## **Jennifer Marie says**

I really only enjoyed the first story

---

## **Laura Lawson says**

Love reading more Black Panther (especially with the Fantastic Four!)

---

## **Christina Saarinen says**

I liked the concept of this collection, bringing together various Black Panther storylines from different series, but man, did this remind me that there are a lot of comics I don't like. The ones from the sixties were the best.

---

## **Anna says**

It's basically a "BP meets various other superheroes and teams up with them" collection and it could have been fun but the stories are very read-and-forget. Nothing stood out.

But the art was good in some of them.
