I got this from a Goodreads Giveaway. It was a good win! Not only does it have pictures with the recipes of delicious food, it gives you the nationality and a description. I am feeling like I am eating around the world in my own kitchen. My only complaint is that I was not the one who got to travel to these places to write this book!

Brilliant detail to each dish, providing an origin story and a flavour description- perfect for a cook book!

### **Janet says**

Fascinating. And Yummy. Hard to believe that Hawaii's loco moco didn't make it into this book!

I really want to go to some of these restaurants, but I'm glad there are some tricks to make some.
