Omg wow!!!!

What a story!!!! I'm so glad I had all 3 books I would of died how the first 2 ended. Lol

Where to begin?

The story captivates from the start you will not want to put the book down believe me. You emotionally attach yourself to the characters, (I find this hard with most books). Alex phwoooooor damn is he hot!!!! The author picked the best for her cover as that is all I could picture and boy does he know how to please he made me blush.

At the start you start reading thinking yes I know where this story is going to go, well he'll no! It flips and changes throughout that you do have keep reading and not give up, you need to know about Alex's background and Olivia's.

I can't wait to read Luke's story next and hope I can get my hands on Caleb's too he's mysterious I want to know what's happening in his noggin.

Congrats on an amazing story xxx

This boxed set includes Volume 1, Complications, Volume 2, Distractions, and Volume 3, Connections.

This is one of those sets that I prefer to just be one book instead of three mini books. With this type I prefer to wait until they are sold as a set instead of buying each one individually. I also like that Olivia isn't your typical twig thin character.

This set is about Olivia, who is coming out of a bad relationship, and Alex, the knight in shining armor. Olivia owns her own cupcake shop where she meets Alex. Their relationship goes through many ups and downs as each of them have their own wounded past. A good romantic read.

Loved this series

This story was real interesting to read it was easy to get involved in and I wanted to keep reading till the end. Loved the characters. And it's nice to read a story about a girl who is not a toothpick model type and more real

I'm only giving 4 stars for Alex and his tragic and abusive back story. In all honesty, that was the only part of this series that truly captivated my interest. Everything else was pretty blah to me. Every time I thought drama was coming, that hope was quickly nipped in the bud. At some point, I became quite hopeless. It seemed that the only points of angst or contention that were cultivated only occurred in the minds of the main characters. Nothing of great importance came to pass. Even the 'horror' scene that occurred close to the end came off like a walk in the park. Where was the shock??? The turmoil??? Even the stalker messages were a joke that I couldn't even laugh at. I was waiting for something. And I kept waiting right until I read the words 'the end'. I feel like a jilted lover, just waiting.

Really enjoyed this book. Not new to the author so I was expecting it to be good and I wasn't disappointed. I'm glad I waited for the completed series as it would have driven me bonkers waiting to find out what happens next. I loved the storyline and the characters. A four and a half stars read for me as I felt the ending was a bit rushed and I wanted more. However, it was an easy, hot, fun and fab read that I'll recommend.

Wow amazing was gripped from the start

Annie says

Boring and very predictable. Left a bit unfinished too I think. Listed the problems and by who but no results or end game.

Jenny (Ladies Night In Blog) says**Blah**

I didn't hate it but it wasn't great either. It just didn't get to involved in any level. Not really interested in reading about the other characters.

Pretty much crushed by the crappy way Olivia's 6 year relationship ended, she's not really in the market for

a new man. But when the most delicious man turns up in her cupcake shop, Livy feels something she never felt while she was with her overbearing, cheating ex, Miles. Fortunately, Alex seems to feel the same way, though he has issues of his own, with an abusive father and a cold, cheating ex who slept with one of his best friends. The pair are drawn to each other, but there are a lot of obstacles to overcome for them to solidify their relationship. Well worth the read!

Great books! I loved the fact that you got to see both perspectives in this love story....I am going to read more books from this author, she did a good job!

Jasmine Roman says

This book box-set was amazing I read Luke's story first (Alex's friend in the book) the book is called Electric and I fell in to love with Emilia Winter's writing so much and I will promote any book she has and reading this proves to me the first book I read wasn't a fluke. There are so many authors that have plenty of books out but only one is good no Emilia.

Olivia is an amazing woman who works her butt off at her cupcake shop she just broken up with her ex-boyfriend of six years. He broke up with her because he was cheating on her and after the break up Liv started realizing she should have broken up with him years ago with the way he treated her. Telling her she needs to lose weight and she ain't pretty enough comments like that leaving for days at a time just really being a a**hole.

Alex is gorgeous powerful man who is a workaholic and had a horrible childhood that damaged him then he had a girlfriend who cheated on him with his best friend Luke but Luke didn't know who Julia was so Alex forgave Luke but their friendship was not the same. So Alex has been hurt but when he goes to Livy's Cupcake Shop he wasn't expecting to find a beautiful woman who memorized him. So when he leaves and days later can't stop thinking about her he goes back and asks her out and she says yes.

That's how their relationship starts and will love them I read this book in one day you will not want to but it down. I laughed, cried, and was seriously hot and bothered and I loved it. I have become Emilia's greatest fan and will promote anything of hers.

Monica Akinyi Odhiambo says

First book, in this series was interesting. Unfortunately the book ends with such a cliff er you have to read the other books. I really want to read the other books because the Emilia Winters seems like she has taken so much effort to build up her characters, with a very good plot.

I loved Olivia....such a good down to earth woman, and Alex is everyone's dream guy. He had his issues with his father, but with Olivia's help, he got thru them. I especially enjoyed that Alex, even tho he could obviously have any woman he wanted, he fell for sweet curvy Olivia. Read all three books in 3

days.....enjoy!
