The Rape of the A*P*E*

Allan Sherman

The Rape of the A*P*E* Allan Sherman
The Official History of the Sex Revolution
1945-1973
The Obscening of America
An R*S*V*P* Document

***American Puritan Ethic
****Redeeming Social Value Pornography

THE RAPE OF THE A*P*E (American Puritan Ethic) is the ultimate sex book.

It is the hilarious but true story of 27 salacious years of American history-**the Sex Revolution**-America's longest and hottest war.

From "the foreplay of the Fifties" to "the obscening of America"-the year's funniest, wisest and most original book on **S-E-X**.

Pewterbreath says

A.P.E. stands for American Puritan Ethic--anyway this book is crazily entertaining, wonderfully dirty, and blissfully strange. It's a bit out of date (it's a silent generation member talking to the boomer generation) but still it's really freakishly entertaining.

Dorrian says

An excellent book, I've reread this 2 or more times over the past ten years, and have passed it on to my kids to read. Incredibly humorous, Allan Sherman dishes up a straight up poke in the eye at any and all attempts of prudishness while still managing to slip us a side of profundity. A must read! Wish it was still being published, as my copy is getting a bit weary.

Zoe's Human says

While the book is certainly out-of-date in some ways, it's a shame it's out of print because there are issues addressed in this book which still exist in American society as a whole and our individual lives.

Also, it's hella funny.

Monty Ashley says

I first read this book when I was probably far too young to be doing so, and I loved it. I read it many times, but that was decades ago. Revisiting it in 2018, I was a lot less impressed with it. The culture has moved so far that none of the attempts to be shocking worked, and what's left is an arbitrarily organized book with huge digressions that don't go anywhere.

Dale Stonehouse says

Read in 1977 while in the U.S. Army in Alaska, this is not only one of the funniest books I have ever read, it confirmed my disgust with hypocritical American morality. Younger generations would probably not believe some of these anecdotes, which would be a good indication progress has been made.

Daniel Taylor says

I realize that this book is a product of its times, and Allan Sherman is a tough sell in 2011, but it really is a

shame that this book is out of print.
