## **Summer Nights Christin Lovell**

Plus-size Summer is in need of an escape from the turmoil with her parents and stress of every day life at home. She heads to the island of Puerto Rico for a four-day weekend getaway with her best friend, Stella. She never expected to have a one-night stand, nor did she expect that one-night stand to be anything more. But the connection is undeniable.

Cruz has been running from commitment. His job keeps him going, and keeps his loved ones at risk. So when he meets voluptuous Summer, a long-term relationship is the furthest thing from his mind. But one night with her, and he knows he can't picture a future without her. Can he convince her of that though? ...A lot can happen in four days.

**WARNING:** This book contains graphic sexual content between one full figured Southern gal and one hot, Latin hunk. It's a great summer read, just be sure you're near some water to cool off.

### **Char Power says**

This book was a nice lift. Great beach read. Finished in a couple of hours. If only such a whirlwind existed in my life lol

Hot read, but I think I am just too jaded to believe in love at first sight. It makes me less likely to buy into the characters; I just can't take someone seriously if they think they love someone after only knowing them a day or two. Still, I love plus-sized heroines!! And I appreciated the subplot regarding Summer's family. (2.5 stars)

#### **Review**

I had a really hard time getting into these characters. I tried really hard but there was just something about them that didn't do it for me.

I have been a fan of Christin Lovell's for quite a while, but this is the first book of hers that I have read that was not a paranormal read. I really, really enjoyed it and have the bags under my eyes to prove it. I could not put it down last night. It was a super fun read. The characters were likable and "real". This is definitely not a read for everyone. There are no "fades to black", you know everything that is happening ;). I will continue to read everything this author writes.

Ok, I gave it a 3.5 stars, I apologize to the author Ms. Lovell now, because I know that she is the writer of this book, though I truly appreciated. It was a good book, and you know there will be a but, the Spanish Lingo was WTF to me, sorry again, it just felt more like "English/Spanish Lingo", again sorry. I am Puerto Rican and some words that Cruz was saying I was again saying, "Huh, WTF, I don't understand. I know I am not a writer, but I have to commend that the San Juan was very much described perfectly. Loved Ramon and Cruz, very cute and also Loved Stella and Summer. One thing I did admire very much what the Author wrote in the front and I would gladly quote it right now:

"This book is dedicated to all the woman excess sexiness. Regardless of our size, we all deserve the man of our dreams: a man who melts our insides as he loves our outside." Lovely

But I also would like to know where can I find one? Thank you again Ms. Lovell and I do apologize if I have disrespected you with my review. You are a very fine author.

Instalove, but for the most part it's a good book.  
I loved Cruz and how he took care of Summer.  
Ramon and Stella are great secondary characters.

#### **Caliente Amore!**

Super Romantic love stories get me every time! I love Men who know themselves and know what they want! Cruz is that man! Summer has more issues than Newsweek but she is sweet and willing to confront them. Favorite scene is the ocean one; Adding that to my bucket list! Great short!

Okay, this novel was definitely full of intense sensual looks, over powerful sexual drive and killer humor. I really liked it. It was totally worth reading. Even the ending brought a smile to my face.

### **Amanda Sheila says**

3.5 stars, good but not my favorite.

This book is adorable but I think I was expecting more drama. I know the author promised me something angsty yet even until I've reached the end, no drama. Just like that. Quite disappointment.

I think this story is adorable, even though I find that the chemistry between characters are a bit too fast. But I enjoyed it anyway.

I really loved this little story!
