Could have been better...

With a lot of editing. I enjoyed the first couple of shifter stories, however...it is frustrating to have poor editing and for goodness sakes, why can't she keep her characters names straight? She kept changed Brooklands name twice, and the kid's name changed from Amy to Emily. The author has serious continuity issues. For instance, Brookland's mate was supposedly pregnant with triplets but the next time the baby is mentioned, its just one girl. I won't got into all the errors but its sloppy to lose track of your character's names. Also, things are left hanging between books. Rarely are past characters storylines mentioned or cleanly finished. There is little closure at the end of all the stories...seriously a bummer and leaves a very unsatisfactory ending. Could be a better rating with some major editing.

great series

This is a really good series. I love how they all connect at so me point. There are a few discrepancies in the stories, but nothing too horrible and easily overlooked when you get into reading them. They are somewhat short, but when put together they are fun and entertaining.

What can I say

This series was okay, but left a lot to be desired.. You said at the beginning of Orson's story that Faun was having triplets, but then she had a single child, you changed their names in one chapter of the last book Randall was Roland and Amy was Emily... I think you should remove and rewrite this series and give us a better ending on the last book! And try to keep your characters and their storylines straight!

A very easy read.

If you like a good love story give them a go . Hope you all enjoy. Read all the set.

Wonderful paranormal storylines! 3.5 stars

I really enjoyed these stories, they each had separate plots with tie-ins to the same cast of characters. However, there were several reasons why I could not give 5 stars- I really wanted to give 3.5 stars, but that's not possible. This collection has multiple internal inconsistencies which detracts from the reading experience. Also, further editing/ proofing is needed throughout. The endings for some of the stories seemed rushed, they needed a bit more of a wrap up of details for a smooth finish. Overall it's worth reading, great storylines in a paranormal world.

Storyline was good

I thought the characters were well developed even secondary ones. There were major errors in sentence structure and even some in the continuous plotline. For an example, Randall and Faun were expecting triplets, but the next mention is of Randalls firstborn a single daughter who in this book is Amy but I'm later books is Emily. The rest of the books issues can be corrected by proofreading and a little editing. But I did enjoy the humor and intrigue and loved the characters.

Really good read

Loved it ? . Great series. The endings were a little quick. Wish they were more in-depth, longer as there were still questions still to be answered. Is she a pixie. Married, kids. Business etc.

Good

Really enjoyed these stories but only bad thing was Faun was supposed to be pregnant with triplets then has one child Amy who later turns into Emily. And Roland ? I still have five stars as I loved the characters and the storylines

Charlotte Shea says**Wow! What a wild adventure**

Wow! What a wild adventure to read. It was sad, to know that was the end. I was hoping that Bran and Adelle would have kids. Lol.. oh well.

Thank you for an awesome adventure

Andrea Gillan says**What a boxset**

I am not usually into shifter books but these..... I am now officially converted. The story just pulls you in and the books flowed effortlessly.

Yvonne Barbosa says**Brookland**

Turned out to be a good read . I enjoyed the stories and characters. I might have liked a better ending Adelle and Bran. But ball in all enjoyed by the book.

JOY BOEHL says**BROOKLAND SECURITY**

I've said before...Clara Kendrick is a GREAT story writer! Her idea of paranormal is more along the lines of Harry Potter, with creatures and changed souls! However....there is often mistakes in her writing that don't flow from one book to the other. Ex. babies name is Amy in one book.....Emily the next. Hope that changes but I will continue to read this author!

Traci says**Great read**

Don't normally read paranormal books, but this series kept me glued to each and every story. Great characters, absolutely loved the paranormal bits intertwined with the story.
