## Vanessa James-brooks says

fantastic series with about 90 pages each book, you will not want to stop reading! With just the right amount of SPICE. Not intended for anyone under 18 due to some areas . You will be drawn to the main characters Ashley and Xander. Drake is a huge part in this book, there are 4 books in this series.

His One Desire: His Every Whim Book 2 is by Lilian Rhodes. This is the book about Ashley and Xander and Ashley and Drake.

Xander decides he can't be involved with Ashley after losing so much when he lost his wife. Ashley interviews with Drake Winslow to be his assistant and to pose as his girlfriend so he can get out of the press's view. Can she do this and forget Xander. Will this prove Xander's weak point? The book is cute and easy to read. It is very short.

Drake takes Ashley to help her out since Xander can't be near her. But Drake sees the heat between them and soon figures out what is going on. He pushes Ashley and Xander together in ways that make Xander even unhappier. But it ends so awesome. I love these books.

### To short, to expensive

As much as good the story is price is a rip off for 10 mins read. All books combined would be worth it but i can not justify paying 1.99 for a couple of pages

## Terra Drynan-Werder says

Like with book 1 I love that Ashley is a big woman struggling with real issues. The scene in the cottage I could relate to, finally finding someone that makes you feel loved and cherished just the way you are. Thank you again Liliana for writing a book that shows a sexy man can and sometimes is attracted to a larger woman.

The conclusion to Ashley and Xander's story. After letting her go, Xander arranges a job for Ashley with Drake, a friend of his. However, he immediately changes his mind about their relationship and does everything he can to get her back, and deal with his past demons.

Another good read, and a great set up to Drake and Samantha's story.

OMG I am loving these books so far, it's a perfect story about impossible romance and falling in love against the odds and the worlds we live in. I can't wait for the next part.

From the 2 books I already read, this one, the second part was the one with the most character in it. What I meant by that it was like a wine. a small glass in wish you could drink quite fast (since small books/4 shorts stories but still short) but it contains a lot of taste and shades. So this two books were short for sure, love came fast but the past was involve and their feeling felt nuture by the time together and apart.

And something he said mark me which made me think about wine because he said ...he didnt think that he could live more than he were. And somehow that made me though of wine. the right time the lenght and all. He was savouring her curves. And now we got a story with Drake who really wish to have a genuine family

This is the second installment of the series. I give it 3 1/2 stars. Xander fires Ashley as his house manager can be near her any longer and pushes her away but he gets her a job with his best friend Drake. But Drake does not need a assistant he needs a pretend girlfriend. Xander becomes jealous and Drake finds out that Xander and Ashley love one another so he puts a plan into motion. Xander can not believe Ashley went from one billionaire to another. His jealousy takes root. I love the story between Xander and Ashley but it went to fast and was not fleshy enough for me. Still good though. This story ends with Xander and Ashley's story I don't want to go into detail to much it will give to much away, but it part 2 it also starts with Drake (Xander best friend from college) and Sammy's story. Drake can not take his eyes off the curvy red head woman something seems familiar about her. Sammy is Drake's nannys daughter that he had growing up. He could not stand the little girl who pestered him all the time. But she was not a little girl anymore. Sammy could not believe her luck that of all places she was catering she had to run into Drake. Sammy thought Drake was a selfish, egotistical bastard. She could not believe she followed him around like a love sick puppy. And all the women he sleeps with she used to think and wonder why he never tried with her but now she is glad she never became another notch on his belt. Going to have to read part 3 now to find out what happens with Drake and Sammy. Overall a pretty good read wish there was more to the stories wish they were a little longer and fleshier..

## **Elizabeth Bennet says**

This story picks up where book one finishes and as the book ends Ashley and Xander reach their Hea. Throughout this book and part of the last we are introduced to Alex's college friend, Drake. He comes from old money and is a playboy who is always in the rag papers with models, actresses. He is not quite what he seems at 41 he confessed to wanting more than flings and it appears at the end of this book Samantha

Mayfair could be just what he's been looking for.

Ashley and Xander's story felt a little rushed and I was surprised that more venom did not come from his mom. I would have liked more time spent with them but Alex was sweet and romantic and when they got together they were on fire. Wish is the next in the series and begins the new romance between Sammy and Drake. Enjoy!
