Wow!!! What an emotional roller coaster Rosanne Bittner's River Of Love delivers her readers. Zeke and Abbie's lives are tested as well as the Cheyenne. Danger, kidnapping, & vengeance strike the Cheyenne and Monroe family. The Cheyenne and Sioux must face the inevitable, the buffalo are being thinned out by the easterners traveling the plains. Their way of life, as they know it, is being dramatically hindered, but one thing remains solid... Love, because it conquers all.

Excellent

I Highly Recommend The Savage Destiny series. An Awesome story that I'm thoroughly enjoying reading. As soon as I finish one in the series I must move along to the next. Will be sad when I reach the end.

River Of Love is another great addition to the story of Zeke, Abigail, their family, the Cheyenne, the other tribes and the history of the mid-1800's in the west. An amazing love shared by Zeke and Abbie that seems to endure the greatest of challenges. I've learned more history of the Indians and of their customs and religion than I ever learned in a history class. My heart breaks for the indians and their lives as I read. As I read about a character in this series I often wonder if they'll be seen again later and I'm never disappointed yet sometimes shocked or surprised when I find them again. I can't wait to see what awaits Abbie, Zeke, Lone Wolfe, the indians and all the other characters in the next book.

Really, you MUST get all 7 books in the Savage Destiny series and fall in love with Zeke and his Abbie!!! My heart felt every emotion possible with these two - I cried, laughed, stressed, rejoiced, cheered, worried along with them. When a book/series can do that, you *know* they're the best! If I could only keep one set of fiction books, this would be it, hands down, no hesitation!

While I always enjoy reading how a couple gets together, I *love love LOVE* the romance and story that follows the HEA/wedding. I think that's another reason why I so enjoy this series - it didn't just stop at the wedding - we get to experience all their joys and struggles through their married life - but yet how much stronger their love grows over time.

This 3rd book is one of my favs in the series - once I started reading it, it was a struggle to put it down and sleep/work/eat... :) How Zeke and Abbie deal with one of the most challenging struggles married couples could ever face both broke my heart but proved that really, love and forgiveness and understanding and acceptance all are of part of making a real-life (fiction - ha!) marriage work.

This review is of "River of Love", book #3 in the "Savage Destiny" series by Rosanne Bittner.

"River of Love" begins in 1853, as Abigail Trent Monroe, her husband "Cheyenne" Zeke Monroe, and their three children, son Little Rock, and daughters Blue Sky and Young Girl, are living in Colorado. Abbie is also expecting a fourth child. Happiness, however, will continue to elude the Monroes, as trouble will find them from multiple sources.

The first of these is Zeke's half-brother, Red Eagle. Red Eagle is an alcoholic, and one day he sells his wife, Yellow Moon, to a white outlaw, Nick Trapper, for whiskey. Trapper and his men repeatedly rape Yellow Moon, kill her and Red Eagle's son, Laughing Boy, and sell Yellow Moon into prostitution. Red Eagle begs Zeke to find her, and he is especially motivated when he learns that Trapper's partner is the infamous female outlaw "Lady Z", a.k.a. Dancing Moon, Zeke's former lover who has a history of terrorizing the Monroe family. Zeke will find "Lady Z" in this book, but once again, won't kill her, and again, he will regret that decision.

The second source of trouble for the Monroes is the U.S. government, and white settlers, whose westward migration causes trouble for Zeke and Abbie, their Cheyenne brethren and all Indian tribes.

While searching for Yellow Moon, Zeke encounters two women who will play a role in his life. They are; Bonita "Bonnie" Beaker, a missionary who Zeke saves from outlaws and who later falls in love with him; and Anna Gale, a prostitute-turned-madam. Both Bonnie and her future husband and Anna help Zeke and Abbie when they are faced with issues and need help with them.

In other developments, Danny, Zeke's white half-brother, falls in love with and marries a woman, Emily Epcott. Their marriage, however, is not a happy one, and Danny has a brief affair with an Indian woman. (Danny and Emily reconcile and have a child later.) By the end of the book, Zeke and Abbie are parents of seven children: sons Little Rock, who later takes the name Wolf's Blood (he is the only one of the Monroe children who refuses to be baptized and given a white name); Jeremy and Jason, and daughters Margaret, LeeAnn, Ellen, and Lillian. For a time, Zeke and Abbie are happy. But, as always, fate and society have other plans.

Upside: As always, Ms. Bittner's writing is full and emotional. It's hard to come up with different ways to say how exceptional Ms. Bittner's writing is.

Downside: The only downside is the pain I felt at feeling what Zeke, Abbie, and some of the characters felt at what society was doing to them.

Sex: Ms. Bittner's love scenes were a little hotter this time around, but she will never be accused of writing erotica.

Violence: Ms. Bittner writes very violent scenes for a romance novel, and the pattern continues in "River of Love": multiple scenes of assault, battery, and killings, which are mildly graphic.

Bottom Line: No author I've read pushes my emotional buttons-good and bad-the way Ms. Bittner does with the "Savage Destiny" series. "River of Love" is just one more shining example of that.
