## **Killer Sam Crescent**

Kelsey is married, and Killer needs to get away from her before he does something he might regret. Losing himself in a drunken night is not the answer, especially when he can't stop loving her just because she's off-limits. He confronts Kels to get all the details.

Her world is crashing around her. Everywhere she turns, she feels trapped. Panicking, Kelsey takes matters into her own hands. She would have succeeded, but Killer saves her, acting quickly.

Never before in all of his life has Killer been scared, and he's even taken lives with his very hands. But seeing Kelsey's on the brink of death, he knows he has to do something to protect her from the man who calls himself her husband.

It's a race against time for Killer to protect his woman, as her husband is not all he seems to be. He's got enemies who are looking for any way to hurt him. Will The Skulls be there for Killer, or will he face his enemies alone in order to protect the woman he loves?

### **Kimberly Morrow howe says**

#### **Oh my hell! Loved it!!**

Killer and Kelsey's story was awesome! I am so glad they were able to fix that little Michael problem ;) I am a little annoyed by Zero but I know that his story is soon. Can't wait!

---

### **Jen says**

This book was part of the Skulls series written by Sam Crescent. It is Book #5, and it is about one of my favorite MC members; Killer. Killer has had a major attraction to Kelsey in the last few books, in fact he pretty much thinks of her as his woman already. A shock is thrown his way when he finds out Kelsey is in fact married..Killer is devastated and extremely ticked off, and he very quickly goes out and does some things will grow to regret.

In the meantime, Kelsey is furious with herself for not telling Killer about her husband. She doesn't know what to do about her life, and even worse is the fact that her hubby; Michael is hanging around after being absent for years...He seems to have secrets surrounding him, and there is definitely more than meets the eye with him. Kelsey ends up making a HUGE mistake, that will change everything, and everyone's lives. Can she undo what she brought forth? Will her and Killer have a chance to be together? Or will Michael end up claiming the wife he never seem to want?

This installment was one of my favorites. There was so much going on in the story, and it was a unique storyline as well. We also get the pleasure of revisiting some of our favorite Skull members and their wives! Tate plays a big role in this book, mainly because she is very good friends with Kelsey..and I loved how she still has a take control attitude!!

The sex is HOT! I didn't expect any less though, because Killer is as Alpha male as they come! There is just something I love about a guy who takes control of his woman, and becomes very possessive over her..\*sigh\*..He just knows how to bring it in the bedroom! Or against the wall...or in the kitchen...LOL..you get the idea! He also is big on dirty talk, and he is extra dirty believe me!

I rate this book a 4.5 stars, and the reason for the half mark gone is the editing issues. There were more than a few mistakes with spelling, or grammar. Normally if there are two or three, I can just ignore it; but in this case there were more than a few hand fulls, so I felt that this time around I should acknowledge that they were there. I still love Sam Crescents work though, and I am still on board for her next book; which is to be about Zero! All in all, I love my biker dudes, and the woman that they have all claimed! This is one of my favorite biker series and I'm glad that I was able to find it!!!

---

### **Vashti says**

I was anxiously awaiting Killer's book and Sam Crescent delivered a great follow up in her MC Skulls series. This is Kelsey's and Killer's story. At the end of Tiny, we get a shocking turn of event from Kelsey's

past, her husband ,Micheal makes an appearance and Killer is stunned to say the least! So,I am wondering, how in the hell is the author going to pull this off...well,pull it off she did. After this turn of event,Killer is broken hearted, how could the woman he loves,be married to another man.He decides to go out, get drunk, and f..k a woman But,Killer's conscience gets the better of him and he feels ashamed about his actions ,how could he have betrayed the only woman he has ever loved. Kelsey is dealing with her own demons,with the appearance of her " paper marriage" husband, her reasons for her marriage comes crashing back to her.The memories of her childhood,her mother's cruelty ,constantly calling her fat ,ugly, and unworthy, plus Killer's confession of sex with another woman becomes too much.Kelsey decides there is only one way out.

To say I was shocked at what she did is an understatement.

There was the old gang appearances which I enjoyed.The story of Zero's obsession with Sophia had me intrigued, but, Killer had asked him if he was in love with her ,and he said he did not know,so this leads me to believe that Prue,might be his hea.His background,or lack of intrigued me to wanting his book. This read turned out to be my favorite book of the series so far and the series keeps on getting better and better .

---

### **Kristina says**

Rubbish. Another cheater, another stupid female accepting his cheating & even feeling she deserves it. Are you kidding me? This whole series is an embarrassment to women.

---

### **Linda Sims says**

#### **GOOD STORY**

It was revealed at the end of the last book that Kelsey was married and had been for ten years. Killer was devastated, and while I did see where he was coming from, I also recall if memory serves Kelsey telling him in previous books that they could never be together, so strictly speaking they weren't in a relationship, it was more hoping on Killer's part. So she hadn't really betrayed him in quite the way that it was portrayed in this book IMO.

But this is a fast moving story with plenty of twists and turns to the plot. There's plenty of hot sex scenes as well. All the other regular characters make an appearance which is always nice. I'm hoping that Zero's story is next. This is a series that I'm really enjoying, what's not to like, hot sexy bikers. Tiny's book still remains my personal favourite.

### **\*\*Elle\*\*Bee\*\*Double U\*\* says**

Killer and Kelsey are probably my favorite couple of the Skulls crew.

Throughout the previous books since Killer met Kelsey, he's made it his mission to get to know the woman and make his intentions known that he wants her. However, Kelsey has made sure to tell Killer they could never be together without fully explaining the reasons they couldn't be together.

At the end of Tiny's book we finally discover that Kelsey is married and has been for the last 10 years.

When things get too stressful for Kelsey to handle and she can see no way to live a happy life, she decides to make a life-altering decision. The first she has fully been able to make on her own without fear from her family or husband.

When Killer is faced with the fact of having to live a life without the woman he loves, he will do whatever it takes to free her from a love-less marriage. After all, Michael only wants Kelsey because she opened doors to his inheritance.

Will Kelsey and Killer finally be able to start their relationship off without the threat of another man in the picture? Are the Skulls finally realizing that with each woman that comes into the picture the more trouble that follows for the MC?

### **Tiffany says**

I felt something lacking in Killer and Kelsey's relationship. Maybe I missed Killer actually courting her(it's been awhile since I read Tiny) so I can't remember how they hooked up. Tate seems pretty involved in their relationship, considering her and Kelsey are bffs. Killer doesn't seem to like Tate(no idea why). She doesn't take anyone's crapola, and won't let Killer hurt her friend. Kelsey has some tstl moments though. Why not tell Killer about her parents or Michael? Did she really think no one in the club would find out? How naive could you be to marry without reading the prenup, and expecting your husband to stay away from you? That whole "marriage of convenience" just wasn't believable to me. Her parents treated her badly-yes, always berating her so why in the world would she sacrifice anything to help them? Yes she does get to keep living in family house, but I'm sure if she told Tate, she would have helped her. Kelsey does get pretty desperate, trying to rid herself of all the pain she has caused by lying, but I thought of it more as a cry for help. Thank goodness Killer felt something wasn't right, and that Sandy is observant enough to see Kelsey was in a lot of pain. Without them, Kelsey would be gone. Killer is very honest about who he is, putting his feelings out there so Kelsey has no doubt about his love for her. Killer is very sweet especially when Kelsey is in the hospital. He manages to whisk her away keeping her safe and pulling them closer. He claims her as his woman, his wife, and his HEA.

### **Jenny says**

Hot and dirty. Loved this couple. Hero was alpha and sexy and heroine was a sweetheart just the way I like them. However hero slept with another woman and heroine is married to another man on paper only so not everyone will like this book. Glad it had an epilogue and we find out they have a baby boy.

---

### **Amanda says**

Seriously loved Killer and Kelseys story. Wish the author had expanded a bit more on Kelseys getting over the emotional scars from her mother, that's not something you can just sweep under the rug, but loved everything else about the story and the characters.

I usually don't find a series with this many books where I can rate them all this high but I think it's because each one, though using the same characters and similar sexual appetites, have all different storylines and situations. They aren't cookie-cutter books and I'm loving 'em!

Next....!

---

### **Crissy says**

For an author who has published many novels you would expect a lot better. Timeframe does match at times. Bad grammar. Short.

Paid over \$6 (aus)'dollars.

Save your money and time.

Returned this for a refund.

---

### **~Steph K~ says**

Sam Crescent remains my guilty pleasure - and this book did not disappoint. Favorite of this MC series so far!

---

### **Roksana says**

#### **Not safe: Hero slept with OW/heroine is married to OM on paper only**

I don't know but If you love someone you would't just sleep with random stranger the same day being very intimate with that person and doing all the things you did with the person you love? Would you not feel a bit disgusted for touching another woman's body? For me though, it would take some time to get over someone and even allowed being intimate with another person! Yes, the heroine omitted some important facts to the Hero, but for him just f\*\*\*k a random girl strait after "knowing" that he still loves her? I ma finding a hard time believing that! You just don't do that when you are in love with someone ..you would't even stand the intimate touch of a stranger!

I don't believe that the Hero REALLY LOVED HER! He left her after finding out she was married, but not even trying to stake around and find out the "real motives" of her circumstances. Instead he left her and found another woman to get the heroine out of his system! Is that a "man in love? I don't think so...Then the heroine was so upset about the whole thing she tried to harm herself and I just felt he did not deserved her!

---

**axola says**

It's getting to a point where all SC characters seem to be the same. I've started wondering if she could write a book where the Heroine wasn't a virgin and didn't have image issues and the Hero wasn't a caveman, who acts like a gangster but behaves like a whinnying ass.

---

**(Tori-Smexybooks) smexys\_sidekick says**

Not bad. Less action packed then the rest of the series. This one focuses more on the protagonists and their drama and less on external conflicts. To be expected since the series on going arc was resolved in Tiny. I liked Killer and Kelsey even though Kelsey reminded me of Angel who I'm not a fan of.

---

I'm looking forward to Zero's book.
