## Olivia Chanel's Galaxy of Books says

Just like the moon,  
brightness is the only  
side you see of me.  
Darkness lingers on the  
other side,  
only exposed in catastrophe.

- *I am the wo(man) in the moon*

This poem starts off I Am More Than A Daydream by Jennae Cecelia, and instantly I knew I was going to love this poetry collection. For anyone who wants to read poems that are empowering and filled with nature, sun, and moon metaphors will love this collection. I highlighted more than half of this book on my kindle and know I will come back to my favorite poems again and again. What I Am More Than A Daydream manages to do is draw me in and really make me relate to the poems and what they're about. A lot of the times, I just felt that this poem, this is *exactly* how I feel. It's a very liberating feeling.

You  
can  
tear down  
my tiny shed  
made of rotted *wood*  
but I will build back

a tower made of *gold*.

- *women are architects and builders*

This book is feminist and celebrates women in the most beautiful ways. This collection has become a new favorite of mine. As I read its poems I was filled with emotions for all the things that need to be said louder and the things I wish was whispered to me in my moments of doubt. Even if you're not an avid poetry reader I would definitely recommend this collection because it's just that amazing. There is no doubt about that. I could mention a dozen more poems from this collection and it still wouldn't cover all the ones I love. Nonetheless, this book will fill your soul and assure you that your dreams can come true. I loved all of *I Am More Than A Daydream*.

Even though your dreams  
seem beyond the horizon,  
you can reach them.  
It may take as long as walking  
20 miles in the desert,  
or it may come as quick as  
driving down the street.

- *ask, believe, receive*

## **Leila Tualla says**

Reading through this very short collection, I am still amazed that poets have this ability to incite an emotion, or connect you so easily, with just a mere two or three sentences.

Actually, let that sink in for a moment. A novelist can build you a fantastical world, and make you believe in these magical characters and creatures, and take you away on these grand adventures.....but it's done within the length of an entire book. Fifty THOUSAND or MORE words.

Jennae Cecelia, in her short bursts of anger,  
of pain,  
of curiosity,  
of empowerment,  
of embracing,  
of beauty, and self worth.

She said it with very few words. Cecelia didn't need to build us a world where women felt fear and pressured. We have our society to thank for that. Instead she took our story - mine and yours - of heartache, of comparisons and standards of beauty, and used what we women know about those feelings of self worth, and gave us back more than our reflections on a looking glass. If eyes are the windows to our soul, and we barely make eye contact with everyone nowadays... than what are our reflections say about us tell only half of what we've been through. Peer closer. Really look at someone in the eye. There is always more to their story. But we get caught up in the physicality that we forget there's a person beneath all that falsehood, or bravada. We forget that in our own ways, EVERYONE is just trying to fit in and wanting to be loved, and accepted.

She tells us in so many words that we matter. Within these pages, I am known. I felt seen and embolden in my approach to life and beauty. Though I already know I am more than a daydream. My hope is that you'll

believe it too.....

Cheers, sisters!

### **A must read for every single person**

These poems are more than beautiful, more than amazing, more than wonderful; these pages are filled with truth!!

This is one of my all time favorite poetry books I've read this year. Jennae Cecelia knows how to write poetry. I've been reading a lot of poetry and her's has been standing out for me. One of my favorite lines are "She is already a river flooding with ideas.", "fall seven times, get up eight" or "You are more than just one voice in seven billion" This book is filled with lines like this that make me think and fill me up with many different feelings. There are poems about following your dreams, being yourself, being strong, and even about being proud of your body; and much more. Jennae words are powerful. Makes me happy to read poetry that has a positive message. I can't wait to read more of her work.

I Am More Than a Daydream is a book filled with beautiful messages. It's what I loved the most about this poetry, it makes you think about certain aspects of life, about your thought patterns and your dreams and how far they are from reality. What's even nicer about it, is that this book makes you feel better about yourself. The poems are short and to the point and they all end with gorgeous advice. Most of them put a big smile on my face.

Jennae Cecelia has written gorgeous thought-provoking poems. Her writing is dreamy with a translation to reality, which gives it the best of both worlds. I love how she manages to turn emotions into understandable sentences that are gorgeous at the same time. I Am More Than a Daydream is a wonderful collection of poems that should be read over and over again.

I received this book for free through a complimentary Pressed Poet box. Pressed Poet is a poetry subscription box.

I liked this collection of poetry as a whole, but I didn't like it as much as her other collection, Uncaged Wallflower. I related to that collection a whole lot more than this one. Uncaged Wallflower really spoke to me on a personal level. There weren't as many poems in this collection that made me feel that way.

This book felt a lot like a Rupi Kaur or an Amanda Lovelace book. Many of the poems were in the same realm as theirs, so this collection didn't feel as fresh and new as Uncaged Wallflower did. But if you like that kind of poetry (like I do), then you'll probably like this book.

The overall themes of this book were great. They were super positive and feminist and I really liked that. The little illustrations were a nice touch too.

All in all, if you're looking for a less known poetry collection similar to Amanda Lovelace or Rupi Kaur, then pick this book up!

I finished this book in one sitting! This is my favorite of Jennae's 3 collections, and I know I will be re-reading it soon! All about empowerment and equality; it's a must read!

Like I do with every poetry collection I read I am going to read this again and then leave a full review on it.

I got this poetry book several months back from Amazon for free and I have just now got around to reading it. I don't know what took me so long to get to it and I am kicking myself for waiting so long to read it because I loved it.

I finished this book in one sitting but like I do with every poetry book I read I wanted to read through it again before I posted my full review. This was my first Jennae Cecelia book and I definitely want to get my hands on her other books especially if they are anything like this one.

This book touches on so many topics from equality to self love and so much more. I love the message this book is trying to get across and I highly recommend you read it if you haven't already.

Let me start off by saying that the cover is INSANELY BEAUTIFUL!!!

I've very much enjoyed Jennae's first two books, but this one, this one leaves me speechless. I felt emotional the whole time reading. This is a MUST buy.

Anyways I'll write a full review for tomorrow on my blog! [Mckayladebonis.com](http://Mckayladebonis.com)

**In the end,  
we have only ever seen  
our faces in  
reflections and pictures.  
Our true beauty is  
a secret to us  
and maybe that's why we are the last to believe in it.  
*-mirror, mirror, on the wall***

**Even on the cloudiest of days,  
the sun is always there.  
Though it's not in sight,  
the true absence of it would be known.  
*-you are with me in spirit***

This was really good! It made me tear up a few times and I could relate to some of these poems really well. The drawings were nice with the poems, and I think this is my favourite poetry book of Jennae's.
