Stormy Glenn

**Sweet Oblivion** Stormy Glenn

[Siren Classic ManLove: Erotic Alternative Paranormal Romance, M/M, vampires, public exhibition, sex toys, HEA]

*I just wanted a night out on the town, a little fun. When Mr. Tall, Dark, and Mysterious walked into the bar, I knew my chances had just increased. Damn, he was fine, too. And I planned to have him before the night was through. I just had to get his attention first and then he would be mine. With that in mind, I started across the bar...*

*Okay, I don't do morning-afters, so why am I in bed with the same man I had sex with the previous night? And why are we in his bed? Why not my bed? I never went home with my conquests. He was really hot, and great in the sack, but I didn't do relationships. They were messy and emotional and...*

*Wait.*

*Are those fangs in his mouth?*

## From Reader Review Sweet Oblivion for online ebook

### Nikyta \*Miss Forgetful\* says

I have to admit, there's a certain charm in Stormy Glenn books. I, for one, cannot resist them and I know I'll keep reading them.

This was a cute book. It's hard for me to rate because I wanted to actually slap Micah a few times. He was funny, and really slutty, so he gave me a lot of laughs. Except, he was somehow this big bad warrior who could knock down his mate without breaking a sweat later in the book but ran screaming from a weaponless man earlier in the book. I was flabbergasted with that.

I'm not a fan of alternating first person POV, so the style wasn't exactly to my liking. But the story is fast paced and easy to read. We get to see playful, serious, angry and cute moments that made the story very appealing. The plot is interesting and a bit different with relation to how the brothers originated on Earth.

I was intrigued with the story, who the brothers were, their mission and how they acted. I would love to be able to read more about them.

---

### Clover says

it was very difficult for me to finish this book. I stopped and took the book again like 4 or 5 times before finally ending it.

it reminds me a lot of those stories by JF and it's not a compliment.

I really like SG because she always makes me laugh. but unfortunately, not this time.

---

### Ang -PNR Book Lover Reviews says

Totally going to read this with Nikyta!!!

Read this with n!

Hmmmm was different

---

### Vicktor Alexander says

3.25 stars

This story started off so wonderfully. It had all of the earmarks to be another brilliant Stormy Glenn novel and then it just sort of stumbled and never regained its footing.

Micah and Stavros had the perfect blend of sexiness, conflict and affection and I wish that there would have been a little less tension and a little more emotion, every time you turned around Stavros was getting upset and walking away and then to my shock the story just sort of ended. Something that is very unlike Stormy.

I struggled with the rating for this. I usually give Stormy's books a 4 or a 5 star rating, not just because I like her, but because I love her writing and the books deserve it. Knowing the heartbreak that sort of surrounds this book and the sadness that sort of tinges the story, I wanted to give the book a 4 star just based on that, but it wouldn't be fair to the story or to Stormy.

Micah's story seemed unfinished, things introduced and skimmed over and then never mentioned or explained and as stated earlier the ending just sort of drops off for me. But I still liked the story. Liked it enough that I will no doubt read it again and read the books that are sure to follow in this series (I find myself so enamored and intrigued by the "brothers" that were in this story and want to see who their mates will be). So it was a sweet read even if the ending left a little to be desired.

#### **Sweet Oblivion**

This was another great book loved it and can't wait to read more of this series and I will be as soon as more comes out....

---

### **Karel says**

I feel like this is paedophilia, or something extremely illegal, considering the MC's mental age. It feels like I'm reading about someone who's age-retarded or something. In between foot-stamping, tantrum-throwing, and saying-things-I-didn't-mean-to, the only adult behaviour he's managed to display so far is the ability to have sex.

Never a stellar recommendation of a character.

---

### **Hc says**

At the beginning I swore I felt like I've either started reading this before or its very similar to another book (what I couldn't tell you at the moment) There are a few things that seem like copies of other books too. The one coming to mind is the vadok seeming quite similar to Christine Feehan's Carpathian vampires... but at the end of the day I still enjoyed it. Would be interested in continuing books on the other brothers

---

### **Foretta says**

I loved this book and can't wait for the next book! I don't typically give reviews but thought this one time I would. I think that not everyone will like it but that is ok because if everyone like what everyone else did then reading would become boring! I personally do not ever trash others in such a public way. I have written to an author about a book I didn't care for but that was in private (and I am ONLY a reader not a writer!). I think that for a Stormy Glenn book in 1st person it was interesting and new for her. I look forward to reading more about the other brothers!

---

### **Anna says**

It was ok, hopefully a new beginning to a new series.

---

### **Absynthe says**

If there's a single original concept here, I've missed it.

Micah is shallow and boring, with no redeeming value that I could see. Stavros is a regurgitation of a dozen other Lynn Hagen/Stormy Glenn/Joyee Flynn characters. The first 30 pages or so have maybe one page of plot, if I'm being generous. The whole book is utterly predictable and tedious.

Every character, concept and plot point is a really poor mash-up of most other Lynn Hagen/Story Glenn/Joyee Flynn books.

Everything about this book has already been written significantly better elsewhere. Since there are more "brothers", I just pray that this isn't the beginning of a series.

But my BIGGEST problem is... why does Siren keep publishing crap like this?

---

### **V says**

3.5 stars!

This story wasn't great, although I don't think it deserved one star either.

It did have plenty of sex scenes, if you like that kind of thing, then by all means this is perfect for you.

Another reviewer said "This is a repeat of just about every story cliché this author has ever written." Well, there is still readers out there who haven't read this author and will find this story just perfect for them.

If you check the reviews, the rating goes from one star to five stars.

Read this book and make your own decision, if this story was a waste of time or something that you enjoy, only you can tell.

If you want to read something witty, you won't find it here, you better check John Grisham and James Patterson, mind you, Stormy writes much better sex scenes than those authors ;)

### **Phaney says**

#### **2012 Review:**

Uh. I am not quite sure whether I should be laughing my head off or raging in a mad fit.

This is one of the most asinine books I've ever read. The plot and character set-up and the invented super-tech were completely nonsensical and stupid. I am sure some weird twelve-year-old might get a kick out of

them, provided you ditch the sex, but lord, this was awful.

The characters. Whiny drama-queens. Teenage ones, at that. (In spirit and behaviour, if not in body.) Immature, did I mention immature? Clinging to anything and any way that might possibly create a stupid conflict out of thin air. Including the one guy who apparently literally would rather kill himself than talk to his oh-so beloved and try to understand him.

So the whole thing started out as straight-up porn, complete with a slutty, unsympathetic protagonist narrating. (Yes, we have double first-person again.) It's shallow, brutal and unsafe.

And then it gets "better". Turns out the other guy is a self-important, delusional nutcase of the usual big, bad paranormal super-warrior type. And I don't care if the human's your soul mate, you do *not* fuck an unconscious man. That's rape. Asshole.

Seriously, what is *wrong* with these people? Is it me? Has my perception become warped somehow so that I see high-handed disrespect and violent sex everywhere?

Actually, no. I am just terribly unlucky. I remember this author's pulled crap like that before; it's just that in connection with the book I read before this one I feel somewhat persecuted. And here I thought I could take a break with a silly, light book. Oh, it is both of these things, but it's also atrociously bad and shoves the same issues at me with which the last book managed to ruin my day.

To make matters worse, this is obviously the first book for a series, although that's not stated anywhere. But the setup could not be more obvious if it clocked me over the head with a tree limb.

Gah. I guess I am settling for being disgusted and annoyed.

---

### **Dallison says**

Loved it.

---

### **ReviewerLarissa says**

Most infuriating book ever.  
Most shallow characters too  
No plot  
Absolutely no communication what so ever  
Too many holes to count them.

Really, this is bad, even for this author...

---

**Tailtiu says**
