## UnKiss Me Dawn Martens

After spending years suffering abuse at the hands of her father and protecting her baby sister, Eden Blake takes a chance. She calls on the Angels Warriors MC asking for protection just months before her father is to be released from prison. She never expected that call would bring her face to face with her past.

Jasper 'Angel' Hughes, President of the Angels Warriors MC, battled his way to the top. He fought his way through hell, cleaning up the mess that was once Satan's Law MC. Wanting to serve a better purpose in life he took on the role of child protector. Protecting them from their hellish lives and getting them away from their abusers. When he gets the call to protect Eden, the first girl he ever loved, he vows to win her back and never let her go again.

But when a new secret comes to light that Eden was hiding, will they get their Happily Ever After?

*Each book in the trilogy will be 50K words. All three books will be in ONE paperback.*

## From Reader Review UnKiss Me for online ebook

### Philomena Callan Cheekypee says

Talk about starting a series off with a bang-this was a fantastic start to the series.

Eden calls on the Angels Warriors MC for protection for herself and her little sister from her father. The Angels Warriors are known for protecting women and children. Eden didn't realise that the president of the MC is Jasper who broke her heart years ago.

I really loved this story. As secrets unfold between Eden and Jasper I was gripped. Great romantic suspense filled with drama. I loved it and can't wait for more of this series.

#### I HATE CLIFF-HANGERS

But, Dawn's work makes you want to read the rest in the series! If a book has a cliff-hanger I don't bother getting, and if I read one that I didn't know had a cliff-hanger, I don't bother buying the rest. In this case, Dawn has left me intrigued enough to WANT to know everything. I love all her characters, great MC book!

### Kara says

The only way I can sum up this book is..... I felt like I was reading the biker version of a Days of Our Lives script. Too much going on all at once, and apparently everyone has a "BIG SECRET" SHhh..

The story had so much potential and would have been excellent if she would have written full length novels on each couple alone. Too much of an intertwined story that just made the book a mess and on top of that it's a cliffhanger.

That being said, I will read the next book with hopes that it's a whole lot more clean and a bit longer so that you can really read the story and get into each individual couple by themselves.

Eu gosto muito desta autora e como eu odeio cliffhanger eu esperei sair os 3 livros para iniciar a leitura. Grande desapontamento... o herói é um completo canalha, assim que a heroína sai da cidade ele se joga nas drogas e álcool e começa um relacionamento com uma das vadias que era inimiga da heroína. E este relacionamento dura até o momento que ele descobre que ela voltou pra cidade, então ele chuta a mulher e ainda diz que ela sabia que isso aconteceria.

Completo idiota e fraco de caráter. Babaca!

Nossa heroína não é muito esperta também... toma uma série de decisões que ferram com a vida dela cada vez mais. É um desastre e um drama atrás do outro.

Se você procura um "book boyfriend", não é aqui que vai achar.

Sorry!!!! Too dumb to live!

---

I really like this author and I hate cliffhanger, then I waited out the 3 books to start reading.

Big disappointment ... the hero is a complete bastard, so the heroine leaves the city he plays in the drugs and alcohol and begins a relationship with one of the bitches that was an enemy of the heroine. And this relationship lasts until the moment he finds out that she's back in town, so he kicks his girlfriend out and still says that she knew this would happen.

Complete idiot and weak character. Asshole!

Our heroine is not very smart too ... take a series of decisions that end up screwing her life more and more. Is a disaster and a tragedy after another.

If you're looking for a book boyfriend, is not here you're going to find.

Sorry!!!! Too dumb to live!

---

mumbling!!!! still ...

What mother abandons her children and puts himself in a hostile environment to protect another child that's supposed to be your sister. Its an attitude too dumb to live.

Seriously?

I'm supposed to believe Eden left her two small children with her best friend for five years so she can get beaten and raped by her father on a daily basis to save her small sister, that might not really even be her sister?

Hell, NO!

Foxy some MC wanna be whore gave birth to a child, dropped the child off with Eden's father, and Eden leaves her two small children with her best friend so she can be beaten for five years?!?!

What mother would abandon her kids like that?

Her best friend's Lily's dad is the best attorney in the state and so is her best friend Hilary she could have gotten some charges on her dad, but for me to believe she chose a small child over her own NO WAY!

So far fetched I barely made it!

**Christy Wilson says**

This is the story of Jasper and Eden, who fell in love while growing up together. The gist of their story?

Nothing more than a series of misunderstandings and lies through out - whether by minor characters, or the two main characters themselves - which causes continuing separation between the two. At one point they each say to each other "no more lies" while each of them KNOWS they are keeping a secret from the other. The reader knows his secret, but we aren't told what hers is - though I had it pretty much figured out (but I'll

admit, not completely). All the lies by all the characters frustrated me as a reader, and made me not like much of anyone in the story at all.

The pacing of the story was also off a bit as well; it just didn't flow well. The emotions in scenes went from one extreme to the other. I also had a hard time keeping up with the supporting characters - there were two other males and two other females that the main couple grew up with, and they were all in relationships. All the men are now in an MC so you were told their real names, and their biker names - and I could never keep up with who was who. And which female was dating which male.

I wanted to like it but it just didn't work for me.

#### **4 Secrets only hurt Stars**

When I first picked up this book, I thought the writing wasn't the best but I continued reading...then the drama just escalated and found myself rolling my eyes over and over again.

But by the time I got into the story, I couldn't put it down.

Then as soon as I read the last paragraph, I just HAD to get the next book in the series.

It's like a daytime soap opera that is so over the top but you just can't stop watching!

Off to the next story of Lilly and Zippo....

### **Saunders says**

one of these stories where you grit your teeth at the female characters as she screeches throughout the story and actually needs to grow up!

### **Marcia Lazdins Hendershot says**

I had to return this book at the 63% mark it sucked that bad. Not one character was likable. After reading reviews of her other books I have added this author as one to stay the hell away from. I will not be reading her books her style is NOT anything close to romance, the author seems to think lying and cheating are romantic!

Omg secrets everywhere

Eden as such a shit life at only 25 she as gone through the mill her father is a total monster and bastard there is nothing that he asnt done to her but she alway looks on the bright side of life loads of things happen but once her father is out of the pic as in jail she can start getting her life back for her an her sister but when she hears he mite b out soon she needs protection she can't go back to the life s he had so she rings the Angel Warriors MC but she gets the shock of her life when she see Jasper or Angel as he goes by know he was her high school sweetheart an best friend they grow up together but she left him so he as a lot of question for her know she's back but he broke her heart so things wont b so easy the secrets they both have could cause more drama 4 there relationship

I luvd these characters Jasper/Angel is super hot he is the president of the Angel Warriors an a lot as changed but know Eden is back he isn't goin to let her go not after her bein away for so long no one knows what Eden as been through only her bff's Lilly an Hillary Jasper will do anything to get her back he as never stopped luvin her an he will wear her down she is sassy as ever an this just turns him on even more once he get his hands on her they can't stop anything from happening they have sex everything they can't seem to get enough of each other after not havin each other for so long they need each other more than anything

This was a good story I 've been left wanting so much more so I m hopin I find out more in the next 2 books but the story is really good it's heart breaking what these characters r goin through there is so many secrets goin with everyone nearly everyone as secrets once some of they come out they tear people apart an it will b hard to get them back together I have been left wondering how could it end that way with things still up in the air fingers crossed I get the answers but I did enjoy this an dyin to find out what happens with everyone

The book has a great storyline it's super sexy with hot bikers what more could you want but it is a cliffy that's a killer but I would recommend it it's full of action xxx

Unkiss me puts a fresh twist on motorcycle romance. Dawn Martens has written a unique tale woven and laced with romance and suspense. I loved it! Several times while reading I found myself shaking my kindle while I screamed at the characters. There are a few steamy up the kindle screen moments that had me wondering where can I find my own Jasper. There were also some hilarious moments that had me laughing aloud...be ready for Mrs. Shepard that woman is a nut! I cannot wait to see what unfolds in the next books.

I did not care for this book at all. I personally felt this story was poorly written and put together. There was so much going on that no one idea or topic got any time. As soon as you would start to read about something it would change. Sometimes it felt like I was not even reading a complete sentence. I am not a fan of books that are based on a "misunderstanding" that could have been worked out with just a little bit of communication and this book is nothing but lies and misunderstandings - with all of the characters not just the main ones. And most of it was just ridiculous and petty. Nothing was resolved in the end, and I mean NOTHING. This wasn't just a cliffhanger, it was basically reading the first 1/3 of the whole book. It's very frustrating to feel like I paid money for a few chapters and not a book. Really wish authors would not do that. I will not be buying/reading the rest of this series.

### **Cristina says**

*Warning: This book contains sexual situations between an adult and a minor so if you are easily offended by this then you might want to reconsider reading this book. The novel is also part of a 3 book serial so it ends with a cliffhanger.*

I was really conflicted about rating this book because I kept going between 3 or 4 stars. I settled for 3 but truth be told it's a little bit above that.

Why did I struggle? Well because at times I really enjoyed it but there were parts I skipped ahead...and when those parts involve sex it means that the book has no 4 star potential for me. Good story and great sex should both be in a great romance book :D

Here's what I liked :D

- Interesting story - for a biker book it had a pretty interesting story, filled with drama and suspense. Even if at times it was a little predictable it still kept me on my toes :D

- Hot biker :D Who doesn't love that? In my mind I was seeing Charlie :P

- The new style of MC in which they put their "powers" to good use they don't pride themselves on being 1%

What I didn't like was the way the characters interacted and acted sometimes...it just made me what to strangle them. Not to mention the frustrating "misunderstandings" and refusal to "talk about the past".

Would I recommend this book?

For a biker bitch like me yeah...it's a little different from your usual MC life but the story still holds some elements that you can usually find in a MC novel.

This is your first time reading a MC book? Then I don't recommend you start with this one.

I received a copy of UnKiss Me by Dawn Martens in exchange for an honest review. I have to say this book was fantastic. Dawn did a wonderful job with the storyline, the characters, the flow of the book to the point it made it a real page turner. Never know what was going to happen next to Eden. To see Dawn bring Eden and all her friends back together after not speaking or seeing each other for years. For them to be back together is great only to find out each one of them has secrets of their own that can destroy each other. Does it? Can their friendships survive? Well one you have to read UnKiss Me to find out all the story and then I guess we have to stay tuned for book 2 cause there is more questions I know I have and I am sure will be answered. Dawn is an amazing author. This is one series I am dying for more and this is just the beginning.
