[Ménage Amour: Erotic Cowboy Ménage a Trois Romance, M/F/M]

Determined to take charge of her life, Candy abandons her inhibitions and heads West. Adam and Bryan, co-owners of a remote Montana cattle ranch, are eager for luscious female heat after three cold months in the saddle. Candy's first step toward freedom is one glorious night of wild sex. The men prove what four hands, two mouths and hard-driving muscles can do in a few determined hours.

But meeting her deep, dark fantasies requires more time. They invite her back to the Double R, promising games of Virgin and Pirates, Harem Girl and Sheiks. With hard-working days and deliciously wicked nights, the last few weeks of the winter pass quickly.

Ranch life, and her men, are everything Candy wants. But she can't live a fantasy forever, hoping they'll ask her to stay. Unless they return her love, she must claim her independence and escape before her heart breaks.

*Note: There is no sexual relationship or touching for titillation between or among the men.*

Really loved this book. So well written, very sexy, a lot of fun with fleshed out three dimensional characters. Adam is seriously sexy and all alpha and just ticked all the right boxes and the addition of Bryan just makes for an extra specially good ride. I'm off to find myself some more Reece Butler books.

Loved this book!!! I'm a huge fan of menage and gotta love me some cowboys! Put the two together and what do you have? A wonderful page-turner! But there was more than just sex in this book - there was a great storyline that kept me interested and wondering where it was going to go and when Adam was going to wake up and smell the coffee! A wonderful read and I'd recommend it to anyone!

I have reread this one quite a few times, and sadly, this time I didn't enjoy it as much. Reading this definitely showed me how Reece Butler's writing has progressed over the past few years.

Mini Review: Two cowboys looking to find one of the missing pieces of their happily ever after.

...

Enjoyed the playfulness of the men, wished it had been explored more and their individual personalities fleshed out. Sometimes they blurred together.

...

Ends on a high note, wide open for the next story that I look forward to reading!

Obviously this book is about sex. If you didn't get that from the title or cover then I am here to tell you now. You'll either like it because its erotica or you'll hate it because it doesn't have much of a storyline. Since I love erotica, obviously I enjoyed it.

An emotional, sexy and strong tale -- just the way I like my cowboys.

I'm still wiping the tears away after finishing COWBOY SANDWICH, a m/f/m ménage story of three lonely and wounded souls that find love and healing on an isolated Montana ranch. I am all about cowboys and their hard earned Adonis bodes, so when this came up in my 'recommended for you' box, I jumped right in. Little did I know that along with some truly yeehaw-jaw-dropping-blush-inducing bedroom action, there would be three beautiful characters with rich background stories and enough spirit and soul to captivate my heart as well as my libido.

Candy left her ex-husband and the memory of her parents, whom she was never good enough for, behind on the east coast when she traveled to stay with a friend out west. Wanting to feel desired and in control she auctioned herself off at a charity event at a swinger's club.

Ten thousand dollars later, Adam and Bryn won the right to have dinner with Candy and try to seduce her back to their bedroom. But one night wasn't enough and the three returned to Adam and Bryn's ranch in Montana to enjoy their compatibility as long as it lasted.

Adam and Bryn wait for the shoe to drop and Candy to leave. In their experience, women didn't stay long on the ranch or in their lives. Women left, so it was best to guard your heart.

Candy lived without love first to please her parents and then her ex-husband. She won't do it again. Fun is fun, but she is determined to leave Adam and Bryn before she risks falling apart from unrequited love again.

These two cowboys are some seriously creative and determined alpha males in the bedroom. From fantasy play to light BDSM, these guys have it going on. I totally understand why Candy has a hard time leaving. Life certainly wasn't boring after dark out on the ranch. Who'd ever want to miss out on whatever creative, fun and certainly multi-orgasmic session they'd been planning while running cattle and fixing fence?

The pacing kept me involved. The characters were the kind you'd like to get to know and want to call 'friend'. The writing was funny, smooth, hot and tender all at the same time. Being the selfish book junkie that I am, all I wanted was more. More of it all.

So for all the ladies out there fantasizing about a cowboy on each arm, this is one I recommend you take a peek at. There is a sequel, too: COWBOY DOUBLE DECKER, also available from Siren Publishing. Enjoy!
