## **Obsession: Girl Abducted** Claire Thompson

He's her biggest fan. She doesn't know he exists. That's about to change...

Dark, passionate obsession drives Mark to abduct the woman of his dreams. Now that she belongs to him, he'll teach her to submit, no matter how long it takes, no matter the cost to her sanity...

Alana resists her cruel captor at every turn, but she can't escape the constant sexual torture and conditioning, nor the erotic pain and pleasure he forces on her... Drawn deeper into his web of total control, the outside world slowly falls away...

Then she's faced with a choice...

Previously titled: Obsession

Stalked is a Dark Obsession Series novel. Erotic non-con that's not for the faint of heart. Read only if you dare.

## From Reader Review Obsession: Girl Abducted for online ebook

### Suzanne Steele says

Though I enjoyed this book immensely I will be the first to state that it isn't for everyone. There were times that it was actually hard to continue reading. If you aren't familiar with the BDSM lifestyle you may not 'get it.'

As does the lifestyle--this book emotes raw feelings. There is a depth to the characters and the connection that they form that goes far beyond 'love.'

It took me an hour after reading this to wrap my brain around it and a day to do this review. The author succeeded in capturing the intensity of the connection between a Master and a slave--and for that she deserves to be commended.

She wrote the true essence of the lifestyle and not a glossed over version of it, and that takes courage. I will definitely be reading more of her work.

---

### Book Red says

Ok, I have 5 stared Claire Thompson but this book and I did not get along. I waited for the female MC to die from shock, dehydration or suffocation by penis the entire time. The fact that she said maybe 12 complete sentences the entire book I had really no attachment to her, except pity. The male MC was nucking Futz. If you need any fetish, BDSM playroom equipment demonstration, or long torture scenes this book might be for you. Forced Submission was the entire book.

---

### ~ Beccs ~ says

#### Extremely dark non-con

I think Claire Thompson may well be the queen of non-con erotica and this was one of her earlier ones, dug up and tidied up with her experienced hand and rereleased. It actually reminds me quite a lot of one of her later novels, Enslaved, but I thought this was better.

Mark is one sick and totally fucked up individual. He is completely fixated on Emily, a movie star, believes he is her no. 1 fan, believes himself in love with her and strongly believes that her future is with him, away from her glitzy life and he also believes that she will come to realise this and love him back.

So, after 2 years of scrutinising her routine and some meticulous planning on his part, he is able to abduct her at gun point and take her to his isolated country house. There, he subjects her to a darkly erotic cornucopia of rape, sodomy, bondage, domination, beatings, fornophilia, degradation, humiliation, pee play, piercing and branding to mention just a few. Emily is terrified to begin with but, with daily punishment and humiliation, she soon settles into graceful submission and obedience. She soon finds herself craving Mark's touch, fearing his punishment and develops an overwhelming desire to please him and to avoid punishment.

Mark is satisfied to begin with that he has Emily exactly where he wants her and has everything he could ever have hoped for but slowly begins to realise her submission has been gained out of fear and he becomes

angry that she doesn't love him in return and punishes her severely for this.

So, this is a very, VERY dark story bravely told by Clare Thompson – you have to be open to the darkest side of BDSM to be able to tolerate reading this and there's a definite skill in the writing that manages to twist your mind and turn something so very terrible into something actually quite erotic. I hated Mark for at least the first 50% of the novel – he seemed so deluded and everything he does to Emily is wrong on every level and yet there's some serious mindf\*ckery at work here as I slowly started to have some feeling for him. Sympathy is much too strong a word but I did, to my absolute horror, start to warm slightly towards him.

At this point, in a traditional contemporary romance, an alpha hero would have burst in on the scene and risked his life to save Emily but this sure as hell isn't traditional contemporary romance and all that remains is Mark, a gamma hero at best.

I'm not going to give away the ending, but I thought this was very clever writing and I can't stress strongly enough that this book contains page after page of non-consensual and extreme sex and bondage and domination and you really need to be prepared for this before you read it. If this is not your bag, do yourself a favour, and don't even start it.

#### **4 wickedly dark stars**

---

#### **Praj says**

This book is not for those with faint hearts or restrictive imagination. It is one of the wildest Thompson's book I have ever read. The writings are clear yet aggressive, hardcore and graphically seducing. The intertwined lives of Mark and Emily transcends to a euphoric state of sexual and extreme obsessions; leading to an intensive power chase. The contents are dark and extreme; a wild ride with lasting after effects.

---

#### **Shelley says**

Shew...what a read!! A non stop read in fact. I probably shouldn't have done that. Eight hours later and I think I only just got my heart rate under control again.

This is a very dark hardcore read involving abduction, rape and torture. The scenes are continuous and very explicit.

At some point I should have put it down to breathe but I couldn't. I didn't want to leave it alone for a second. I thought if she can endure this then so can I. Then I find myself questioning the fact that I am actually reading this type of book. What the hell am I doing? I don't have to carry on, but I do!

The writing is compelling and you get sucked into this depraved diabolical world where nothing but pain and pleasure collide. What fascinated me through it all was the mind set of these characters. The reasoning behind it all, for it all. We learn that Mark is an unsatisfied Dominant who feels he can only achieve happiness by forcing his will and depravity. I absolutely hated him. He was a true sadistic. He rapes her body and soul and steals who she is in every way!

This was not an easy read. But I am glad I read it.

I liked it...I think, but certainly not loved it. How could I? even saying that I cannot justify rating the book low when I knew what it was going into it. That wouldn't be fair to the author. I was warned, I'm a big girl and can handle the brutality.

I rate this 3 stars as I would have liked to have discovered more behind the characters. I wanted to get into the dynamic of this relationship and dissect it. I felt I didn't have enough to do that. Perhaps an epilogue would have helped me to resolve some of my own feelings.

That said, I will be reading more by this author.

---

### **Yona says**

From the reviews I expected something darker and more twisted, but to be honest 50 shades was a lot harder to read than this one. Yes, Emily was abducted, but it didn't feel like she was a victim, it was more like she found out she was submissive and he trained her for it. And that she is more happy with him and living this type of life in comparison with the one she lived before she met him - the busy schedule, the media and having no life outside the movie set.

The writing style was very good and the book is very hard to put down, I read it in one sitting.

---

### **UniquelyMoi ~ BlithelyBookish says**

#### **Please note the content warning at the end of my review.**

This book is said to be “*A dark exploration of sensual obsession, dominance and control. Submerge yourself in a dangerous, erotic journey of self-discovery between Master and slave.*”

And to that I say, “you can say that again.”

Please keep in mind while reading my review that I’m a firm believer in the adage, ‘to each his own,’ so as far as I’m concerned, what people do, consensually, in the privacy of their own bedroom – figuratively speaking - is their business. Me? I don’t understand the need to inflict - or receive - pain for the sake of sexual arousal, but I do understand that for some people, it’s a loving, satisfying, intensely important part of their relationships. And more power to ‘em!

I’ve read some reviews of this story, both pro and con, but mine... I can’t find the words to cover all the things I think and feel about it. Emotions I experienced while reading would include incredulity, sorrow, anger, confusion, sympathy, fear, hope... just to name a few. I will say that because my emotions were so tied up in knots I didn’t find the story erotic or hot. That’s not a criticism, in fact, it’s a testament to the author’s ability to tell a tale and take me into such a dark place that all I could think about were ways to escape... and then wondering if I’d actually want to.

To say that Mark Stratton is merely an obsessed fan is being far too generous. What he is, is one f\*c\*ed up SOB. Even that is putting it mildly, and is another reason I couldn’t get comfortable enough to find this story erotic. Had he been a mentally stable, emotionally solid sadist, and Emily Hunter his willing masochist, I’d

probably have gone through my year's supply of batteries before finishing this book!

Just sayin...

Anyway... given how intense this story is, how dark and down-right chilling, the author did a brilliant thing by ending it the way she did. And no, it didn't turn out to be a 'dream/nightmare' tale, but other than that, I'll give nothing more away.

**Content Warning:** This story is not romanticized BDSM. There's kidnapping, humiliation, degradation, rape, extreme punishment and pain. Anal sex, urination, deprivation of varying sorts... I can't even remember all the 'tools' Mark used to force Emily's compliance, but needless to say, I urge caution if you're thinking of reading this book.

Rating this story is hard because I loved it for the same reasons I hated it, and it's all due to the author's talent and ability to tell a tale that pushed hard against the walls of my comfort zone, and yet had me spellbound. I'm still not sure if I liked it, loved it or what. It grabbed hold and pulled me under. I struggled not knowing if I wanted to surface for air or drown in the dark. Will I read this story again? Probably not. Will I look for more by this author? Absolutely.

---

### **Ridley says**

It's a shame I have to go to the dirty cellar that is non-consent erotica to find D/s with actual degradation and S/M with real pain and beatings, but I guess I should be glad I can find it at all.

This one had the whole shebang: humiliation, forniphilia, piss play, whips, canes, suspension, piercing, branding, rape, sodomy, and a cage in a dark closet. The emotion didn't blow my hair back or anything, but the characterization and phychology behind the characters' actions and reactions was above average. Thompson does well at showing us a believable dynamic, even if it's not a terribly healthy one.

Not a romance, by any means, but good erotic fiction that pulls no punches.

---

### **Annabel Joseph says**

I feel the need to review this book just because it did something really amazing. It took a genre I don't generally like--non-consensual BDSM-- and made me like it. It also made some of the things that used to turn me off, like hard pain and watersports, seem hot. I think it's because she gives some hints at the psychology behind it.

I can't say this book is realistic, and it is most CERTAINLY not for the easily offended or faint of heart BDSM-wise, but I will say that this author has some skill to take topics and genres that are a hard sell and make them palatable to a reader like me. She also managed to turn a guy who is a real psycho villain in the beginning into a sympathetic character by the end. I always admire authors who take that chance--who present us with a hero who is not perfect and perhaps even seriously flawed, and shows us an arc to redemption, or at least steps in that direction. Very interesting and brave writing. if you can read with an open mind and you can handle hardcore BDSM, give this one a try.

**~Mel :)~ says**

Umm what the hell did I just read?? I HATE IT!!! I LOVED IT!! I Hate that I loved it!! Oh Mrs Thompson, your mind is a very dark place! I honestly can't think of many kinks that aren't in this erotic horror story. I would have gave this 5 stars but in having so many kinks, it did include my hardlimits which I don't even read therefore I did NOT read those pages!! That and the ending honestly sucked!!

---

**Diana Reyes says**

Wow! What a story. It's really hard to give this story a review. I just finished it and don't know how to feel about it. After all the humiliation he put her through....Would I be crazy if I said that I was glad that she chose to call him and stay? He clearly loved her in a crazy, obsessive way. I even felt something for him myself, CRAZY I know. But it came naturally even after everything. I don't think that just anyone can read this story, but I still recommend it. And actually, I now know exactly how I feel! I LOVED IT!!!!

---

**Diana says**

Dark bdsm for real. Disturbing but well done.

---

**Kym says**

Why would it end like that???????

I am so mad! For a stand alone read this book has the biggest cliff hanger ending i have ever endured. Yes i know Emily's decision but what about what happens when she makes that call. What will be going through Mark's head?? Ugh now i will never know.

As a whole the story was alright. The saving grace is definitely the story line minus the sex and training. Sometimes there seemed to be too much sex. Too many punishments all at once. I found myself just rushing through the later scenes just to get back to the true story.

Mark was definitely of his rocker. There is no other way to put it. He wanted something he would have to take in order to have and he actually did it. Emily was not much of a factor in the book until the end. She resisted for a while but just like any other slave, she submitted to lessen the torture.

I wish i would have been able to get more from Emily in the beginning. I was getting so mad because i didn't know what she was feeling and i couldn't connect to her in any kind of way. By only using the view of Mark i get lost in his deranged way of thinking. I feel the power he has over her. But we missed the important trails in their relationship. We know the moment Emily stopped thinking of him as her kidnapper but by the time we register that it happened all that time ago it has lost its depth. It no longer has the emotion it would had held during the transition.

I could keep going on and on about this book but i will stop my rant now. My only hope is that the next time this book is expanded that an epilogue is added or at least another chapter because the ending sucked! It disappointed me to the point where i wanted to throw my phone. Give me more!!! Please!

---

### **a & says**

You know its true what they say.... don't judge a book by its cover. I finished reading this at two in the morning. I was so engrossed in it. This book is very interesting. The thing I've noticed though with Claire Thompson's book titles, they don't make you think; they're very matter of fact and tell you exactly what the book is about. I never read the original version, The Stalker and I could find it but this one was pretty good. Its one of the better BDSM books I've read and doesn't seem fake or stiff.
