Entangled Jessica Sorensen

Alana Avery's life is anything but normal. Not only does she spend most of her time learning how to solve paranormal crimes and murders, but her dead grandpa talks to her telepathically. If that wasn't enough, the Electi want her for an experimental subject.

But when she goes with Jax to a murder scene where a group of fey was killed by a vampire clan, she discovers there might be more to her powers than she originally thought.

Desperate for answers, Alana sets out with Jax to solve the case and figure out what's going on with her. But what she discovers is worse than she ever could have imagined.

Dawn Ann Cooper says

It was capturing, I was hooked after the first chapter.

I read it and had to buy book two. It was interesting and mysterious but had some potential romance too.

Better than the first?

Well, I'm a little more interested by the end of this book, but still annoyed by a lot of it. Again, this doesn't feel like a whole book, but the middle of a larger one.

We are on book 2 and we are just finding out that she has some kind of undefined power. No details given by the end. Which brings up one of my biggest annoyances with this series. No explanation of any of the rules of magic/powers/monsters. We are told that she is a "Guardian" but we are never told what that actually is other than that they investigate murders... Why do they do that? Do guardians have any special abilities? They hint at people having abilities, but they never actually confirm them. Why does "investigation" require a magical mark to appear on her body?

Also, this is a minor thing, but annoys me a little... Why are the physical/violent ones called Keepers and the Intellectual ones called Guardians? Doesn't Guardian sound like a more physical job than Keeper? and Keeper/Guardian of WHAT?! Lol

I have a feeling book 3 is going to have a Star Wars moment, but we shall see.

Kathryn Packingham says

Nonstop thrill ride!

This series is so good I couldn't put it down! I love the murder mystery and the sparks fly between Jax and Alana!

Lisa Lester says**Great**

I love this series. I cannot wait till the third book comes out. This is the first I've read of this author but I will read more.

Michelle Knox says**Beyond Entangled by this series....**

The continuation of events surrounding Alana's mysterious past, the unfinished business with her dead grandpa, and her growing connection to Jax are definitely keeping me hooked on this series.....

Beth Knight says**Short!**

For a girl who misses her family, they aren't mentioned in this book. Or whatever is going on with her bff. And Dash is barely in it. Really need to combine all three books together.

Toni ~married to a hunk~ says

This book went too quick. It was shorter than the first one and left me with too many questions. I still liked it though and will continue.

Gayla File says**Great.....**

Intriguing. Suspenseful. Keeping me guessing who the bad guy is. How will they be defeated. What is she? Can't wait for the next book in the series. Will all the questions be answered?

Christine (Shh Moms Reading) says

I love these characters...the mystery..the intrigue...I raced through the pages of Entangled looking for answers and gaining more questions along the way. Its addicting and fun and I can't wait to get more!

Deborah says

3.5 Stars

Sarah Crawford says

There may be a spy from the Electi at the school. Vivienne is up to something. Dash, Thad and Jax are all working on protecting Alana. Alana is basically bullied by Vivienne. The semi-scientific experiments are carried on by the Electi yet no one knows what those experiments actually are nor what their purpose might be.

Alana finally finds an evil vampire she's been hunting but she turns out to be way more powerful than expected. There could also be a major war between two groups of fey.

I just didn't find this as interesting as the first book.

Monica Alvarado says

The book Entangled by Jessica Sorensen was a great addition to the Guardian Academy collection. I can't wait to see what happens next.

Alex says

Great read

The story keeps you on edge and wanting more. Author Jessica is an amazing writer creating a new reality. Well written and exciting!

Kitlina says

Loved this little book. And I wanted it to last longer. Now I'm going to be somewhat put off because this series is not finished yet and I don't know when it will be :(
