## **From Reader Review Corps Security: The Series for online ebook**

### **Rose says**

This is one of my ABSOLUTE favorite series EVER!!!!

### **Axel**

This book sucked me in by the second page!!! I was hooked & finished it in a little over a day! It was fantastic!!!

I would like to add that there are several scenes that could act as a trigger. They are very dark.

### **Cage**

While it took a little bit longer to really get into this book, like maybe the middle of the first chapter, by the end I was in love. Greg Cage is my go to BBF & he will be yours too. This book will make you laugh & cry & scream in anger, but in the end you will be in love with Greg & Melissa & Cohen! Harper Sloan is great!

### **Beck**

OMG!!! This book most definitely requires a box of tissue when you read it! Very intense but oh so good!!! It's really hard for me to decide if Axel or Beck was the best. I will say, I usually have no problem going from one book to the next but after reading Beck I couldn't stop thinking about it & couldn't begin another book until the next day. Can't wait for Harper Sloan's next book.

### **Uncaged**

Somehow I have to find the words to do justice to one of the best author's I've ever read. As always Harper Sloan has written a book that takes you from one extreme to the other of your emotions. I ABSOLUTELY loved Uncaged & can't wait until Asher comes out. I even read whole pages of this book to my husband (& not the "good" parts either). As always this book is only for adults due to explicit descriptions of mind blowing intimacy & "wiener rings"!!!

Somehow I have to find the words to do justice to one of the best author's I've ever read. As always Harper Sloan has written a book that takes you from one extreme to the other of your emotions. I ABSOLUTELY loved Uncaged & can't wait until Asher comes out. I even read whole pages of this book to my husband (& not the "good" parts either). This book is for mature audiences only.

?

### **Cooper**

As usual, Harper Sloan has a hit on her hands.

I really wasn't sure how Harper was going to pull off this book. After Beck how could she write a book about Cooper. Cooper is dead. OMG!!!! Was I ever wrong!!!

Cooper is heart wrenching, heartwarming, sexy, and fanfreakingtastic. Asher is so broken at the beginning of this book. Can he come back from the loss of the most important person in his life? Does he even want to? Are his feelings for Chelcie enough to pull him back from the edge?

And Chelcie... Who would have thought that she was all that she ended up being. Talk about a strong female role. WOW!!! And what a heart that girl has!!!

“We all have that person, Dee. Beck is yours. Axel is Izzy’s. Melissa’s is Greg. Hell, Emmy is Maddox’s. Every. Single. One. Of. Us. We have that person who makes us complete. He is my person.”

Yes, this book is just as good as the rest of Harper Sloans’ other books. Now, on to Maddox!!!!

#### Locke

I can’t believe it is over!!!! WOW!!! Harper’s fans have been waiting for this book from the very beginning & she did NOT disappoint! I knew, just pages into Axel, that I was going to LOVE this series & I absolutely have. Not one single book in this series has let me down. And I have such a love for Cohen, I can’t even describe it.

Once I started reading this book I just couldn’t understand how Locke became the wonderful man he already was. But it was completely understandable why he felt his soul was so evil. And Emmy, OMG!!!! Who would have believed her backstory. Despite everything she has been through & will go through in this book, she is such a strong character. And she is determined to bring Maddox through his demons to the place he needs to be to be happy & to accept her love.

One of the things I really love about these books is the way Harper shows us what is happening in the lives of the other characters we have come to love. And of course, we get our (at least my) dose of Cohen, too. Of all the books I have read in the last year or so, Cohen is my absolute FAVORITE character. And the ending, I LOVED it, except for, of course, it was the ENDING!!!!

I laughed, I cried, I got pissed off, I sighed!!!! I can not wait to see where Harper Sloan will take her fans next!!!

Favorite quote, I have a couple: Really, those two combined have a level of douchiness that could clean a vagina better than Summer’s Eve.

“Hey!” a small voice screams from the kitchen. “Look, Dilbert! Maddox Locke is a transformer! MOMMY! I wanna be a transformer just like Maddox Lock!” (Of course, anything that little boy says is my favorite.)

I HIGHLY recommend this series. If I could give more than 5 stars I would!!!

#### Shawna says

4 stars – Contemporary Romance

---

#### Di says

#### Fantastic series

I absolutely loved being able to read each book, one after the other. The journey that each couple goes on, had me glued, from start to finish. Harper Sloan made me cry tears of laughter as well as tears of sadness. She was able to turn my opinion of some characters from finding them infuriating, to then feeling understanding for what has driven them and

finally happiness when things work out. Not very often an author can make you empathise with a character, after finding them irritating.

The guys adore their women. They all pull together and make sure that when things go wrong, and in some cases horribly wrong, they are all there, giving each other the support needed. They are family, without the DNA bond.

My two favourite characters are Sway and Cohen. Between the glitter and 'wiener earrings' those two brought some much needed light relief during the dark times.

Only one man holds my heart though and it was a close call between two, but in the end Asher just beat Maddox to the post. I was sure Maddox would be my favourite but now, after finishing all the books, I know Asher is my man.

All the guys and girls have demons to fight and overcome before they get their HEA, and each journey is different.

This is a series that I know no will enjoy over and over again.

### **Allyson ?? says**

done with my reread :)

---

### **Tania Martins says**

5 fucking stars, como diriam os protagonistas masculinos deste livro cheio de testosterona! Não há muito a dizer, é mais uma autora a seguir com toda a certeza!

Gostei de todas as histórias mas se tivesse de escolher escolhia o Cage e o Maddox! Adorei estes meninos e as respectivas mulheres deles! So cute!

Venham as histórias dos herdeiros e herdeiras deste legado!

---

### **Alecia says**

This series is a must read! Harper Sloan is a fantastic author. Hot alpha males, strong as hell women and twisting and enthralling stories!

---

### **This Coull Chick says**

Rather enjoyed this series over all, it reminded me a lot of the, Until series by Aurora Rose Reynolds crossed with the KGI series by Maya Banks in the way it was set up.

Built around a security company made up from a bunch of ex marines each book follows one of the "brothers" as they find love. All big, strong, alpha, possessive...very manly men!

I thought the series itself was well planned out and even though some of the books overlap a bit, you don't

get just a retelling in a different voice. No, each story, relationship has a different set of battles and things to overcome. It was woven together nicely. The pacing was good too

The problem I had was that it got very repetitive, I read this series over a week and I think it was just too much of the same all at once. If I had read them as they had come out and had some time in between them I may have felt different.

One thing I liked was a couple of things happened that I just did not see coming at all, and not something you see often in these types of books, well done Harper for being brave....not going to lie I cried like a baby in one of the books.....I think I may have been over tired at the time and I think that might have help towards my 1 state but I still cried!

---

### **Susan says**

This was an awesome series!! I loved each one the books! Wonderful characters and definitely got all the feels!

---

### **Liana says**

#### **Mixed bag**

Corps Security series by Harper Sloan. Complete series spoilers to follow.

Three stars. What a mixed bag this series was for me. So much so that it's kind of hard to review without being completely harsh. For the most part, the characters are extremely well thought out, especially the women, the depth of whose motivations can often take a back seat to the men's. These characters have a lot of damage to heal from before they can be together. And you can feel their pain and their struggles, you root for them, you get invested in them. This is what you want from your romance series. I was hooked from the start to the very end.

But.

There are so many issues with the plotting, the choices of which scenes to focus on, how certain characters react to certain situations, that I cannot recommend this series unless you can read it cheap or free. (I purchased the complete series at a special preorder price of 99¢.)

Starting at the beginning, with Izzy and Axel. Izzy is a great character. She's a bit immature, but that's understandable as being part of her denial of how over her past she isn't. Axel I didn't really get what made him so desirable. He was mostly a huge asshole. But the problems here are that Axel, Izzy, Greg and Dee all speak with the same disgustingly crass voice. I'm no prude when it comes to cursing, but this is so over the top and forced that it's distracting. And confusing, because any one of them can be saying anything. It's a problem that continues into book two. After that, the language chills out some and the characters have somewhat more distinct voices.

But my biggest complaint is that even though Izzy is completely traumatized by being controlled and owned by her ex, she has no problem when the same words are coming out of Axel's mouth. I had to stop reading and shake my head in disbelief. It really made no sense to me that her only reaction was to get more turned on.

It's a problem that comes up again in Locke and Emmy's book. Her only sexual partner raped her for months and beats the everloving shit out of her, but she gets off on spanking and rough sex? Just no.

All the women in the series are terribly brutalized. Not a problem for me, but it's all basically the same thing over and over. As is the sex. It is abundant and largely the same from book to book. By the halfway point of Beck and Dee, I was skimming through them. By Asher and Chelcie, I was skipping them completely.

I liked that the books overlapped, but hated that when it came to the overlapping scenes, they were briefly talked about when it would have been a much stronger move to write the fully from the other character's perspective. Especially when it came to Emmy and Coop's shooting. In fact, I often found that scenes that should have been fully developed were briefly referenced as having happened and vice versa.

So much in Dee's book brought me to tears. I knew from the first book that she had so much more going on, and I was glad so much focus was put on how oblivious her friends were. It's an important aspect that could have been easily ignored.

I had the hardest time connecting with Asher and Chelcie. They made me cry at times (Zac!), but I think because we didn't know them before, it was hard to fully invest.

Dee's book was great even though Beck wasn't that deep of a character.

Locke and Emmy had the best build up and thorough resolution, though the idea that his demons were worse than hers is preposterous. She was just better at dealing than he was.

Which brings me to my biggest issue with this series. These guys are a bunch of pussies, pardon my French. For all their alpha male controlling bedroom tendencies, they are basically big weeping vaginas when it comes to their feelings. It got annoying fast.

I don't know how the series is classified, but if it's military or suspense, I'd say that's wrong. While I don't think it's the intent, the writing comes across more new adult erotica, even though most of the characters are in their 30s. There was definite improvement in the writing over the course of the series, but overall it's a bit amateur. Still, like I said, I was hooked. These character and stories in another author's hands had the potential to be amazing.

---

### **Ashley says**

I want my .99 cents back. I dnf on Axel- and am not interested in wasting any more time. I did not like the lingo and if I had to read "baby girl" one more time Id scream!

I really can't comprehend the Izzy/ Greg relationship... In addition I don't mind a book with a little fight over confusion but that's all this book is about- miscommunication.

That's a wrap... Now if I could just figure out how to get my .99 and the last 2 hours of my life back.. That'd be great!

---

### **Pamela Ebeler says**

Get ready for some HOT alpha men and their strong females to take over your reading pleasure.

Each and every book regarding the Corps Security men is right here in one beautiful package. And once you crack it open, be prepared to not set it down until its finished, and then you will want to pick it up again and start at the beginning all over again.

We start out with Axel and with all of his Alpha hotness, he is as wounded and lost as Izzy, their story is not easy, but not much in life is. They find each other and even though the road to happiness may be hard, it's always worth it in the end.

Next we get Cage and lets just say that man can be my beast any day of the week!! Everyone has secrets and when they are exposed sometimes that can make the end result that much sweeter, not always but sometimes it happens....besides we get to meet Cohen and all of his "Cohenisms"

Beck...what can I say about Beck that hasn't been said already? All I will say is prepare yourself, this one is one of the harder ones for me to talk about. The feels from this one were off the charts, and I'm thankful I got to feel even just a little bit of them. I can't imagine how hard it is for an author to write something that affects a reader (at least it did me) and be able to continue writing. Bravo, Mrs. Sloan. Bravo!

Uncaged yes we get another glimpse into the Cage family and the wonderful love that Greg and Melissa share. We also get to see this group come together and help support each other and the feels just keep coming.

Cooper, Cooper, Cooper. Once the feels start, they really don't stop. To be able to see two people come together after so much has happened...it give my heart a happy feeling. I laughed and cried with this book, and had to take a cold shower or two - after all we are talking about the Corps men here after all.

Locke - the mysterious man who hid behind his friends. I knew this book would be off the charts, and I'm so glad that it didn't fall short. We learn all about the demons that haunt Locke, and I'm so glad he found his forever. And can I just say that with everything this man has been through, he is a superhero to me.

While each and everyone of the Corps men were perfect, the joys of this series is, you don't have to choose just one favorite. All of the characters will find a way into your heart for one reason or another, and lets just say that if you are able to choose just one (and stick to it) you are a better person than I am. I do have the one I fall back to when I need it, but they all will find a place in your hearts (and maybe dreams) and really...what could be better?!

---

### **Jeananna says**

Binge read this entire book! This is the first time that I have been able to do this with a series! I usually have

to take a break and read something else in between.... Loved these men and the women who befriended and loved and healed with them!

---

### **Aaly says**

Seriously, why I haven't read this series sooner???

Anyway, this series was just awesome, all the feels, over the top, with alpha guys and sassy women who kept them on their toes!

---

### **The Book Junkie Reads . . . says**

#### **Get this one to get the whole Corps Security experience**

I LOVE THEM ALL

Axel

Cage

Beck

Cooper

Locke

Each one of them brought the drama, action, passion, intensity, intrigue, and romance. Each of these men knew how to love and love deep and hard. They found that one woman that would open their world up and change them forever.

This would be that perfect read for a long vacation and you needed time to yourself or a long weekend of totally hot, sweaty, intense, passion, drama, intrigue. You will laugh, cry, empathize, and more.

---

### **Becca says**

Its just as good - if not better the third time around.

I just can't get enough of the men of Corps Security!

---
