Paranormal Romance Erotic Werelion Thrill Ride. Book 1 of the Fur, Lust & Magic series.

Alexis is finally getting to go to school, to study music. Since her Mom died in a suspicious car crash, her Dad has filled her life with a swinging door of bodyguards and kept her home. After gaining weight and having no freedom she feels like the only 24 year old that has never had a boyfriend in America.

Her new bodyguard Derek turns out to be more than muscle. She falls for him hard and even more shocking he falls for her! Of course, she has no idea Derek and his muscle bound friends are all Werecats. If they ever find any time alone with a crazy stalker after her, mutant freaks, crazy Werewolves and of course her Dad showing up whenever they are alone she will find out soon enough, because when the clothes come off the fur grows.
