### **Dina says**

Another 3 stars!

I'll say it again. I'm really loving the story, but those abrupt incidents are really cramping how good this is!

Still. I'm gonna read more ;)

### **~ Cariad ~ says**

It's no Fifty Shades, but there's enough of a story to keep me reading - nice and quick, just needed something light after Seduced in the Dark!

...So much more could have been done with these characters

### **Blzd says**

Getting more exciting and darker. Next please...

### **Kaye88 says**

I can't believe that I read this book out of order.. DUHHHH :(

So now I'll go back and I guess I'll have to read the first two books before I can figure out if Jake is gonna run after Mallory or not.

**This little quickie might just give me a run for my money and keep me interested long enough to finish the series. It definitely has potential, but then again a lot of these quick reads do and since there are so**

**many books similar to this genre right now I have to make a choice.**

Anyone out there who suggests that I continue on??
