## **Relentless** Cindy Stark

Lily Chandler lost her job and lost her apartment. The last thing she wants is to lose her heart to a small-town sexy cowboy who is known to love 'em and leave 'em.

Rumored bad boy Luke Winchester needs to shed the reputation he hasn't earned if he wants more than a stolen kiss from Lily. Unfortunately, the scorned woman who stands in his way happens to be Lily's best friend.

Lily intends to steer clear of temptation and remain loyal to her friend, but Luke's subtle yet relentless pursuit weakens her with each encounter. If she gives in, will she become another notch in his belt or find the love she's always longed for?

## From Reader Review Relentless for online ebook

### **Jane says**

I purchased *Relentless* as part of the *Aspen Trilogy ~ Books 1-3*.

Luke Winchester, sexy handsome cowboy bad boy wants to go after Lily Chandler, a visitor to his small town of Aspen, Utah. One small problem is that she is Hannah's best friend, the same Hannah that eight years ago spread lies and ruined his reputation.

He gets Lily alone, sparks fly until Hannah arrives ~ WOW is Hannah *Relentless* in sticking to her lies and spreading new ones...

*Relentless* was packed with emotional problems, fun cowboys and a sweet girl making it an enjoyable quick read.

---

### **Quinn Fforde says**

A great small town story

---

### **Joann says**

#### **Dramatic**

Excellent storyline, want to know more about Hannah ! Little town drama is always entertaining. Glad this is book one cause there's some interesting characters.

---

### **The BookChick says**

This was such a sweet story. I liked Lily and Luke a lot but hated Hannah the harpy. She was such a vile a vindictive person (and for NO reason). My only complaint with the book was that I wished that there was a resolution to Hannah and her lies so that Luke could have been publicly vindicated.

---

### **SheLove2Read says**

3.5 stars

Short, western contemporary. No major drama...would be a good rainy day read.

---

## Katrina says

A Great sweet short romance, and who doesn't love a cowboy!!!!

Considering the length of this story I found that Cindy has added all the goodies in. Relentless has lies, romance, betrayal, deceit and of course a small town with gossip and smexy moments to of course.

The characters were likeable and the storyline intriguing. Recommended for an afternoon read or someone wanting to fluff that inner romantic.

PST don't cha just love the cover \*\*\* purr \*\*...

I'd love to have seen more and it to have been longer but found that the story written was well put forth.

3 1/2 stars ;)

---

## Cheesecake says

Lily the new girl and Luke.

Not really a 4star but it just hit the spot. Romantic, good communication between MCs, nice setting, strong h, sweet-natured H.

Lily and her bff Hannah get laid off at the same time. On top of that Lily had lost her cheating fiancee to her slutty sister. So she is a bit gun shy when she meets Luke, and it doesn't help that Hannah says he is a womanizing man-ho... but is he really? Nothing is as black and white as I was expecting.

The plot is simple but not as predictable as I was expecting. I really wasn't sure how things with Hannah would be resolved (view spoiler).

Very short satisfying read. I will def read more by this author.

safety (view spoiler)

## Ingie says

**A simple, sweet and bland Novella - just 2 tiny stars.**

**Twenty-five-year-old Lily** moves along with her friend Hannah to her friend's tiny hometown. They live temporarily in a small house on Hannah's parents' farm. The very first day is Lily running on **the local hottie cowboy, Luke**. The guy who broke her friend's heart when they were teenagers. Luke flirts immediately with Lily and Lily can't help but get really interested. Lily hear some bad things about Luke from her friend, but what is true? What did he do to Hannah long ago? If Lily must choose, will it be the best friend or the divine guy as her heart started to pound for?

**I can't help but "roll my eyes"** at times. Is this written for fools? I see, feel, know, and so on without every detail written on my nose. Everything become "big" for the heroine but it's hard for me to "feel" with here, even though it's a real matter for the hero and heroine. Sigh! So in the end it raises for the better and I get really involved in this little story after all.

**It's really kind of cute** and sweet but it's a little too simple for my taste. The hero is a goodlooking green eyed cowboy. He is friendly, polite and sexy - Oh well! For his sake, their horse-riding, a cowboy hat and the hottie on the cover, I give this novella approved but not more.

**I LIKE - just a tiny, tiny bit.**

---

**Raven says**

I am not sure what I was expecting when I downloaded this book, but it wasn't what I got- it was so much better! This was my first time reading anything by Cindy Stark, but it will certainly \*not\* be the last. I purchased this for free last night on a whim when I couldn't sleep. Based on the cover and the short description, I anticipated a nice "fluff" read with a good bit of sexy thrown in. This is a classic case of "do not judge a book by its cover". I was surprised and pleased to see an actual plotline, and one that played out extremely well. The novella was just long enough, and the characters developed fairly well. I am giving it 4 stars, simply due to the fact of Lily's friend, Hannah. Lily was 30 years old in the story, so I am guessing Hannah was around the same age, yet she acted sooooo immature and young- I often had to remind myself how old she was- she acted and responded like someone in her late teens or (very) early 20s, actually throwing tantrums, holding years-long grudges, and spreading vicious lies. If there would have been a little more background on her character, I might have been able to overlook this, but as it is, it is kind of a nagging point in my mind. That said, it was an entertaining read, and don't be surprised if Luke makes you want to find a sexy, RELENTLESS cowboy of your own. ;) Finished in one sitting.

**Brooke says**

A fun, quick little read... if you like sexy cowboys and sassy girls who fall for them... this book is for you...

After losing their jobs, Hannah and Lily decide to go to Hannah's home town of Aspen, Utah. An itty bitty place where everyone knows everything about each other. When Lily meets Luke, she feels an instant spark, and wants to find out more. The only thing standing in her way is her friendship with Hannah. Luke is Hannah's ex.. and Lily has been warned that he. is. trouble and she should stay far away from him. As Luke and Lily get to know each other and experience a traumatic event together, the truth unravels, and the force of love takes over.

---

**Shirley says**

This one was okay for a quick read. I liked the connection between Lily and Luke. There were definite sparks there. I liked the small town feel and the way the characters interacted. The only thing that I really

didn't like was Lily's friend Hannah.

My dislike of the scorned best friend had nothing to do with her being the 'bad guy' in this story. The problem was that readers weren't given a really clear reason as to why she was the 'bad guy' and what caused her to act the way she did. She seemed to be full of hate for no apparent reason. Luke had spent as much time growing up in the same small town that Hannah did. They had a lot of the same friends and frequented the same places. You would think in all that time a mere rumor, based on a blatant lie would have been cleared up.

Basically, if anything else, except for the scorn of Hannah, had caused Lily to fight her attraction to Luke it would have been a much more enjoyable story. \*sigh\*

---

### **Radd Reader says**

The Hannah storyline never resolved. You don't ever find out her motive behind spreading the rumors. That annoyed me.

---

### **Lindsay says**

This was a sweet quick read. Not much on the steam side but still an enjoyable read!

---

### **Katinki says**

This is a terrible book.

Boring. Cliched characters who lack any notion of depth (except for the over the top "friend" who was just ridiculous). Cliched plot (or maybe it's just a lack thereof altogether. Meh writing (at least it's 3rd person). Silly ending.

Okay and minor rant.

**FOR THE LOVE OF GOD, USE A FUCKING CONDOM.**

See, in this book, the female protagonist (if we dare to call her that) decides that no, it's a-okay to have unprotected sex with a guy she doesn't really know that well AND who is rumored to be a major player. Are the rumors real? No, but SHE DOESN'T KNOW THAT FOR 100% CERTAIN AT THAT POINT IN THE BOOK. STUPID STUPID STUPID.

Safe sex is the best and sexiest kind. Wanna know why? YOU DON'T DIE FROM IT.
