the Rogue vampire, Zach who is after her Druid blood just like all of the other vampires. Cole is on the journey trying to find Rachel, because in his opinion, Rachel is his; and he wants no one else to have her. This installment introduces us to a new Druid named: Holly. She is an innocent, as well as only nineteen years old. There are some facts that are revealed about her, and Zach gets a huge surprise when he comes face to face with Holly!

Even though this is a short story, there is a lot going on from beginning to end. The author does a great job of having plenty of reveals without it being an information dump for the reader. The fight scenes are very graphic and full of action, I was cringing at some of the gross descriptions; but the scenes were extremely well written.

Once again, Marata Eros delivers an action packed story full of excitement and surprises. I am fully engaged in this wonderful series and I can't wait to see what happens next in this interesting world!

---

### Dawn Yacovetta says

This story is a wicked dive into the sensual world of the vampire. Be forewarned that this has been designated as a piece of EROTICA for a reason. There are some vivid rape scenes and explicit sexual encounters. These are not your sparkly vampires who live off of the fluffy animals of the forest. These are vampires that are possessive, gritty, dangerous and desperate to keep their species from dying out by whatever means necessary. They can be tender and loving in one moment and violent and ugly in the next. The tale also involves the need for the Druid females who are the only "species" of human that produce offspring for the vampires. These vampires will acquire the Druid females by any means necessary, and their code of ethics does not necessarily coincide with ours.

The vampires in this series are exactly what I expected them to be. They are driven by their basest natures to alleviate their needs and search for the women who will mean their survival. I personally love how intricate and descriptive Marata Eros writes. She has a fluidity that carries through from one volume to the next. I always know who my characters are, what drives them and how far they are willing to go to get to where they are destined to be. The scenes are set and the surroundings are spelled out. Sometimes, the writing makes me laugh, sometimes cry, and sometimes I'm disgusted or angry. But, it always draws an emotion from me, and that is why I read. The writing takes me on an unpredictable adventure. I was thoroughly entertained and look forward to reading more of the series.

### **Debbie Chittenden says**

Holy utter malicious violence. For a superior species, these vampires act like heathens without discipline. Yet, they demand discipline at every turn. This story is utter stress and strain in living color. This is so unnerving at times I want to pull my hair out.

These Druid women should just be put behind bars and used as breeding hefers. Seriously, the Vampire feel completely entitled. I'm actually appalled at the continuous kidnapping, violence, sexual assault, and rape. Then there is the murdering which seems to be "OK"!

Ok, I'm not really appalled, just frustrated that these women aren't doing anything they know they should be doing to get out of this situation. Suicide seems like a very likely option.

If I were a Druid female in this situation, death would be my cowardly/logical way out. I certainly wouldn't be sitting around awaiting rescuing.

---

### **Sarah says**

Did enjoy this series but has serious rape issues throughout all books. There are a lot of different types of vampires in this series that at times gets confusing.

The story takes awhile to develop throughout the 7 books but the ending was a bit lagging.

This book is very graphic and has A LOT of sexual abuse which at times does over take the books every other sentence is a female getting attacked and sexually abused.

Might look into the full length novel hopefully might clear up the ending

### **Mei says**

...Proceeding on to Harvest...

---

### **Carrie (Badass, Alpha-male, Cowboy Connoisseur ) says**

The second book in this trilogy picks up where Reapers left off. Adan and Zach are vying for the same pure bred Druid and she can't help but respond to both of them. Ms. Eros gives us a fresh story line and lots of "steam", I just bought book 3 and can't wait to dive in.

---

### **Danielle Huff says**

This one definitely kept you guessing and interested in the love that was starting. There is constantly a plot twist so it is never boring.

---

**Vika aka ? of GIF & Grumpy Smut-ateer \*P/T Freebie Fairy says**

A bit mellower than book 1 but a great continuation to the series.

Rachel is held captive by Rogue Zach while fighting her Druid biology... very unsuccessfully. Really this series is mind fuck and fuck for all. Not much sex going on here.

There is a big showdown with the leader of the Reapers. A tragic death. A family reunion... and a true bonding. Not much else to say here, but it does seem to be building up for something.

There is an introduction of Holly who looks exactly like Rachel but 10 years her junior.

**Jaci says**

While this series fit in with a lot of my likes, vampires, unwitting "normal" heroine suddenly catapulted into a fantastical world, a "pureblood" no less, some horror, hot erotica, I found myself increasingly uncomfortable by the worldbuilding, specifically the disconnect between how special the women were meant to be, but how they are treated.

I suppose the term "breeders" should have given me some inkling but the initial emphasis on how rare, how special they are to the plot lulled me into a false sense of what exactly I was reading.

Part 1 is not as uncomfortable and I found it a good read which is why I went for parts 2 and 3. By 3 I was so disgusted by what the female characters go through, I couldn't finish it or continue to buy the series.

For the first time reading erotica, I felt the point of view was extreme male sadism, degradation, and women as objects with no control over the sexual situations they are put in. I suppose the scene in #1 with Rachel's "normal" friend Michelle should have given me a clue, but I had faithfully read the author's caveat that there would be some non-voluntary activity and the following sexual scenes between Cole, Rachel and Nathan were sexy as hell. So I continued.

By Parts 2 and 3 some of the excesses of male pornographic fantasy were fully represented, I don't want to give away any plot details for people who may enjoy degradation, sadism, but "foaming" from multiple emissions doesn't do anything other than turn me off. Also the male "equipment" gets more and more invasive and gory as the series goes on.

By #3 women willing or no are simply convenient receptacles for semen. Insteads of hot under the collar, I wanted a very long hot shower.

---

### **Maria says**

over all I have been thoroughly enjoying this series, the main reason I didn't give it 5 stars is I could more than do without the rape, but I can somewhat understand why it's in the story. I mean the WHOLE thing is revolving around breeders and such so sexual stuff, including the not pleasant type are going to happen.

---

### **Sofia Lazaridou says**

[Why Nathan had to die?I liked him!He could find a good Druin for himself and live the rest of his life happy. (hide spoiler)]

---

### **Pam says**

*3.5 Stars* Updated review 11/26 (after completing the rest of the books)I think after the first two books I read, it all finally clicked, I got where the author was coming from and totally took the book and story for what it was worth. If you are unable to remove yourself from what is "socially correct" than this book is so not for you. As the author mentions: \*\*This book is intended for an adult audience and contains marginal consent, multiple partners, forced breeding, vampire sex, and oral play.\*\*

Picked up where it left off, talk about jumping right in there, but for a short novella, where it lacks in length it makes up for in keeping you wanting to read. I kept turning the page just to see what happens, should it be longer, I'm not so sure, yeah I want some more, whop doesn't, but at the same time I feel like if it is longer, it would lose the momentum. We get introduced to new characters and lose others ... Just keeps on going.

*NOTE: On to book 3 - the series had a "black Friday" sale so I picked up most of the books.*

---

### **Charity says**

This installment (#2) picks up right where Reapers left off. I was a little apprehensive after reading book one to continue, but I did, and I probably will continue.

There is just something about the train wreck of crazy that is going on in this series. Be warned of rape and mental violations. These vampires are a new and intriguing type of character for me and I look forward to

reading more.
