### **Just ok!**

This book was very predictable! It's the same love story. No guess what's going to happen next no mystery. Just ok.

### **Royal majesty**

This book was an ok read. I loved the friendship that the girls has because they are always there for each other. The ending is crazy and so I'm definitely reading part 2.

## **Amanda says**

Majesty is known on the streets for his drug business. He deals with one of the most famous cartel families in the world. He does not care what he does or who he hurts until he meets Royal, and his world is flipped. This is a very explicit book, so if you are uneasy about that- it is probably the best book for you. I do not like the way it ended as I want to know what happened at the party.

## **Ksherrie Theauthoress says**

### **Too Predictable**

It started off good and I was excited about Royal and Majesty because they both were different. Then, somewhere down the line things changed and it started to feel like every other "Love story" that's out now. You could see where this was going down to the very last sense.

My name is K Sherrie,  
And this is just my opinion.

**Good read**

Great book to read I honestly loved the story line! I know Lisa ain't about to try her luck I hope Maj don't fall for her bs. My only dislike was the constant 3rd person talk. It made me feel like I was just reading a book instead of feeling like I'm in the book.
