There is a mystery. There is something in the tower. Some kids try to figure out what it is. But it is not there in the day. Once I saw figures in my old house. Once I saw a shadow going to the laundry. Once I heard voices. Once I heard voices. The house creeped me out. I would recommend this book to Damien. He likes mysteries. Since this book is a mystery he will like it. He would be the best person to recommend it to.

Haven't read any of the Boxcar Children in about....\*\* years now, since I have no real reason to as they're quite juvenile even by children's book standards, i.e. little for adults to enjoy, even those that do read other juvenile fiction, but my online library has a number of these available, so I decided what the hey.

The audiobook is rather neat in that it includes sound effects, something most audiobooks do not, so it felt a bit more like a radio play or something rather than an audiobook.

As for the mystery...seriously critiquing a mystery designed for seven year olds is fairly pointless, but I doubt this is anyone's favorite Boxcar Children mystery. Everything is neat and clean and gets wrapped up likewise. Nancy Drew stories contain more excitement.

One of the best in the whole series! The audiobooks are hard to get used to due to the number of characters/voices but we still enjoyed it.
