**They Just Keep Getting Better**

I swear I don't know how but these books just keep getting better. The characters are hilarious and the plots weirder. Love them!

**Linda Hurst says**

I have enjoyed this series, but in this outing I found the heroine's actions TSTL and irritating. I had to force myself to finish it. I also found love interest Jason uncharacteristically insecure. Hopefully the next outing will return to charming form and not that this series has jumped the shark.

**A treat**

Annie and the ladies of Black Cat Café are out in force this Christmas. An old murder, a new murder, and Annie has no idea who to trust. Unraveling this murder is full of danger! Lyndsay Cole has hit another home run with this next instalment. Always enjoyable reading, highly recommended.

**Blood is thicker then water?**

Another great read. Her father's funeral is disrupted when her mother has an argument with an ex-girlfriend of her father. Jason however has planned a romantic break at the local Inn. However all is put in jeopardy when the ex-girlfriend is found murdered and her mother is the number one suspect. Can they all work together to find out who killed and why? Add in jealousy, revenge and greed for a read that will keep your interest with it's twists and turns. I did guess the culprit before the end but the action and events made up for it. A great plot and the characters are just getting better and better.

### **Note:**

1st, why does Annie ever learn from her mistakes? 2nd, she never sticks to one theory but spreads a wide berth net to everyone she does not like. 3rd She has a tendency to rush in to things without thinking but never apologizes when she's wrong and almost killed. This time her first theory was right but she did not no it as usually until it's almost to late. Annie is a spoiled brat that does what she wants even if it means getting others worried about her or hurt in the process. Her poor fiancée, has his hands full trying to keep her alive, he is patient, tolerance and devotion is one for the books. Ever women wants a man like him, so watch out Annie if you don't start taken care of him another will. I like my characters to grow with each story line but I don't see that here so far, and she does not see her health as important here either. As to her father no one's seems to be broken up about his death or concerned that we really have not seen him since the first book. Why was he written out?

### **Good mystery**

I have been enjoying this series. Jason and Annie make a great couple. Neither is perfect but they still love each other. Annie can't help being drawn into solving a murder. She doesn't necessarily want to but rarely has a choice. She is persistent and thinks outside the box.

## **Hilary (A Wytch's Book Review) says**

Annie should be planning her wedding, instead she is attending her father's funeral and whilst there her mother and aunt start glaring at one of the mourners. Apparently Roy Fisher had an affair with a local woman (Alice) and she has turned up at the funeral (even having been told by Mia NOT to come), that should have been the end of it, only Alice turns up murdered and the only person with a motive appears to be Mia, Annie's Mum!

So now instead of spending a relaxing weekend at the local inn finalising the wedding plans, Annie, Jason, Leanore and Mia need to find a way to keep Mia out of jail. Oh and just to add to the difficulties the local wealthy widow has decided to NOT like Annie and is determined to throw all sorts of spanners in the works. Hopefully they can get it all sorted out and then the wedding can go ahead!
