Three Tequilas Tricia O'Malley

Librarian Note: This is the original cover edition of ASIN: B01CC5FKTG. The alternate cover edition is here.

It's hard to resist a good old-fashioned treasure hunt.

And far be it from Althea Rose to do so. Even if her boyfriend, Cash, is less than thrilled about it. When an esteemed institute in London hires Althea and her dive master buddy, Trace, to document a high-stakes treasure expedition, they are pulled into a game that neither of them had realized they were playing.

In a race to find a rare Aztec emerald lost on a sunken pirate ship, Althea is forced to use every trick in her book to stay alive.

Even magick.

I've blown thru these books so far, including the novellas... Such great characters and the stories super cute. I hope Tricia O'Malley continues to add to this series...

Laura Holland says

Not going to lie, this one scared me mildly more then the first two. I'm clearly not cut out to live Althea's life. Even though we both love dogs and diving. On to the fourth!

Siobhan Henn says

The more Miss Elva the better ;)

Sandee says

Great mystery and entertaining characters. This time the mystery involves sunken treasure and lots of diving. I have loved every book but I think this is my favourite so far. Mysterious new characters, romance angst and powerful artifacts. I just love this series! What I enjoy most is that each book is unique. The mysteries are well thought out and presented in a way that lets me participate. So much fun!

Althea Rose is a psychic and has somewhat recently discovered she's a witch too. She and her friend Luna have a beautiful shop, Luna's side, and tarot reading, Althea's side, in their hometown of Tequila Key. Thea also dives with her friend Trace and does underwater photography. When she and Trace are hired for a dive job and pictures, it seems to be a treasure hunt and they're excited. At least until the man that hires them is murdered and both of their homes are broken into! Between the neice of the dead man being a pain and other weird things going on, there's a mystery to be solved. Althea and friends come together to get it solved. There's lots of adventure, scary thrills and laugh out loud moments in Three Tequilas. I totally enjoyed it and will definitely be reading more of the Tequila Key series. I definitely recommend this book.

The third book in this series was better than the second one. I laughed at some of the thing that happened in this light paranormal cozy mystery. There were some things that were very obvious to me. Such as being

followed because of a locator attached to the boat. Why put the location on the ships computer when you know that the docks have no security? But overall enjoyed the book.

Leslie says

Love these books!

I love Tricia O'Malley's Tequila series. They are sooo much fun to read. I highly recommend them and I definitely suggest you read them in order.

Elizabeth Padro says

Enjoying a fun lite easy read with fun characters!

Barbara Hackel says

Aletha and Trace have been diving together at least twice a week for years. It gives Trace an opportunity to dive for enjoyment without the responsibility of watching the charter people he usually takes out. It gives Thea the chance to take underwater pictures for that part of her business. While mutually good, recently their strong friendship has been ruffled by Trace's interest in something more personal from Thea. She is trying to decide what is going on with Cash, and puts Trace off.

Meanwhile, they are hired to lead a treasure hunt for a large emerald lost 200 years ago in a shipwreck. What they get instead is murder and threats and all sorts of unpleasantness!

This exciting mystery has best friends, romance, and magick with ghostly help. The treasure hunt is exciting and you feel like you are on the dive with Aletha and Trace. It makes the popular fantasy come to life through the author's wonderful descriptive writing.

Be sure to read this series in order so you know the characters and all they have shown they are capable of in the past. Then get ready for some more twists, turns, and surprises!

A lovely day for a sail in Tequila Key

Althea and Trace are contacted by an English professor who is chasing a shipwreck which went down off the coast of Tequila Key over two hundred years ago containing a magnificent haul of emeralds. Of course being Althea things are never straight forward, the main stone La Serpiente is cursed, but that's not going to stop Althea and Trace taking part in the most exciting dive of their lives, and getting paid handsomely for it. As always though it's not long before things start to go wrong, they find out there's a curse, not just an old pirates take but a proper curse, then the man who hired them is found dead. Cash thinks Althea should walk away, he's beginning to get frustrated by the way deadly trouble always finds Althea lately and he's not wrong

her life has changed dramatically since they met but Miss Elvi says they can't walk away the whole world will be in danger of the wrong people gain possession of the emerald and release the power within it, so Althea has no choice but to do whatever it takes to make sure they find and keep the emerald safe even if it might mean the end for her and Cash.

Jayde Hope says

I enjoyed this storyline more than the earlier books. I'm finding that these books are great for when I need to take a break from study. They only take a few hours to read, the characters are lovely and there's always a nice ending. It's the perfect relax and unwind balance for a tired brain!

Crystal Burks says

!

I thoroughly enjoyed the book. It was a real page turner for me. That Althea Rose can get herself into some predicaments!! I just love her!! I can hardly wait to read the next book!!

Rene LePore says

Loved it!!!

I am totally enjoying the Althea Rose series! Having a love for the ocean, book 3 has been my favorite so far. If you have not read the first 2 in the series, they are both fantastic and I recommend you do first to really get to know Althea, the series main character! I'm off to read book 4.

Ann Vinson says

As good as ever..There were some surprises !

Ever since I received the first book of the series I have been hooked ! Being a kid of the Keys in the late 60's the descriptions ring so true for me. Open young minds and imaginations and read them all..happy reading

Deb Henrich says

I love this series
