Ember's Curse Gena D. Lutz

For Prime-Werewolf Ember Stilwell, life has been far from normal. Decades ago, a vengeful Witch cursed her Pack, leaving the women of her line incapable of feeling love. When an organized group of immortal killers begin to stalk and capture wolves from her pack, she sets out on a path fraught with danger. Just when it seems the world as she knows it will be changed forever, she meets Collin, an Alpha Werewolf with a body built for sin. As her heart begins to heal, she comes to find that the demons of her past are not nearly as dangerous as the nightmares she will be forced to face in her future. Can finding her true love conquer all? Or will the ability to feel for the first time be overshadowed by losing everything else she holds dear?

I received Ember's curse from the author as an ARC in exchange for an honest review. I have to say I haven't read anything paranormal in a very long time and typically not my first choice but as I started reading this one I was like.....

Boy am I glad I took a chance on this one cause I liked, no that's not right, I really LOVED it! I was giddy while reading it kinda nice getting away from what you normally read and branching out and believe me I'll continue to take chances with what I read cause when you do that you find some great books!

Ember's Curse is the story of well, Ember! She is a werewolf with part vampire- not sure how that worked at first, but trust me in the end it ALL made sense. Ember was bad arse and she had mad skills. Heck in the beginning of the book her mad skills were introduced against a couple of werewolf's in another pack that had a lesson to be learned and well Ember just happened to do a little of this.....

There was a curse placed on Ember's family many centuries ago by a witch which essentially left Ember incapable of feeling lust and love until she met "THE ONE". Ember's pack leader, Alpha, was her cousin Tommy and his ever so lovely wife, Sylvia- NOT! Sylvia will make you want to do this to her.....

It seems that Ember is always in "trouble" with Tommy which Sylvia feeds off of but she also feeds of her "power" since Tommy is her mate. Ember isn't out there all alone though never fear she has two very good friends. Nathan another werewolf who believe me ladies we will WANT to know more about him and her kick-arre vampire friend and roommate Harper! Oh Harper, how I loved her seriously that chick had no filter! It was quite amusing.

Well some big time stuff goes down, no I can't tell you what, and Nathan calls in his cousin Collin who is the Alpha male of Nathans pack. Ember first lays eyes on Collin and it was.....

Speechless completely speechless as their eyes met and every thing else fades away BAM she found her man! Collin, fanning myself, well he was sex on legs ~ oh speaking of that yep when they first connected well let's just say they connect. If I was there and laid eyes on Collin I would of

.....
Collin could be my Alpha, yes sirrrreeeee, oh but we aren't talking about me. There's a little hitch to this plan as we all know nothing comes easily :) When you read the book you will find out what that hitch was!

I flew through this book ~ read it in one evening I loved it that much. We know I never, ever, give spoilers in my reviews but I can give you a few hints of what this book had. It had some.....

and.....

yes two killer chicks ~ yep haters could hate but those girls had mad skills.

and of course.....

yes a few vampires there to help and well complicate things and by the end I was.....

I was like oh yes! This was a 5 +++ paranormal read for me. Outside my normal genre but it had everything I loved in a book. A kick arse female, a strong alpha male, hot sex and a lot of drama.

I recommend Ember's Curse the first book in the Prime Wolf series. I can't wait to see where this series goes and what happens with Nathan and Harper! There's many more in this book you will be introduced to but I have to pay homage to Ember since this is her book.

Gena THANK YOU! I loved this book and will eagerly await your next book.

Ember's curse is quite the exciting romance. Ember has been cursed to never feel love until she finds her one and only true mate. The chances of that happening anytime soon are pretty small. But when Collin walks into her life to help investigate werewolf slaying and kidnappings, all bets are off and she can only hope she

survives long enough to figure out what the hell is happening to her.

One of my favorite parts of this book was that it wasn't just werewolves vs vampires vs witches vs human. Ember has friends from all those realms, and she has enemies from them all as well. The world was written in a way that supernatural types were just another part of life - some were good, some didn't care, and some were downright nasty.

Ember and Collin have sparks flying all over the place, but don't really have time to do much about it at the moment (but they do sneak off a few times to make get some alone time in). The end of the book leaves with quite a cliffhanger - and a possible second romantic couple. With some things tied up nice and pretty with a ribbon and others running out of control, it was the perfect set up for a second book that I can't wait to read.

Loved it!!! Gena paints exquisite scenes with her words and evokes strong emotions throughout the book. The tale of Ember is filled with action and adventure, love and tenderness, as well as mystery and intrigue. A must read in my opinion!!!

Ember's Curse was a Refreshing Take on Werewolf and Vampire stories I have read up until now.. This Story has everything in it.. A Alpha She wolf Ember, which in itself is refreshing to have a strong dominant female as an Alpha.. I love how she met her Mate Collin By accident..and how her best friend Harper is a Vampire..The story Line was unique and had moments of humor, sorrow and love all wrapped in with what was going on.. It has left me with wanting to find out what happens next.. This writer Gena D.Lutz is one i expect I will be waiting for her next books to come out, and look forward to the story lines to continue...

This book has the makings of a very good series. It has all the things that I love in a paranormal/romance book. All kinds of sexy alpha males and kick butt women who take no crap. I LOVED this book pretty much from start to finish. Ember is kick butt awesome and let me tell you Collin was a hot, sexy, make you fall on the floor panting Alpha male. I am quite sure that future books (as I am sure this has to be a series) will only get better and better. There are so many stories left to tell. I absolutely cannot wait and sincerely hope there is many more books to come!!For Prime-Werewolf Ember Stilwell, life has been far from normal.

This was an unexpectedly good read! It gave me just enough of a taste of this world to want to read more or it. Enough smut and paranormals to meet my requirements too!

I was fortunate enough to receive Ember's Curse as an ARC. Thank you Gena for the wonderful opportunity!!

Gena weaves us a wonderful tale of werewolves, vampires, hybrids, and so many more magical creatures that is very unique to the paranormal world! Ember is a dominant alpha she-wolf going through the motions until she finds her prime mate; her heart mate. She's a very strong female which is refreshing!

Collin is the oh so yummy leader of the Adelphi pack, the protectors and law enforcers of the supernatural world. You can think of Collin as the King of his kind.

I won't get into the story so as not to accidentally post spoilers but I will say that this is an amazing book! I wasn't sure what to expect before reading it but what I found was amazing! It's a unique story all it's own. Not your typical werewolf/vampire novel. But if you love either of those then you definitely need to read this!! You won't be disappointed!! Though you may be a little jealous of Ember once her and Collin consummate their relationship! Hott!! I just love alpha males! ;-)

Alright make sure you add this to your tbr list and buy it when it's released! I wish I could give it more than 5 Stars!! It's just that good!!

Gena I look forward to your future work!! I am now a huge fan!!

Ember's Curse is absolutely enthralling! The voice of Ember is so easy to read, you feel like you're taking an adventure...in her shoes!

I love the paranormal ideas behind Ember's Curse. There are so many of the loved, traditional creatures that have been created throughout history, but Gena has added her own personal touch to the concept of their existence. There's enough intriguing detail provided in the explanation of their makeup to be captivating without breaking the threshold into overpowering. Gena manages a beautiful balance in this story, drawing pictures with her words that help you "watch" the story unfold, all the while gripping the edge of your seat with a white knuckled grip. I laughed, sometimes hysterically; I cried, both in sadness and with joy. I cursed right alongside Ember and her mates, and mentally high-fived her countless times.

Ember's Curse is a breath of fresh air, brimming with action, love, mystery, and suspense. Don't forget the pinch of comedy. With realistic personalities in a world only found in a good book, Ember's Curse will not disappoint.

A special thanks to Gena for allowing me the opportunity to traipse about in her mind through this story. It was a grand pleasure to share in this little piece of her exposed soul.

Just finished reading Ember's Curse & throughly enjoyed it!

I love that Ember is such a Strong KickAss She Wolf who meets her match in Colin, a Strong Sexy Alpha Male. I love how she was able to blend the action & romance together along with the Different Species we love.

It is a breath of fresh air mixed with Action, Love, Mystery, Romance & just a dash of Comedy thrown in.

I highly recommend it to anyone who love Paranormal Romances!

Imagine yourself being told that you will never be able to feel love due to a horrible curse only to be told you are to be married to someone you have never even met!

As you try to accept that fate, which seems worse than death, you slam face to face with an amazing desire and love for one it seems was destined to be your lifemate?

Sound like a disaster? Well this book threads you through the needle bit by bit as events unfold all around you that could change not only your fate but that of an entire species.

This book would NOT allow me to set it down. I swear it was calling to me to read just one more page which resulted in it being read in about a day and what an amazing day.

I was lost in the adventure, excitement, love, death, terror and there was even a sprinkling of humour thrown into the mix to make this a fantastic read.

So go ahead and open the first page then hold on to your seat and get ready for a wild ride.

Five stars well deserved and an amazing beginning to what I'm sure will be one awesome series.

I had the wonderful chance to get Ember's Curse as an ARC. Here are my thoughts. If you love paranormal novels this book is for you! If you do not this could be the one to change all of that! Gena gives the perfect mix of romance, action and the creatures we all love. Werewolves, Vampires, Nymphs she gives it all in a wonderful tale of a bond between a She-wolf and an Alpha. I love novels with a strong female that can kick serious ass and Ember is that character! You go through this journey feeling everything that she is going through. Then there is Collin, oh Collin! He is the perfect Alpha male! There were times I laughed, and other times where I was just as angry and hurt as the characters! Gena D. Lutz will take you on a great ride with

Ember's Curse-A Prime Wolf Novel....It is a must read! Please add to you tbr and check it out in 2013!! <3

Ember's Curse is an excellent paranormal read. It introduces many dynamic characters and combines werewolves and vampires with a hint of magic. The twists and turns leave you anxious to read more. Gena D. Lutz did a good job including seg ways to upcoming books and left me eager to read them. Can't wait for the next one!

Donna Rader says

This was my first read by this author and I am impressed. The book was so well written and the characters were so interesting. It was one of those I couldn't put down. Werewolf - vampire hybrids. And your totally evil Vamps and werewolves as villains. BUT there are a few other people in her little band of close friends and they have quite the adventure. Friendship and loyalty and an amazing love with a lot of action and danger thrown in. NOT your usual Vampire bites werewolves ripping etc. So so much more of a GREAT story here. Along with loyalty of good friends and sticking together when the chips are down. I really enjoyed this one and can't wait for more in this series. I could say so much more but it would spoil all the good parts so you will have to read it for yourself!

I truly enjoyed going on Ember's adventure on finding herself. I love that she was a strong character before she realized her full potential. There was plenty of kick-ass action along with lusty action intertwined throughout the story. Collin - *sigh*

I look forward to reading more from Gena and finding out more about the other characters, whom I loved as well! (I totally fell for Nathan.)

Such a great read!

I have the pictures that the author used for inspiration posted on my blog Momma's Books

So I have not read a paranormal book in a while so when I got an email from the author asking if I would read her book and do an honest review I was flattered as well as excited because well I did miss paranormal and just have been putting it off. After she sent me the book and I got into reading it I will have to say that this book reminded me as to why it was that I loved paranormal to begin with. Action right from the get go. I have read some books where there is a mix of vampires and werewolves, witches and nymphs but this was the first that I had read that had a mix a 'hybrid'. I was sucked in right from the get go and couldn't put it down I wanted to know more and more and more. I had just forgotten how good paranormal was, and Gena Lutz writes it well!! I am so glad that she got a hold of me to read this because I loved it! I will recommend it

to my friends who like paranormal books as well.

There were so many twists and turns and so much action as well as hotness and well it just had everything! I absolutely love Ember and her best friend Harper they crack me up when they are together. There is just the perfect mix of romance, love, fighting and action, humor, and suspense. I don't want to give away too much about the book so doing this review is a little on the harder side because my favorite parts that I want to talk about would give away something. :(

Instantly I loved Collin I mean who wouldn't? he is hot and ALL alpha! and then Nathan.. he is just the sweetest! but when you get the 'three stooges' together (Ember, Harper & Nathan) you will laugh from time to time that is for sure! Harper is the no bs kind of girl and tells it like it is which always makes for fun times! :)

If you are looking for a great paranormal to read then this is it! I am looking forward to the second book in the series! I loved the ending but was left wondering about a few things and was so happy to find out that there will be more! There is enough in here to satisfy anyone who enjoys paranormal without being to cheesy that is honestly what I get worried about when reading a new paranormal novel!

So to sum up:

Great action

Great love/romance

Good steam

Will make you giggle

Will pull your heart strings (for me it did when we got to know Dane)

Good suspense (kept me in suspenders)

Twists and turns

Non cheesy
