Rahell Omer says

It was such a great book. So well-written, precise in what it is saying, completely lets you know what is there and it is in a way that makes you remember the main points. I just liked it to talk a little bit more about other companions (RA) especially (Mu'awyyah) and his son (Zayd). I strongly recommend it for whoever wills to know the conflict in that era which has carried so many fights and schisms since then, in a sa'hi'h manner of course.

Most importantly, this book gives an introduction about how to deal with the Islamic history.
