## **Iron Hand** Jonathan Moeller

The galaxy is at war, but wars are won and lost in the shadows.

To the galaxy at large, Jack March is a privateer of the interstellar Kingdom of Calaskar and a former Iron Hand commando of the malevolent Final Consciousness. In truth, he is an alpha operative of the Silent Order, the most efficient and feared intelligence organization in human space. When there is a crisis, Jack March is the man to call.

But there are many forces that wish to enslave or destroy humanity.

And when a mission leads March to a lawless asteroid space station, he might be the only one left to stop those forces...

## **From Reader Review Iron Hand for online ebook**

### **Francisco Chavez says**

This book was particularly corny. It seems more fit to be made a movie than a book (ie. Very linear storyline, no surprises, you can practically guess everything thats going to happen).

---

### **Gabriella says**

#### **Space spies.**

I will say I found this book a little harder to get into than the Ghosts series. I suppose as I am not a huge fan of sci-fi that may be the reason. However the characters are compelling, the villains interesting and the overarching subplot intriguing which all tie in nicely with a kidnapping ransom with many a twist. An interesting read when I finally got into it. A little repetitive at times but the battle concept and strategies were a good read.

---

### **Mr Geoffrey Bowlt says**

#### **Book review**

Cracking good sci fi adventure story. Believable characters, plotline, and background. Definitely be reading more of this series! This author is one I will be following.

---

### **Tony Sommer says**

#### **Awesome**

Full of action and intrigue. A truly great space story. I can't wait to get the next book in the series.

---

### **Susan says**

Iron Hand is the first book in the Silent Order series. You can read this book as a standalone, but it does end in a soft cliffhanger for the next book. There is a lot of violence. This storyline is somewhat different and I'm interested enough to read the next book.

---

### **Vic Falconer says**

## **A nice surprise**

This was my first read of a book by Moeller and I am impressed. Great lead character in Jack March and an interesting nemesis in the Foundation, a collective consciousness aiming to take over all worlds. Well written and well worth a look.

---

## **Megan Rivera says**

### **Promising, but needs a lot of work.**

Too many glaring plot holes and continuity errors to continue my suspension of disbelief. The author could be very successful in the future with more practice.

---

## **Lee says**

### **Iron hand**

I am a big Jonathan Moeller fan. I am a little late starting the silent order series. It is a great start of a series.

---

## **Space Cowgirl says**

### **The Biggest Badass???? In the Room**

Jack March????, Alpha member of the Silent Order, privateer and former Iron Hand commando, has a dangerous job of escorting Lady Roanna Vindex?? to a far flung space station for a meeting, where she Will try to bargain to get her brother back from the Machinists. Did he join the terrorist group on his own, or was he kidnapped?

March???? is the biggest badass in the room, every time. He knows almost everything about the tactics of the Machinists, and how to stop them, but Lady Roanna?? and her protector, Heath, keep getting in the way.

This is solid sci-fi with great ?world building and descriptions of the incredible robotic weapons of the Machinists.

This is the first book about Jack March???? I have read and it won't be the last. Recommend!

## **Francis Chamberland says**

### **Silent Order: Iron Hand Review**

Dear Jonathan, well by finishing this book I have completed reading the whole series in an interesting order.

I do not recommend reading the series unless it is in order as written. The adventures Jack March is an excellent story and I look forward to reading the next book in the series. This series is adult reading that I highly recommend reading to anyone interested in reading a great story. As always, thank you for the exciting and adventurous time.

---

### **Ray Dunn says**

**.Think James Bond on space**

A good solid writer.

Continuous action keeps you wanting to read more... and this is the start of a series.

---

### **George Floyd says**

**Good read**

Fast paced action and excellent science. I read this in a single sitting and I felt I could have read double the content.

---

### **Tony Hisgett says**

A really interesting SciFi novel, the plot was a bit simplistic, but *Jack March* was a great main character. The only slight niggle was the way the main protagonist *Simon Lorre* kept managing to escape. The author created situations where he shouldn't have survived, but he obviously wanted to keep him going for future books.

---

### **David says**

**Iron Hand**

Great read, very different storyline from usual. The characters were all well put together and very believable. Tense moments abound, great build up to the final confrontation between the good and bad guys. It was a freebie too. Fab.

---

### **Joshua Buller says**

**Solid Sci-fi**

Iron Hand is a strong opening for Jonathan Moeller's first foray outside the realm of fantasy. With a strong protagonist in Jack March and an interesting take on science fiction, it's a refreshing change of pace from the author that still carries his distinct style. Definitely recommended.
