**Final Justice** Jasmine Cresswell

SOMEBODY REALLY WANTS MELODY BEECHAM DEAD

As an operative with the covert government group Unit One, Melody Beecham has made her share of enemies. Her would-be assassin could be any number of criminals she's put behind bars. But when the evidence points to someone who has no knowledge of her connection to Unit One, the pool of suspects suddenly expands to include almost every person she's ever met.

Melody's partner, Nick Anwar, isn't about to let the woman he loves become the victim of a stone-cold killer. As a web of intrigue and danger follows Melody from Mexico to Washington and New York, Nick comes up with a daring plan to trap their elusive quarry. It will take chilling deception, ruthless determination and complete trust. Because although a killer is out for revenge, Nick and Melody are looking for final justice.

## **From Reader Review Final Justice for online ebook**

### **Lise says**

This book was long for no reason,,the characters were empty,,too long of an explanation for everything,,it was almost painful to read,,

---

### **ElaineY says**

Cresswell's stand-alone romantic suspense has been OK reads for me. Nothing that got me that excited but far better than some duds I've come across so her Unit One trilogy featuring Nick Anwar and Melody Beecham was an unexpectedly enjoyable read.

Melody is capable and strong without being brassy and harsh as I've found some kick-ass heroines to be; Nick is downright sexy and their romance develops at a pace that's realistic yet without losing any steam. That's the advantage of trilogies, I find. Lots of room to balance the romance and the action/suspense. Cresswell's trilogy beat Merline Lovelace's Cleo North-Jack Donovan trilogy hands down!

---

### **Thelma says**

ok

---

### **Kari Gulbrandsen says**

Again, with the passionately embracing male and female agents.

---

### **Ellen says**

Melody Beecham & Nick Anwar #3

---

### **Mondae Roberson says**

romantic, thriller, fun, stong woman

---

### **T.M. Carper says**

A really great book! I read her Ravens trilogy and loved it, so I start looking for her old work. I feel like I

missed a book or two with this one, but it was still a good read--there's enough past details sprinkled in that you get the jist of it.

There's a nice interlude where you get to see Melody in action with another Unit One operative involved in rescuing a little boy who was abducted by his father. The characters and plot are well thought out. It cantake some getting into and knowing who's who, but it has a good payoff in the end.

If you liked her other work, pick this one up.

---

### **Mary Beth says**

Melody Beecham is a rookie dark ops agent who suddenly has had three attempts made on her life. She falls in love with her boss, Nick Anwar. She has recently learned that her birth father is a former vice-president of the United States. It is assumed the attempts are from from being in Unit One, when in actuality; it is her new step mother who is out to kill her.

---

### **Kim says**

2010

---

### **Sandy says**

An excellent sequel (and finale to the series) to Full Pursuit. Both heroine and hero are strong and a perfect fit for each other. Recommended. 5/5 stars.

---

### **Amy says**

I don't know why I'm only giving this 3 stars and not 4, wish there was a 3.5. It wasn't clear to me if this was part of a Unit One series

This story had me guessing until the end.

---

### **Sandy says**

Not bad. Never read her but it was sitting on my shelf. Jumped into the middle of this series so was confused by events in earlier books. Would not go and purchase any other in this Unit One series but if a freebie

presented itself on my Kindle I would read another.
