From two different worlds.

Years ago, heiress Hannah Lansing was forced to give up the man she loved. Now, to save the family business, her grandfather demands she marry someone she feels nothing for. Torn between duty and desire, there's only one man Hannah can turn to.

Gunslinger Caleb Houston is shocked when Hannah arrives in San Diego; he never expected to see her again! In the eyes of society, they're worlds apart, but can Caleb finally convince Hannah to put her own happiness first and trust in the power of the love they share?

Hannah Lansing is a heiress and Caleb Houston is a gunslinger.

Their worlds just couldn't be more further apart then that. But once, believe it or not these two were in love. So what happened? Now years later, when Hannah's family business is in trouble, it is Caleb to whom she turns to for help.

Once again, Hannah is torn between duty and desire. Will she this time follow her heart and marry the only man that she has ever loved? Or will Hannah now settle for an arranged marriage in order to save her family and it's fortune?

The Gunslinger And The Heiress was a faced paced sensual and delightful read about two lovers worlds apart and torn between love and duty and then are reunited by destiny and find that together they will face anything..even death to be together.

This book is actually the second in a series called "The Heroes Of San Diego" but I didn't feel like I missed anything, and believe it can be read as a stand alone.

It took me a long time to finish the story. It just wasn't for me.

Mills and Boon; a name that has become synonymous with cheap (and let's face it, often trashy) romance paperbacks. The reasons that it is possible to produce as cheaply as they do involve cutting corners during editing, and going to print on cheap materials.

I am well aware that this book published by Harlequin is clearly not published by Mills and Boon, however I'm not entirely convinced that they are in fact separate companies. Either way, (and regardless of the publisher) this novel's plot screams 'Mills and Boon'.

Fortunately Albright is an accomplished author, and has plotted it all out wonderfully. I'll admit to a certain amount of literary snobbery, and the holding of such novels in disdain (prior to reading too), but this one has endearing characters, and sufficient action (not to mention a distinct lack of sex - which in this case is a good thing) to have me inhale the novel in around three hours. The telling part is that I don't wish any of those hours returned to me to reuse in some theoretically more profitable venture. My only complaint is that I would like to have been a fly on the wall for the confrontation on the Lansing Estate.

#### **Great story**

I greatly enjoyed this romance set in San Francisco and old San Diego. The Corona Del Mar hotel in the story is still there. Along with the plot the characters were well-defined and interesting. Caught between two worlds, they helped each other while risking family censure. A sweet romance.

I won this book on goodreads. I loved it! I read it in one day. It is a great historical western clean romance book.
