## From Reader Review Se7en for online ebook

### **Bingjie says**

(Question 11) After reading this novel, Seven, I hope one of characters, Mills, will be judged no guilty. Religion's mean should be people try their best to do something good. There are some rules or sins we have to observe. The serial murderer has no right to punish these people and kill them. Mills can't control the angry sentiment, so he kills the murderer who killed his wife and child. The angry sentiment is very difficult to control, and it always let us do something worse. I believe there are seldom people can look their lover's head, but still quiet in mind and peace in disposition. Although Mills killed this person, I still hope he will be judged no guilty. The judgment should be that he has to see psychological doctor before he comes back to his job. A detective can't keep on animosity.

In our lives, we will meet many problems that we can't control. Even we can't control what will happen in the future, we can control the way how we meet and solve the problems. Something may happen that we can't suffer, but what can we do ? It has already happened. We should be reasonable. At the end of the story , Mill killed the person who is a serial murderer. It is so pity that he will become a prisoner. I hope the world will become more peaceful. Everyone is equal in the world ,we can't punish others because we don't like the way they live. If they really did wrong ,the law will sanction them. It's not our duty . Our job is just do the legal things and be happy.

### **Lea says**

I read a shorter version of "Se7en", but it was exciting and spooky enough ^^ I was afraid of this story :-(

---

### **Maras says**

Did you see the movie? So don't read this rip-off :-)

---

### **Prateek Gautam says**

This novel will mess you up on a whole new level of psychology!!

The book is greatly written, but the story is horrific (not in an bad manner but on intreguing side) after the novel when I watched the movie, I was just left with one question to ask!!

"What's in the box?"

---

### **Dawn says**

Interesting, but not worth the hefty price.

---

### **Behatsh adib says**

zibatarin ketabie ke too omram khoondam albate age khodesh bashe hamin ja elam mikonam age nakhoondin kheili aghabin dar asl in ketab ye filmnames ke az khode filme kheili kameltare...

---

### **Katherine says**

Kniha o filmu bývá (v?tšinou) nedobrá.

A tady...

Tady to platí dvojnásob.

Kresba fajn a tak.. ALE už to nemá "koule".

---

### **Gord says**

A fantastic companion for the movie. Its the prequel story for John Doe and how he committed each kill. It's a must read for fans of the movie unfortunately this book is out of print and very hard to find.

---

### **Ahmad ????? says**

???????? ? ?????? ??????? .. ?? ??? :D

---

### **StrangeAeons says**

Sleazy and unnecessary.

Whereas the movie moved along quickly enough to remove yourself from the more pulpy exploitation-derived elements of the script, this thing dwells inside them. Only... the original writing is a lot more vacuous and the main illustrations seem far too clean and digitally polished, which is much at odds with the grainy analog atmosphere of its source material.

---

### **Iveta says**

Komiks vznikl až po skv?lému filmu Davida Finchera a nep?ináší naprosto nic nového.

---

### **Justin Michael says**

Absolutely love the movie and this comic gives a better insight into John Doe's life...how he became the serial killer. I love seeing how accurately the creators were to the movie. If you love the movie, you will have fun seeing the similarities. Also, the murderer make more sense after the comic book series.

---

### **Vikas says**

Its a seven part series .. prequel to the awesome David Fincher movie 'Se7en' - Story here gives us some idea and information about the past of John Doe. First few parts also tell us how John hunted his first few targets. The Books are well done only problem is that the style is not consistent some books are done like photoprints while others are crude cartoons... But it all comes up together as super awesome. Do read it :)

---

### **Mathew Smith says**

If you liked the grimy style of the movie Seven, then you should love this book. It is done completely in that gritty format, but this time, the story is given through the perspective of the bad guy.

---

### **V? T??ng Lan Chi says**

This book is good for who wants to learn English, or just want to read this kind of genre.
