Rambling in circles

I felt this story was not quite right. The author rambled on in some places and seemed to lead the story in circles. The flow of the story was not smooth almost juvenile.

Rebecca Stigers says

I found the story interesting and good characters...the main characters Chad and Cara are high school kids and she goes through some scary stuff while Chad being the alien I'm not sure of his real age...just know this is a cliffhanger! (which I don't really like)

Susan Lee Thuener says

I guess shifter stories are one of my favorites.q

This is a different sort of story. A human girl discovers there are other species and falls in love with one of them. He takes her to meet his parents and in doing so starts a chain of events that are still ongoing at the end. The excerpt from the second book in the series explains a lot of the reasons for what is happening. I liked it.

This is an amazing book! It was a little slow at first but it really kept me guessing who was who. An end that I didn't see coming!!!

Annette Drewett says

An intriguing take on a paranormal/alien mix. Lots of different situations leading up to the final chapter but sometimes a little confusing. I enjoyed the story.

I voluntarily read and reviewed an Advance Reader Copy of this book.

Sci Fi isn't my usual genre, however, this book had a great plot and well defined characters which made for a very enjoyable and entertaining read!

For a YA book it was exciting. From page one to the end it was hard to put down. Cara got more than she bargained for when she moved to LA. She became involved with were shifters, were beasts, Cloud aliens, and Chad, sweet Prince Chad. The pace moved quickly from scene to scene as it was tense and exciting in each chapter. Ends with a Cliffhanger. A very good read

Sabrina Gabriel says
