## **Zora's Chance** Aliyah Burke

Zora Nicolette knew she was in trouble when the sensual Chance Jameson moved in next door. He was sin personified and she wanted to shatter his rigid control. She knew he had secrets but couldn't resist taking a chance for a walk on the wild side.

Chance Jameson knew the delectable Zora Nicolette would be his downfall from time she showed up at his house bearing a basket full of mouth-watering gifts. What he really wanted could not be found on any menu. At least none that wouldn't get him into the most decadent problems. Problems that would be worth any moment spent in Zora's arms.

She is his temptation and he is Zora's Chance.

## From Reader Review Zora's Chance for online ebook

### **raeneysa says**

nice reading ebook i though the sex scene could been strong.a heroine never give up give up on her hero. the hero end up give in

---

### **\*Dee's Reading Time Matters says**

Opposites attracts as in the case of Zora, pasty chef and Chance, retired military officer in Zora's Chance. Chance moved to Trescott Cove and Zora, his cheery neighbor, well she calls to him. The attraction is there for both of them but let it be said that Chance is ' very uptight' whereas Zora is a free-spirit.

In reading this story, I got the impression that both were fighting who would say those three magical words first but it really didn't matter in the end. Fortunately for Chance, he had some really good friends to help him see that Zora was the 'one'. Polar opposites was a good thing in Zora's Chance.

Read it and see the magnetic attraction between Chance Jameson and Zora Nicollette!

Revised -- 4.5 shining STARS \*\*\*\*

### **Danielle The Book Huntress (Back to the Books) says**

I started a review and my computer decided it wanted to restart before I could save it! Oh well. Here we go again! I've had this ebook for years! Better late than never. I enjoyed this book. It was a good read. Why not four or more stars? Let me tell you. I am a curious person. I can't help it. I have been known to ask far too many questions. It's wired in me to have a curious mind about the world and about the way it works, why people do the things they do. That tends to be an important part of my analytical process when it comes to books. So when I finished this book, I had big huge question marks in my mind about Chance. I didn't understand the way his mind worked, why he was keeping himself so isolated and separate. I didn't know, even when the book was over. It was like people knew this about him and didn't go there. I think that although this was a major issue for Zora, nothing really seemed to change this. Yes, he declared his love, decided to let her into his insular life, but I didn't get closure on why he was like that. Was it from a past hurt? Was it ever going to change? Would he open up a little more for Zora? I think if I had this understanding, I might have liked this book more than I did. Also, I didn't like the casual nature of their relationship. They hooked up for sex and mainly had separate lives. Not romantic to me. Yes, I know, that's how some modern relationships are. It doesn't work for me. If there's going to be a sexual relationship first, I need it to feel like something more. There was a push/pull here where Zora was slowly pushing at Chance's barriers, but at the same time trying to maintain her autonomy and accept the relationship for what it was, although she wanted more. That was the main tension in this book. It's probably realistic for the development of many relationships, but not what I look for in a romance. I guess I'm still the fairy tale kind of relationship gal. I don't apologize for that. I think it's important for all women to feel that they are worth the wooing and the seeking and that they are a princess to the man they love. I don't want to be a princess, don't get me wrong, but it's good for you to know that you're a princess to the man you love and are in a relationship

with! I loved that Zora was a chef and liked to bake. As a foodie, that resonates with me. I also tend to bake when I'm restless, and I should be less shy and take my extras (of which there are often a lot) over to my neighbors. No, I don't have a hunky ex-Marine neighbor, but still. Yes, this is a good love story although a bit nebulous for my tastes. Nicely steamy, with a hero who is quite appealing. I do like the buttoned up hero, but I could have used more unbuttoning besides sexually. I loved the proposal though. This is one of Aliyah Burke's earlier novels, and I can see that she's come into her own and developed a smoother voice and more confident writing. Even so, for being one of her first books, it's evident that she is a talented writer. Overall rating: 3.5/5.0 stars.

2.5

---

**Deloris says**

I enjoyed this story but I wanted more of Zora and Chance . They had a really good sexual relationship but I did not see how they fell in love.

**Christiane says**

[ The fact that Chance is powerful, but private and shy. When they kiss and he's worried about being in the full view of the street. When he look

---

**Hasien says**

This was a sweet love story, though it took the whole novel before 'I love you' was even spoken.
