Connor Chris Keniston

Welcome to Farraday Country, set in cattle-ranching west Texas, with all the friends, family and fun that fans have come to expect from USA TODAY Bestselling Author Chris Keniston.

Having a special way with horses since childhood, Connor Farraday has always wanted to establish his own stable. Hard, dangerous work in the oil fields earned him the money to purchase the land his neighbor once promised him. But when he returns home, he finds an unexpected development that may jeopardize his dream—and his heart.

Top in her field, Catherine Hammond is juggling a demanding legal career and raising a young daughter with PTSD. After suddenly losing her grandfather, Catherine returns to his West Texas ranch to settle his affairs. Little does she know the impact that kindness and friendship shown by the small town, and a certain cowboy, will have on her daughter—and her.

Another tough, but charming, cowboy who is working toward his dream, but still makes time for others in his life. The conversations between the characters is just what one expects in real life--- that is only one of the reasons I enjoy Ms. Keniston's work. Easy, sweet romantic read that I highly recommend.

Carolyn says

Connor Follows His Dream.

When the granddaughter of their neighbor comes for his funeral, Connor and the Faraday family adopt the woman and her daughter. Stacey doesn't talk or smile since her father died. Can country life heal mother and daughter? Marvelous story of love and the healing power of animals. Recommend.

For years, Connor had been working and saving to buy Ralph's land. When he is finally ready, is it too late? Ralph has passed on, and his granddaughter, Catherine, inherited the land. She goes there with her daughter, Stacy. As they all get to know each other, Connor finds himself drawn to both of them, but especially Stacy. He feels he can help her. Can he and will Catherine approve? Can they find more than a shared interest in the land? This was a great story, and kept me hooked. I won't lie, I had to grab a kleenex or two! Absolutely loved it!

Three for three! Connor is a beautiful novel that reinforces my love of the contemporary cowboy tales. An oil field roughneck and a wild horse wrangler, Connor is the epitome of the strength, gentleness and true heart of the cowboy. His love of the tough and dangerous oilfield can not compete with his dream of creating a ranch to train wild horses to become outstanding quarter horses. BUT that dream may be waylaid when the neighbor who agreed to sell his ranch and finance it dies before the deal can be complete. When the granddaughter and great granddaughter show up, Connor falls for both of them right off the bat. His interaction with the little girl who has a form of PTSD will melt the heart of anyone who reads the book, but some of his decisions may alienate the beauty who has final say on the ranch.

I requested an advanced reader copy of this book and have voluntary reviewed it. I love it!

Some reason this is my favorite book in this series but cant pinpoint why. Maybe it is the city girl going to the country OR is it the adorable daughter who doesnt speak OR is it this fantastic family that you wish were your own?. Whichever it is I was sorry to see this heart throbbing country story end.

Stella Lynne Thomas says

Wow another great book!

I could not put this book down. The characters were very realistic. The plot has pkenty of surprises. I am looking forward to reading more of this author's work.

Sandra Franco says

Connor and Catherine's story was as lovely as the two previous ones. Each book stands well on its own, but the continuity detail of the mysterious dog really adds to the story! Looking forward to grabbing the next book.

Third book in the Farraday Country series and once I started there went my day, but I just could not put it down. Yes it is about Connor Farraday and Catherine Hammond but the major part which I really liked is Catherine's daughter Stacey who two years ago was in an accident with just her father and herself ,her father died and she was found trying to wake him up ,she was only two! Stacey has not spoken since that day! Ralph Brennan, Catherine's Grandfather dies and she comes back to make the funeral arrangements bringing Stacey with her on the first day on the farm Stacey wonders onto Farraday land chasing a dog and Connor finds her and is afraid the dog might attack her. While Catherine is there she starts to see a change in her daughter especially when she is around the Farradays. What happens? This is a story you just want to get to the next page . I received a free copy of this book and voluntarily chose to review it.

*****4.75 Stars*****

Well, we're off to Farraday Country again and we'll spend a lot of time on the cattle-ranching west Texas Farraday ranch. Connor is one of seven children He was raised by his father Sean and his aunt since his mother passed away after the birth of her seventh child. Connor knew from a young age that he had a special connection with horses and felt it was his calling to raise and train them. After giving Uncle Sam four years of his life he settled hours from home to work in the oil fields. This was a fairly quick way for him to earn enough money to make the down payment on the ranch next door to his

father's.

He and Ralph, who owned the neighboring ranch that had once been Farraday land, had an understanding that when Connor had enough money saved he would return home and purchase the ranch. Unfortunately, Ralph passed away before Connor returned home to finalize the purchase and the agreement was but a handshake deal.

Enter Catherine Hammond, Ralph's big city legal eagle granddaughter, and her young daughter. She was a widow and her little girl suffers from PTSD and has not spoken since the night she and her father had a horrific car accident that took her daddy's life. She had been left alone with him until help arrived and was hysterical she could not wake him. She has been traumatized for the past two years.

Catherine has been lied to by her father her whole life. Serious lies, life-changing lies and omissions. Now she has to figure out what to do with her grandfather's ranch and she just might want to keep it herself for summer vacations and the like. Now, where will this leave Connor who has worked for many years to be able to purchase that ranch.

I loved this book! It was such a good story and we get to see the infamous wild dog from books one and two. I highly recommend this book and well as the others in this series which are all great.

Great addition to the Farraday series!

Absolutely loved Connors book. The book kept me engaged till I could no longer keep my eyes open. The characters were interesting, plot plausible and the chemistry between Connor & Katherine sweet with a hint of more. My favorite parts was the interactions between Conner and Stacey. Would highly recommend this book !

Love it

City girl and country boy taking in love, a little girl traumatized. Keniston does a great job of storytelling and incorporating unintentional equine therapy in this story. Highly recommend this book and the whole series.

Isha Coleman says

Love is a fascinating emotion. How can such a powerful feeling break hearts, mend fences, blend families and cause so many other complications, but prove to be the most sought after feeling in the world? Perhaps, the key to understanding this haunting occurrence is bigger than what we see and factored into what we feel. Connor is currently my favorite story in the Farraday County series. In a world full of so much anger and violence, it's nice to escape into a beautiful canvas of kindness and peace. Catherine and Connor's romance proves that an open mind and an open heart can overcome obstacles that seem insurmountable. Hope and

love are two feelings a person can never have enough of. That's the unforgettable message Ms. Keniston delivers in Connor.

Becky Claxon says

Ralph Brennan lived next door to the Farraday's. Eileen Farraday was over at his house to help him go through his dead wife's things. He went to sit down for his afternoon nap, and when Eileen went over to give him his lemonade, she found him dead with a smile on his face.

Connor Farraday and Ralph had an understanding that Conner was going to buy his land to raise horses. Connor has been working on an oil rig to raise the money for Ralph's land. Ralph's granddaughter, Catherine, who hadn't been to his place since she was a young child inherited the farm. Catherine and her daughter Stacy came to the farm a week before the funeral. Catherine was a big attorney in the firm where her father was a partner. She spent most of her time at work. Her husband had died in a car wreck two years ago. Her daughter Stacy was in the car and had tried to wake her father. She hasn't spoken since the accident. Catherine left Stacy at the kitchen table while she brought their luggage in. Stacy saw a dog and followed it onto Farraday land where Conner was out riding. He saw Stacy with an animal and was afraid it was a wild animal that would hurt her. As he got closer, he saw it was a dog that was growling at Conner. About that time Catherine was looking for Stacy and saw her with the dog. The dog settled down when Catherine talked to it. They got to Stacy and the dog ran away. Connor needed to talk to Catherine about the land, but now wasn't the right time. You need to read the book to see what happens.

This was a great book that I loved. Connor had some insight on how to get Stacy to talk again, but knew Catherine would not be happy. Catherine found out things about her past she didn't know about. Catherine and Connor spent time together and got to know each other better. Of course we get to see more of the Farraday clan. I encourage you to read the book. I voluntarily reviewed an Advanced Reader Copy of this book.

Pam says

Connor (Farraday Country Book 3) is by Chris Keniston. This series of six brothers and a sister is a play on Seven Brides for Seven Brothers. The Farraday boys were all named by the alphabet like the brothers in their Mother's favorite movie. Their Father stood his ground and refused to give any of them the names from the movie. However, since their Mother's passing, they were brought up by their Father and their Mother's sister. They were brought up working on the Farraday ranch until they were old enough to decide what they wanted to do.

Connor had chosen to go to work on oil rigs to make enough money to purchase the Brennan Ranch next door. He planned to work with wild horses. He is close to making his dream come true when Ralph Brennan dies before they can make the deal to purchase his land. Now what will Ralph's heir do?

Ralph Brennan had asked Eileen to come help him go through his dead wife's things. He told her he had made contact with his long-lost granddaughter and had been talking to her and her daughter through the internet. When his daughter died, her husband had taken their daughter and they had seen her only as a small child then lost contact with her. She was very busy, so Ralph intended to clear out his house and go visit her. He tells Eileen how the Farradays and Brennans had come to be neighbors and friends over all these years. Then when she goes to get him a cold drink, he sits down and passes away quietly and peacefully. Will his

granddaughter come down and clear out the house and have his funeral or will she just do everything from a distance? Will she sell or keep the place?

Enjoyable

A likeable cast of characters, a strong sense of place, and an interesting (though far from unique) plot. However, there was a shallowness that the first book in this series didn't have.
