Even I have to admit, that's one sorry blurb. It does NOT do the story justice, at all. But, don't be fooled by the lackluster synopsis --this is an outstanding book.

Humor and romance are aplenty in this novel, and I could not get enough.

Devorah doesn't know a lot about love, but she does know Ellis, her ex's brother, is not it.

Ellis doesn't feel this way. He know's Devorah is the one. She's just going to take some convincing.

Devorah and Ellis were the perfect combination of push and pull--and if you don't know this about me--I love good back and forth. Devorah pulled, and Ellis pushed--in his sexy, one-of-a-kind way.

Devorah's fear of her mouthy mother and aunts, kept her from the love that was so clearly in front of her. She did this by avoiding the truth, pissing Ellis off, and being downright humorous.

Ellis was less fearful--but he kept his self at bay for fear of scaring Devorah away. I thought it was pretty considerate, even though it was killing him to hold back. He was very considerate of her feelings, even though at times I wanted to strangle her--and smack their heads together in a kiss, like two poorly dressed, or undressed Barbie dolls.

I had so much fun with this book. I really can't say much about it--except that I adored the familial relationships, the banter between Devorah and Ellis. Devorah's fierce protectiveness of her friends, her apprehension--and the overall love between all of them.

It was funny, it was romantic--and through out it all, it was realistic. I can't say it any other way. Read the book!

This author sat herself right next to the Queen of Black Romance, Christina C. Jones. Highly recommend it!

Favorite Quotes:

"Cel, you know I'm a lover, not a fighter, but if you want me to let that ***** know these hands are rated E for everybody, just say the word, sis."

"I'm so serious, Cel. Where's his place? I'll roll up; hit him with The Stevie. Here's your fade, baby. Signed, sealed, delivered--it's yours. Or THE Oprah if he got a new ** in there. You get a fade, you get a fade, everybody gets a fade."

Loved it

The book was very relatable and easy to read! I definitely had hoped for more. Hopefully, there is a sequel in the works!

Love it!

This is a super cute story that I enjoyed a lot. The characters were very relatable. However, there was one side story that was unresolved to me. I hope it is addressed in another book. Other than that, this is a definite winner.

I freaking loved it!

The conflict was alittle.. odd but nevertheless it was address that it was a rather.. lame reason.

nevertheless I enjoy this book and the sass is everything.

I really enjoyed this book! Both characters had such distinct voices and personalities, which made it easy to become invested in Ellis and Bee's relationship as a reader. A great winter weekend read. I can't wait to see more from this author!

I loved this story and can't wait for it to become an Ava Duvernay directed Netflix release!

I had the pleasure of reading an advance copy of Nicole Falls' first novel, *Adore You*. This book is jam packed with drama, romance and laugh-out-loud funny lines. Nicole has a natural voice that shines through her prose, taking you through the story like you're being led on a tour.

Ellis and Devorah (or Bee, as she is affectionately called by friends and family) have known each other for years (he's her ex-boyfriend's brother and a close family friend) and have even tried the relationship thing a time or two. Ellis' notorious playboy ways have always landed him square in the "Not Him" column. Not to mention, Bee doesn't want to be the girl that has dated both of the Everett boys.

But this time? It's different. No, seriously. They're older and wiser and El might just be ready for what Bee is looking for. Bee doesn't see it, but El is about to WOO the crap out of her.

What I love about this book is the conversational tone throughout that doesn't make you feel like you're reading a book, more "hearing this story of these two people that got together". A great first effort by a first time author, looking forward to hearing more from Nicole Falls!

I really enjoyed my reading experience with this! It's got some great dialogue and all the jokes and references land well. I really loved the fact that we got to experience a love story that's not in its beginning stages, we enter the story six months into Devorah and Ellis' relationship, which I think is incredibly cool and added a nice touch of realism. Their relationship is a little complicated but very sweet. Cheesy even but enjoyable nonetheless.

My only real issue with this was the climactic conflict. It was for lack of a better term dumb. Which was exacerbated by the fact that not only was the concerns of the heroine unfounded but her leaps of logic truly bordered on irrational. This isn't always an issue for me in romance because that's kinda the nature of the genre most of the time. However, in this case it just didn't sit right for me so I was dissatisfied with the climax. The resolution saved it for me because it was so cute and funny.

Favorite bits of dialogue include:

“Yes, mom?”

“Har de har, bitch. You wish this was your mom.”

“Trey just looked at me in amazement. “Nigga, are you grinning? She got you wide open like that?”

“Ol raggedy ass Carlton Banks lookin’ ass nigga. Tryna play my friend”

Cute and quick romance. Though I wanted to fight her a time or two throughout the book, Devorah's smart mouth reminded me of my circle of friends. Very funny. She'd fit right in.

El & Devorah

Truly loved Ellis and Deborah's undercover romance. Their story was funny with the unnecessary drama on both side but it's who they are!!!

So all of my Goodreads buddies know I'm not into romance at all, but this was a really cute story. I actually shed a tear at the end. I loved it!

This was a sweet, fun, quick read. A well-executed romance debut with dialogue that went a long way to establish the relationships between characters.
