Killer Kisses Chastity Bush , Anna Snow

The man straddling the Harley was, in one word...juicy.

Adult novelty store owner Tina James loves a good adventure, and the man peering at her through onyx black eyes is the closest thing to adventure she's ever come across. Unless of course, you count the mugging at gunpoint she experienced only hours earlier.

Leather clad Alex Monroe and his big bike just moved to number one on Tina's sexiest man alive list, and with every searing kiss, every white hot caress, Tina finds herself living out her wildest fantasies with the man of her dreams.

But is it all too good to be true?

There's something about Alex, from his unusual habit of only leaving the house at night, to his amazing speed and strength that has Tina wondering what exactly the man she's falling head over heels for is hiding?

Meeting Tina James is the best thing that's happened to Alex in the last five hundred years. She's spunky, sassy, and beyond sexy.

But there's a problem...or three.

Alex is a vampire, Tina's a mortal, and he's searching for a rogue vampire who just so happens to have his sights set on her as his next victim.

Now, not only does Alex have to find a way to tell the woman he loves what he is, he has to catch the killer before he loses her forever.

Margaret says

I could not put this book down. It keep moving page after page. The chemistry between the two main characters just added more to the book.

Tina is a businesswoman with her own store. I never would have guessed that she owned the type of store she owns but it kind of fits her personality. She is the type of person that goes with the flow and accepts people for who they are, fetishes and all.

Alex is our motorcycle riding police detective. He is looking for a murderer and will do anything he can to solve it. He does surprise me when I found out what he actually was. But it does fit his personality. He is forever loyal to his closest friends and is afraid they will die and leave him alone. He also has a weird yet funny personality.

As Alex and Tina become closer, Alex realizes that she is his mate. Tina just accepts it and Alex for what he is. Alex, still-hunting for a murderer doesn't want to lose Tina and is terribly afraid that she is the next intended victim.

When the murderer was revealed, it was apparent that grudges last over a few hundred years. The murderer wanted to hurt Alex where it would hurt him the most. An eye for an eye, or in the book's case, one loved one for another. Alex did save Tina, but he was too late to stop her transformation. But in the end, love conquered all.

I recommend this book to those who need a change of pace from the regular vampire books. This book makes you realize that vampires can be good as well as evil.

Michelle [Helen Geek] says

Sounds good and is only \$1. Can't beat that!

Sandra Bischoff says

Simply put, I loved this book!

Chastity Bush possesses the power to spin words into a story of gold. I have read a few of her books and this one was like all of the others, it did not disappoint in any way.

Tina, adult store owner, and Alex, vampire detective, are brought together by a series of murders. The mystery surrounding the killings only solidifies a connection between the two. As Alex tried to uncover the culprit behind the deaths, he soon realizes that his destiny is with Tina. When he figures out she is the ultimate target he moves heaven and earth to keep her safe.

I won't give any spoilers. Suffice it to say, I never saw the end coming! Chastity literally left me gaping in surprise.

Oh and did I already mention, I LOVED this book?

Tami says

This book had great potential in the beginning. I liked the idea of Tina owning a sex toy shop and Alex being a vampire cop. It was just slightly different from the usual vampire story. I even like the writing. It just started to fizzle a bit towards the middle. It felt rushed and almost a bit too 'tied up in a neat little bow'. Nonetheless, it was short and fun to read.

Eternal-Love78 Michelle Rossi's Reviews says

Beware of What Lurks in The Dark!

After being robbed in front of Tina James' adult establishment, "Happy," the last thing she wanted to do was give her statement to a bone-headed detective. Who's basically sizing her up to have a casual fling with, instead of taking her seriously of the travesty that recent occurred to her. After giving this detective a piece of her mind, she finds herself late at night on the dark & destitute streets of NYC, walking home with a serial killer on the loose---like the night couldn't get any worse.

Just then her knight-in-shining-armor arrives, well a drop "dead" gorgeous vampire on a shiny motorcycle arrives, to whisk her away to safety. However, is she safer on the streets with a lunatic roaming around or on the bike of this mysterious man?

Once Alex Monroe sees this golden haired beauty, wearing a pair of high heeled boots, & knock-out body, he feels as though it's his duty as a respected man of the law, to make sure this angel is unscathed as soon as possible. What better way to guarantee that from happening is give her a lift to wherever she is headed. Only if he can convince Tina it's the best decision she should undoubtedly make.

Sparks immediately SINGE the pages with these two individuals. I was ENTHRALLED with this storyline, it was FAST PACE, & EXTREMELY DESCRIPTIVE. I IMMENSELY enjoyed that it possessed this INTENSE FIERY PASSION, NEVER ENDING ACTION & SUSPENSE, & above ALL MYSTERY. Everyone LOVES a GOOD MYSTERY!! Ms. Bush has DEFINITELY delivered ALL of these aspects with this novel.

It's been YEARS since I've read a paranormal romance (Adult or YA). This book was ABSOLUTELY FANTASTIC!! PHENOMENAL JOB MS. BUSH, WITHOUT-A-DOUBT 10 STARS!!

Recommended Novels:

**Adult Listing:

"Under The Blood Red Moon," by: Mina Hepsen

All of the "Midnight Breed Series 1-11," by: Lara Adrian

**YA Listing:

"The Coffin Club (Vampire Kisses, #5)," by: Ellen Schreiber

"Evermore (The Immortals Series, #1)," by: Alyson Noel **The ONLY novel I truly enjoyed by Ms. Noel**

"Jessica's Guide to Dating on the Dark Side," by: Beth Fantaskey

"The Twilight Saga Collection," by: Stephenie Meyer

Kim Haight says

Not the type of "book" I would read, but I read about her on the Kilted Desire website and thought I would give it a try. I love Sci-Fi movies, but not one for the books..

Wait - there is a BUT!!!!

The author does an excellent job at developing characters I can picture and care about... I really enjoyed this book and read it in a day.

Thank you to Chastity Bush for writing it and thank you to Author AB McKinley and his www.KiltedDesire.com website for her being the Featured Author last month... Author's who promote author's... I like that!

Good job Chastity Bush and AB McKinley... I have found two new author's now to follow!

Kendra says

Killer Kisses started out promising. Tina seemed like a realistic character stuck with a stigma of owning an adult novelty store, who consequently has difficulty cultivating a love life. Alex is a vampire who has his reasons for working as a detective. When he and Tina accidentally cross paths, the sparks are instantaneous. I had high hopes for these two with their steamy preludes to sex, but ended up a bit disappointed when the "deed" actually took place...

CoffeeTimeRomance and More says

Killer Kisses is a riot. The moment Alex steps into Tina's place of business the first time is one for the record books. My ereader even got a soda bath. The writing of Chastity Bush is hot enough to set the pages of this book on fire. The romance is sizzling and Alex is hot, hot, hot. The mystery built into the story is a byproduct and literally takes a backseat to the growing relationship between a vampire and his lady. Despite the backseat, I was equally interested in discovering the identity of the killer and what it will take to capture one so evil. If you have never had the pleasure of Ms. Bush strumming your funny bone while enflaming your blood, then pick up Killer Kisses and come along for the ride.

Courtney Cochran says

A cute, quick, vampy read!

Ally says

One of the reasons why I like Chastity Bush novels is because of the sense of humour she brings to her characters. Within the first few pages of Killer Kisses there's a hilarious reference to Twilight that I really loved.

Tina is a really great character with a smashing sense of humour and I like the way she deals with her life and those around her or course it helped that I liked how Tina also deals with Alex and his issues of being a Vampire, because Tina is human and doesn't know about Vampires. Alex is of course also a great character, very much a alpha hunky hunk but Tina really made Killer Kisses for me. She was one of the best characters I think Chastity has written to date for me so far.

While I enjoyed Killer Kisses I felt that the storyline was a bit unoriginal compared to some of her other works that I have read however I could overlook this because of the character's Chastity creates in Killer Kisses were really good.

Overall I really liked Killer Kisses and would happily read more of Chastity Bush's work. She is now releasing new books under another name, Anna Snow so be sure to check her new works out soon too!

Michelle the Romance Witch says

very good story... will read more by this author for sure.

The BookChick says

Killer Kisses was a very well written book full length book. It had a proper amount of suspense and romance. Tina and Alex were compelling as a couple and as a H/h. The author allowed them to grow into their relationship as opposed to falling into it immediately. I liked that Alex was a tough Immortal Detective but was sensitive and caring toward Tina. Tina character was wonderfully developed. She was witty and spunky. You were held in suspense until the very end of the book as to who the Monthly Murderer was and the conclusion to the story was sensational.

Dahlia (yadkny) says

Living the life of a sex toy shop owner should be excitement enough, but not for Tina unless you add a mugging, a stalker, and a mysterious hottie on a motorcycle all in one night.

Business savvy Tina knew the economy was in need of another sex toy shop, which has proven true and afforded a comfortable living. However, having nice things doesn't get rid of the lonely nights. Men are either weirded out by her profession or believe her to be into kinks that she's definitely not. Aside from her petite stature, Tina is just a normal businesswoman with great fashion sense and a cold bed. So when the sexiest man she's ever seen comes riding to her rescue on a motorcycle, she's torn between taking a chance on a stranger or following common sense and leave him before he leaves her. Too bad that's not the only thing she needs to be concerned about.

Alex knew on sight there was more to Tina than met the eye. She's beautiful sure, but that's not what's causing him sleepless, libidinous nights. It's something he hadn't considered himself lucky enough to find, but if there is anything Alex knows for sure it's Tina James just became the most important person to this Immortal Detective. His vampire instincts have him wanting to spend time with Tina, but his job demands he focus on finding a serial killer. Just when Alex thought he would finally catch a break with both Tina and the killer, his personal and professional life collide forcing him to reveal his secrets to her before it's too late.

The story is non-stop from the first page. A little action, a bit of suspense, and a nice dose of romance mixed with a few erotically charged scenes kept this short story engaging. And yet I can't help but feel that the story would have been so much more intriguing and fulfilling if there were more pages to flesh out the action and characters as well as draw out the suspense. Because of the shortness the relationship develops fast but not without good reason which is revealed in the story. Overall I still enjoyed the story and will absolutely continue reading more of this author's work.
