## Christ in the Home Raoul Plus

**A must-read for the married and those considering marriage!** This guidebook to finding a happy marriage, keeping a happy marriage, and raising happy children has been out of print for over 50 years...until now! From the master of the spiritual life, Raoul Plus, S.J., it contains loads of practical and spiritual advice on family life. Have you been looking for a handbook on marriage and raising children that is based on truth? You've found it! "A home ruled by the spirit of Christ is a happy home. It is also a school of virtue directed to spiritual transformation in Christ. But Christ does not force His entry into a home. He enters only by invitation. He remains only when evidently welcome. It is the wise bride and groom who let Him know by their spiritual preparation for marriage that they want Him to accompany them from the altar of their vows into the home they are about to establish. It is the wise husband and wife who let Him know they want Him always present by striving to put on His mind and to establish their family according to His principles. In such a home, husband and wife and children will enjoy gladness of heart, happiness in the fulfilment of duty, and intense union of souls." ? from the preface of the book
