Love him, or loathe him — there is no denying that Lucas Wellington is eye candy at its finest.

Lucas Wellington has tried relationships, tried so hard he dated two girls at one time and paid the cost dearly when they caught him red-handed. Now Luke is back to his bachelor ways and enjoying all it has to offer, that is, until he literally gets ran over by one woman who won't give him the time of day. Determined to get this new challenge beneath him in bed, Luke pulls out all the stops until he is successful. But when Luke realizes that Julianna's hold on him is just as strong he panics.

Julianna Grimaldi is the physical therapist for the Denver Broncos and has heard all about the one and only Luke Wellington. Having witnessed his destruction first hand, she is immune to all of his charm and charisma, or at least that's what she thinks. Trying with all her might to spare her heart she resists Luke at every turn, but eventually he tears down her walls and makes her see that there may be more to the Denver Playboy than meets the eye.

The question remains though, will Luke fall back on old habits and break Julianna's heart or will he finally meet his match and find love.

"Damaged things can't be perfectly repaired. That's why you have to take care of the things dear to you the first time"

I'm very honored to have received an ARC!

I'm in love with this book - can you be that, in love with a book?

HourGlass 1 I was beyond disgusted with Luke. I had names such as douchetard, jerkface, butthead, fucktard and various other names picked out for him. I hated him and he just downright pissed me off.

HourGlass squared, I was beyond excited about Savannah and Brooke for all their happiness and heartwrenched at the same time.

HourGlass cubed comes around, and I see it's about Luke and my initial thought was - OH HELL NO! How in the world is he allowed to get his own book, I know, I know he deserves a happy end at one point too, but deep down I was hoping he'd fall flat on his face.... guess in some aspects he did :) And behold, at the end of the book, I fell hard for Luke. Jerkface made me feel! (I'm still mad at you Luke, for not letting me hate you anymore)

"Flowers aren't Band-Aids. They don't fix your screw-ups. When you broke a toy, did glue make it all better?"

The authors of this book are exceptional!!!! I have no words to describe them completely, but getting to know them on facebook is beyond great! I can relate so much more to the characters, I know it sounds silly, but they have a place in my heart always!

"I have never been more in love with anything or anyone in my entire life. I love you, Jules. You are my forever"

Eileen Robinson says

I feel so honoured to have been given an advance copy of this book, I have read the previous two books in this series and loved them. So for me i had some pretty high expectations for this one. I was NOT disappointed.

This time the story Revolves around Luke Wellington, the Player, who will never change, who has no conscience at all about using women for his own needs and walking away with no remorse or ever being effected in any emotional way.

He's continued with his playboy ways ever since being showed up by the two best friends Brooke & Savannah who he dated at the same time, until he was caught. Then he meets Julianna and he begins to question his bachelor playboy ways.

Julianna want's nothing to do with Luke, she' knows all about his past, but she is drawn to him and has to really fight her attraction to him.

Then it happens, they spend the night together. Luke does what he normally does and moves on the next morning. Julianna realises that she's just another one of his one night stands... or is she? Luke finds he can't get her out of his mind and for the first time wants to see where it could go. I don't want to give too much away, but this is a real page turner, with so many little ups and downs and twists you won't want to put it down

I laughed and i cried with this book, The banter and the emotion was rocking!! Julianna was so kick ass, she never made anything easy for Luke, not that he deserved it, but god it was so good seeing him have to work for it !! I wasn't sure if i liked Luke or not, so many times i still just wanted to slap him, but he redeemed himself. I Can't wait for the next installment and more of the HOT SEXY LUKE AND HIS BROTHER CALEB !! Brilliant read... thank you ladies !!!

Peggy Mc says

i was given an arc copy of this book and as i have read the two previous books i was eager to read this as this was Lukes book. Lucas Wellington is a real manwhore in every sense of the word the typical playboy love em and leave em , he even dated best friends from the two previous books at the same time until they found out and acted out their revenge on him. It was at the charity auction that Julianna Grimaldi bumped into him trying to get out the door but Lucas or Luke as we know him thought this was something different so he persued her and although she knew of him she wanted nothing to do with him until one night after too many beers she gave in and in the morning Luke was back to doing what he does best love em and leave em but when it all goes awry Luke starts to rethink his ways and begins to question himself and if Julianna is THE one . i loved this book there was so many twists but i couldnt put it down to see what happens i shed a few tears and laughed a bit too at the antics of Luke`s brother Caleb but then that comes from the penmanship of the author .Will Luke change his ways and get the woman who invades his dreams or is he destined to remain a manwhore i thouroughly recommend this book and the first 2 in the series hourglass and hourglass squared you wil be in for a rollercoaster of a ride and ladies this book comes out on feb 19th buy it you will not be sorry and another Luke book is to follow along with his hot and sexy brother Caleb who is getting a book another hottie to drool over

LUKE. What can I say! When I found out Hourglass Cubed was Luke's story I was very surprised. "Why would I want to read a book about this douche" LOL! Let me tell you why! I think Hourglass Cubed is my favorite installment because it proved me wrong! Luke's story is one of growth and heartbreak, and a good old fashion kick in the nuts ;) I loathe/love Luke and see him in a whole new light. The characters in this book are perfectly balanced in telling Luke's story. It'll even make you think twice about what went down in Hourglass!?!? Cubed is a Must Read!

Moon Reviews says

I would have preferred the continuation of Brooke and Savannah's stories: More kids, more adventure But i have to say that it makes more sense to switch to other characters and Luke is a good one! In this book, Lucas Wellington discovers the meaning of what comes around goes around, and we, the reason behind his player attitude! Entertaining and interesting you will feel the chemistry and sexiness of Luke and Julianna!!!!

Heather Carver says

I really wasn't sure about Luke's book. I wanted him to settle down and find his HEA, but in a way I don't think he can ever change. And this book proved that too me.

Julianna doesn't want to let Lucas Wellington into her life. She knows his reputation and doesn't want to be another notch on his belt. She sees more in him. But can she make him see that he deserves more? Can she deal with everything he will throw her way? Does she allow him to break her?

Luke is happy with his life as it is. Even after the scene Brooke and Savannah caused he still has woman lining up to bed him. He doesn't do relationships and most definitely doesn't love woman. He is thrown for a loop when he runs into Julianna. He is determined that she will be his next conquest. He is determined to have her. But will he break her? Can he only have one night with her?

I wanted so bad to give this book a five star review, but I couldn't. Luke just didn't make sense to me. I couldn't relate to him and he wasn't likable in my eyes. He was a douche and didn't redeem himself. But I really loved the first two books and would recommend this to everyone. Just because I didn't care for Luke doesn't mean you won't fall in love with him. I did fall in love with Eric though!!!!

I was given this copy for an honest review!!

Luke we all met him right? the asshat that was caught playing best friends.
well let me tell you he gets a taste of his own medicine here,
I knew i would love this story cause even though i love/hated him
before, I freaking love him now, He is definitely far from perfect,

Jules she's got spunk she takes no crap from anyone, I love how the authors
write strong woman its refreshing not to have woman crying and begging for men to commit
she doesn't live her life around them and can say no.
she is just a kickass female.

The bickering between Luke and Caleb cracked me up.
there were quite a few laughs and punches thrown which also made me laugh.
This book is about Love, Trust Family and friends.

although the book doesn't have explicit sex scenes it didn't need it, the writing and the story were that good.

I love a book that can grab my attention from the beginning and keep me 100% glued to it til the end and that's what this book did for me.

Another amazing read by Megan and Kym .

Jasminn says

OMG, I absolutely love Luke. & Julianna is amazing! This was such a fantastic read, once I picked it up I could not put it down. I absolutely cannot wait for more from K.S. & Megan! You will definitely not be disappointed by Luke's story, A-freaking-mazing!!

1-Click Addict Support Group says

After reading *Hourglass*, Luke was definitely not book boyfriend material. But then, after reading *Hourglass Squared*, I noticed he had a chance to be redeemed, although I wasn't sure how it was going to happen. K.S. Smith and Megan C. Smith pulled it off though.

For the first time in Luke Wellington's life, a women isn't falling at his feet. Now, he has to chase after her if he wants something to happen.

Julianne Grimaldi knows who Luke is and what he has done. She knows how he played Brooke and Savannah, and she doesn't want anything to do with him.

Luke really changes in this book. He totally redeems himself and shows Julianne that he is the man for her. Julianne put up quite the fight but in the end, she couldn't resist his charm.

I've loved this whole series and *Hourglass Cubed* did not disappoint. Once I started I couldn't stop. We meet some new characters in this book and I hope I'll be able to read about them soon! ~ Leah, 5 stars

Lauren says

WOW!!! You have made me love Luke!!!!

I was lucky to get an ARC for an honest review

We all met Luke in *Hourglass* and what an asshat he was, but deep down inside I knew he was a good guy just needed the right women to help him

Luke flies through women like its a job. He likes to play the field and keep his options opens but all that

changes one night when he meets the women who will change his ways once and for all.

Julianna is a strong women who takes crab from no one and that includes Luke and his womanizing ways. But can she fight her feelings forever?

When these two get together the connection is so strong they cant ignore it. These two make the perfect couple but as in every relationship there will be ups and downs. Luke and Julianna will need to make decisions based on what's best for their career and families, but can the relationship last when the decision is made? Can one give up what they know in order to make it work?

Great job ladies!! You made me laugh and cry again!!!!!!! Cant wait for the next!!

P.S. I Love Eric!

I was given an ARC book for an honest review free of persuasion from the author or anyone else affiliated with this book.

CONTAINS SOME SPOILERS ; WARNING: CONTAINS MATURE AND ADULT CONTENT

This story has 2 POV's. These are my favorite type of books to read, simply because you get to see what is happening from 2 separate angles.

This book is not for the faint of heart, it does contain mature themes and situations.

Hourglass Cubed is Luke/Lucas' story. Yeah, that Luke, the douche who tried to come between Savannah and Brooke in Hourglass? He filly got his dues! In this book, you will just find out who Luke Wellington is from the inside out. Let me tell you this, you are in for one wild ride. I thought he could be redeemed, well think again folks, the ending might just surprise us all!

Ok so we all know Luke, he is congratulating the girls (Brooke and Savannah) on their engagement. In Hourglass Cubed, authors K.S. Smith and Megan C Smith are taking us back a year to when Hourglass ended and Luke finally meets a woman not wooed by his charms.

It just so happens that Luke and Julianna meet on the most awkward of occasions, one being their first meeting. Luke arranges for their second meeting through a mutual friend and continues to use this friend to help him out. Just when you think you have their relationship figured out the Smith gals throw a wrench in the plans.

Luke feels himself drawn to "Jules" so much that he has labeled her as, his Jules. Julianna thinks she has finally found someone to love, but when she falls for him he does a dandy on her. What is the turning point in their relationship? Can they have a HEA? Can the most eligible bachelor of Denver finally be tamed?

Megan and K.S. have dished out another whopper of a book and I personally cannot wait until they team up

again. They are wonderful authors on their own, however when they team up they are magnetic and can make the books explode! This book made me laugh, cry and want to ring some necks. If I could give Hourglass Cubed more than 5 stars I defiantly would.

Hourglass Cubed was the perfect ending to a great trilogy! I could not see this series end in any other way. I hope other readers are as happy with this book as I was.

Megan says

Luke's story is hands down my favorite thus far! Can't wait to share it with all of you! <3

Stephanie Christensen says

I was giving a copy for an honest review.

Oh boy, where to begin with luke. I personally have a love/hate relationship with him. I loved when the girls played him an put him in his place, but I also felt bad. I want him to hopefully someday get his HEA, but I don't know if he can hang up his player ways.

when I started HG Cubed I was like yea julianna put luke in his place an didn't fall for his bull crap, then as I kept reading I was like he's humam an has feelings an needs to be loved too. this is lukes story it shows a side of him that had me in aww a lot. He grew up a lot I'm this book too, and showed me a new side, don't get me wrong I'm still not sure if hes playimg us or showing us his true self.

now jules I freaking love her! I love her spunk, attitude an her not falling for lukes lines. I love that she takes no crap from anyone especially luke! when she mets luke she's knows about his player way, but she finally looks past that and sees a luke we've never seen before, a jealous, a little maturer, and a protective luke. he's especially protective when his younger brother caleb is around. caleb likes to mess with luke about jules, an lukes even thrown a couple punches at caleb.

will jules get her HEA with luke? or will look screw up and lose the best thing thsts ever happened to him?

Liza says

Received an ARC for an honest review

Keep my heart Luke Wellington.

The ladies' man. The man who played Savannah and Brooke. He. Is. Back. Hourglass Cubed set up the biggest redemption to the mess that was Lucas Wellington.

Luke met his match, finally. Jules captured his eyes. She was another conquest he needed to overcome. I

love Jules! She is confident and sassy. She knows her stuff. More importantly, she had witnessed Luke's charade with Savannah and Brooke. She's not the one to give in easily. I enjoyed that she put up with Luke and his unwavering charm.

Luke the playboy was so much fun to read but Luke the romantic got me in real tears due to excessive swooning. He's unbelievably alluring, magnetic and enticing. Love hit him square in the face and what did he do? He panicked.

"I'm in love. Holy shit, I'm in love. I don't do love Caleb, quick! Slap me."

As much as he romanced (me) and Jules, he never failed to made me laugh. Big redemption indeed for Luke! I love how everything played out. I enjoyed every single part of Luke and Jules' story and this is the book that I will always get back to in the future. It's so good!

Megan C. Smith and K.S. Smith is a sure tandem! Their writing chemistry is perfect. Hourglass Cubed is highly recommended!

Kristy Torres says

I was a lucky person to receive this book as an ARC

“Love doesn’t have a timeline, especially the life-altering kind. It can happen even faster when your heart knows it’s met its other half.”

Just when you thought we were finally done with Luke, HE'S BACK!! But wait, is he still the same as when we met him in Hourglass, or has he changed? Could it be possible that he learned the error of his ways?

“Flowers aren’t Band-Aids. They don’t fix your screw ups. When you broke a toy, did glue make it better?”

Julianna, oh Julianna! When we are first introduced she's a no nonsense type of girl, I love her instantly. She know what Luke did to Sav and Brooke, she was at the auction. Will she be the one to tame Luke's wild ways?

“Tell you that I am madly in love with you. That you drive me crazy as I think of you. That you are the air in m lungs, the blood in m veins, my life.”

This book kept my interest the entire time. I cheered for them both, and a few time I wanted to yell, "What were you thinking?" But oh what a ride! The character we meet in this story are fabulous. Caleb, Luke's younger brother is a riot.

Luke has finally met his match, and what a match they are.

Thank you ladies for making Luke swoon worthy. He's no longer considered a douchetard. Wonderful writing by two wonderful ladies. The perfect story to give us readers what happened when Luke was knocked off his high horse.

"I have never been more in love with anything or anyone in my entire life. I love you, Jules. You are my

forever"

I can't wait to read about Caleb's antics!
