**Need the perfect man? No problem—simply create him!**

Ivy wanted nothing more for Christmas than to have someone to come home to...to have a companion to chat about her day with, and someone to show off at her family holiday celebrations.

**This Christmas, she's not going to be alone!**

Ivy decides to create her perfect companion at Dream Droids, the premier robotics company specializing in sentiment humanoids. Ivy spends weeks with Dr. Pierce, creating her dream man, from his appearance, personality, and even his knowledge of her life. There's just a few problems: when a special gift she purchased for her father goes missing, and Dr. Pierce agrees to help her find it, she finds herself falling for him.

**After getting her heart stomped on by her ex-fiancé, there's no way she can open it up again...besides, she just created the perfect man.**

Scroll up and grab your copy of this sweet little holiday romance and help Ivy solve her Christmas cozy mystery today! The story will leave you feeling warm and fuzzy and get you in the holiday spirit.

### **Linda McKay says**

**Mandroid programmed to be everything a woman could want Vs a chance on romance that could break your heart. Sweet story!**

The perfect mandroid, programmed to be everything a woman wants, or an imperfect flesh-and-blood man? Ivy learns what she truly loves in this entertaining and sweet romance. Should she choose the Artificial Intelligence man who will never love her, but will never break her heart ... or should she take a chance on her android's programmer and put her heart out there to possibly get stomped flat again? I enjoyed this book very much, just the right story to read at Christmas, or anytime of the year. perfect for anyone who wants sweet, clean romance and a dash of mystery.

---

### **Heather Silvio says**

Exactly what I expected it to be, in a good way. A sweet little romance. I "solved" the mystery and predicted the romantic outcome immediately, but that didn't detract too much from the story. A quick, fun read, with a mild sci-fi/fantasy twist.

---

### **Texas says**

Created for Christmas - Another entertaining, heartwarming story from Ms. Schultz. This is a well written, interesting story with good storylines that kept me immersed until the last page. The characters are likable and realistic. This quickly read, sweet story is the perfect for a relaxing spell with a cuppa and a furbaby curled up next to you. 4\*

Blood & Holy Water: Angels of Sojourn, Book One - I couldn't put this book down without a fight. Another well written, well thought out story concerning an unusual vampire (I like what was done with this character) and a wingless angel. Enemies with the same goal, but different results gained, work together to solve the deaths of potential angels and murdered vampires, and the ties between the two groups. The characters are realistic and both have morals and ethics. The angel goes a little gray, but there's so much involved in her decisions in trying to help the humans and potential angels. There's intrigue and suspense, and the book moves at a fast pace. There's sexual tension, but no sex - thank goodness this author treats angels as angels not sex starved humans without morals - and very infrequent vulgar language. 5\*

Magical Connections - A collection of novellas, short and spin-off stories. They were well edited with interesting characters and suspense and intrigue, and touches of romance. Even the stories that were part of a series, could be read without knowing any other book from that series. There are no cliffhangers or continuations to another book for the rest of the story, while I certainly enjoyed. I'm looking forward to reading more of Ms. Schultz. 4\*

Fangs & Fairy Dust - I enjoy Ms. Schultz's stories, which I discovered in Hexes and Ohs, and was happy to

find this collection. This is a well written and believable novella introducing the Angels of Sojourn series, of which Blood & Holy Water is the first book. The main characters, a male vampire and a female human and her mother, are interesting and believable, along with action and dialog. It is fast paced and contains vivid descriptions making everything easy to visualize. Fortunately, it is not a cliffhanger. 4\*

**The Mail-Order Bride** - I read this little story in Hexes and Ohs, my first by her. It's a new twist on a witch's tale, which makes for a cute and intriguing romance. Entertaining and enjoyable. 4\*

**Hidden** - A lovely, heartwarming novella about discovery, love and kindness, and loneliness. Searching for her baby's father leads a pregnant fairy to new adventures and learning experiences, and a vast change to her life, while she shares her godmother skills without her magic. There's plenty of humor and danger included in this sweet story. 5\*

**The Enchanted Apothecary** - A sweet, romantic, little story where while grieving for her mother, she has suspicions of a male customer and his use of dark magic, and how she confronts him. There's a good balance of suspense, intrigue and romance. The ending brings a big smile when the truth is told. This story is similar to the romantic stories of the superhero wives world. 4\*

**One Possible Future** - I read this short in the Angels & Magic: Bonus Collection. An interesting, well written, quickly read story between a psychic and a fallen angel and the possible futures awaiting them. The next story is available in the Wings & Wonder boxed set. 4\*

**Bitten** - A sad but heartwarming short story of a mother's love for her small son bitten by a werewolf. The lengths she went to keep him safe. This is a spinoff from the Angels of Sojourn Series. 4\*  
Magical Connections end.

### **Evelyn Grabas says**

What a cute, lovely little story. I thoroughly enjoyed it. It is a pleasure to read books like this now and then, it kind of clears your mind after reading all the intrigue, mystery, etc. of most books. I look forward to reading more of this author's books, hoping they will be as soothing as this one was. I feel that this is the kind of book everyone needs from time to time, to keep them focused and in balance.

#### **Wonderful, Just Missing Something**

I love the concept of this story. The tie to Christmas is kind of genius in its own way. My only criticism is that it's a little too easy reading-wise. That sounds crazy, I know, but it just doesn't have that oomph that usually takes a book over the top and makes it stand out. Maybe if there was more in terms of the conflict element of the story, just something more to justify the happy ending we're given, taffy out the time our main characters spend with each other in order to make Ivy's feelings about both her humanoid and it's maker more conflicting to give the readers a more satisfactory end when she makes her ultimate decision, that would have made it perfect.

---

### **Katja says**

A holiday novella in which the heroine decides to get a droid for a companion because human males are disappointing. She has to be interviewed to get the droid's personality right, and makes friends with the scientist who works in the droid company. They have a little mystery to solve as her family has a tradition to gather to hint and guess which the Christmas gifts they bought each other but her Christmas gifts keep disappearing.

I found it a little hard to get into this because of the droid angle but it didn't seem quite as unrealistic as the family tradition to buy all the Christmas presents early enough to brag about them in the weeks before Christmas. I'm a last minute shopper myself.

---

### **Kanyon says**

What a cute and magical holiday romance! After Ivy's emotional past she vows to never fall in love again. With that in mind she seeks out companionship with a humanoid robot that is customized to her wants and needs. As she works with the engineer in care of creating her droid, she finds herself forming a friendship with the Dr. When a priceless gift goes missing from her home she finds herself snooping through her family's houses with the help of the Dr. Pierce. Will this case bring the two together or will Ivy stay true to her vows? If you're looking for a delightfully fun and cute cozy mystery for the holidays I would recommend this book! The writing is excellent and there is great character interaction with emphasis on the importance of family.

### **Final Rating: 5 Stars**

---

### **Christina Morley says**

This story is just right for the Christmas holidays with romance, mystery, family traditions, and a comic con flavor! Ivy is not going to take a chance on love after getting burned by her ex-fiancé, so she does the next best thing. She takes matters into her own hands and designs her perfect male companion. He's a programmed humanoid. But things don't always go as planned. Her perfect Christmas gift goes missing and her perfect humanoid... well, I don't want to give everything away. You'll have to read it for yourself!

---

I received an ARC of this book. This is my honest and voluntary review.

## **Anoush Emrazian says**

The "L" word didn't really work out for Ivy. She's sworn off of romantic relationships, but she's lonely. So in the interest of finding a relationship that can't hurt her, she decides to develop a Dream Droid. Only in the process she seems to fall in love with the engineer guiding the creation of her new companion.

Interesting premise and I'm pretty curious how things go with the sister in the next book.

## **Janet says**

A lovely, heartwarming Christmas tale

Joy's books always fill me with joy, appropriately. She writes what are, on the surface, straightforward stories, almost sweet, with lots of heart and I don't mean any disrespect with that description because I love all her work. But alongside all that, she blends in so much more, very cleverly, and each story deals with so many different themes that there is a real depth to stories that appear, on the surface, to be sometimes quite "cozy" (again, no disrespect). I have found every single thing I have read by her thought-provoking whilst still being entertaining.

This story is about Ivy, a woman who decides to create her perfect humanoid companion for her own Christmas present. She has a large family that all live nearby and they are a loving, happy family. But Ivy is lonely and lost, (in effect, grieving for her long-term relationship after her fiancé cheated and left her), hurt and afraid of getting close to anyone, so her walls are very firmly up, protecting herself and her heart. It takes skill to write a story about a character going through all that and not make it miserable but Joy rises to the challenge without fail, every time. All her books have heart and humour in them, whether it is her Angels of Sojourn series, the Superheroes series or any of the standalones like this one. They make me think but most of all, they make me smile and that's all I want on a cold miserable day like today, or any day for that matter. If you haven't read anything by Joy yet, I recommend any of her work because whatever you pick it will be

well-written and enjoyable.

---

### **James Frederick says**

This WAS a "sweet little holiday romance," just like the subtitle says. A bit silly, in some respects, but most cozy mystery/holiday stories fall under that description. This was a nice little holiday pick-me-up. For the most part, it was very well-written and kept me turning the pages. There were a few minor typos, but nothing too distracting. The ending is somewhat predictable - \*I\* figured it out, ahead of time, anyway. But getting there was still a pleasant trip.

---

### **Krystyna says**

#### **Love in the most unexpected places**

A wonderful warm, sweet story that will have you smiling. Great characters, full of warmth and feeling. She had been badly hurt by her ex and now is scared to make herself vulnerable to the same feeling. However she is lonely, even with a large family she wants a companion someone just for her. Someone who won't hurt her or betray her. That is why with Christmas just days away she is at the place where they make humanoid druids. However the scientist doing the programming manages to get under her skin. When one of her Christmas presents goes missing, he offers to help. How will his meeting with her family go? What will future meetings with him show her? How will she interact with the druid?

### **maria arcara says**

I love the uniqueness and creativity of Ms. Schultz's stories! Even with the incredible settings and premises, I always find her characters well-developed and relatable. Ivy and Dayton are both really sweet and their personalities so realistic. Though this is a quick read, its message will stick with me; not least because I found it so entertaining! I thoroughly enjoyed reading about Ivy's family... their traditions and dynamics. Being a total animal lover, I was enthused by the inclusion of Ivy's dog as part of her family, too :) Then there was the humanoid - what a great concept Ms. Schultz developed! I was entirely taken in by the idea as she described it (and don't actually think it would be impossible for something like that to be created at some point not too far off). All in all, a sweet, fun entertaining read!

---

### **Bobbi says**

Wow the perfect man is the perfect Christmas gift to give yourself. Almost human, well yes but if you do not want your heart broken then almost human is good. Then again, being human means we can love and feel joy when we are with a special someone who is also human. Which would you choose? The characters and the plot were truly fascinating and fun. You will fall in love with the family and the traditions. A very heartwarming Christmas story that brings out what is truly important, family. You will be glad you read this book.
