## **Dark Warning** Jude Watson

Obi-Wan Kenobi is on a mission. Along with the former Jedi apprentice Ferus Olin and a headstrong kid named Trever, he is trying to keep the Jedi's most important secret safe from the inquisitive Empire. With Boba Fett on their trail and time running out, Obi-Wan, Ferus, and Trever must make some daring and desperate escapes...into even more danger. Along the way, they discover some incredible news: Obi-Wan and Yoda are not the only Jedi to have survived the Emperor's annihilation of the Order. There is at least one other...and he is hiding in the Caves of Ilum, a place where nightmares become reality and dark warnings tell of conflicts yet to come.

# From Reader Review Dark Warning for online ebook

## **Cole Burgett says**

A decent follow-up to the first book of this series. The pairing of Kenobi and Olin is truly wonderful to read. In another universe, Olin should have been Obi-Wan's apprentice. The characters mesh so well together, and throwing them up against one of the galaxy's greatest bounty hunters is a fantastic concept. It's nice to see Obi-Wan finally re-entering the fray, and interesting to see him struggle not only with his duties to protect Luke, but also with his allegiance to the now old Jedi ways.

---

## **Lisa says**

Definitely reads like kid's novel.

---

## **mike says**

**This is the Obi Wan book you were looking for.**

I felt an urgency of purpose throughout the book. An almost desperate need to keep going, to keep reading. This isn't just some rehashing of the movies, it's a tale off its own. A very well written one too.

Jude brings you into Obi Wan's world and shows you his pain. Then she less you down the Jedi path to teach you how to move past it.

---

## **Ivy says**

5 stars

Nice to see Obi-wan, Ferus, and Trever again. Glad they were able to find more Jedi. Good to see that resistances are popping up. Hope Obi-wan will do well when he goes back to watching over Luke.

Can't wait to read Star Wars: LOTJ: Underworld!!!!

---

## **ash says**

Not as strong as the first but still so satisfyingly good.

---

## **John M Woodward says**

### **Rediscovery.**

More discovery of who the Jedi are. New stellar base. Padawans becoming Jedis. Deadly operations and a young man learning the ways!!!

---

## **Ursula Johnson says**

### **Ferus Embraces His Destiny & Receives a Dark Warning**

Dark Warning is the second book in the Last of the Jedi series that focuses on former Jedi padawan Ferus Olin. This edition picks up where the Desperate Mission left off, with Obi-Wan Kenobi having rescued Ferus Olin and picked up a street smart orphan named Trevor. Several thrilling escapes force the group to divide on separate missions in this edition and Ferus beginning to embrace the Force again. Another action packed thriller with wonderful character development from the amazing Jude Watson.

## **Jaime K says**

Obi-Wan, Ferus, and Trevor crash land on Acherin after being chased by Boba Fett. The planet may have been Separatist, but they have no love for the Empire. Obi-Wan learns that Garen is alive and hiding on Ilum. The trio - along with some friends - escape Acherin and find a safe haven on an asteroid in the middle of an atmospheric storm. Obi-Wan heads to Polis Massa while Ferus & Trevor go to Ilum to find Garen.

Obi-Wan believes he has knocked the Inquisitors off the twins' scent and saves the other two, along with Garen. One of the things that bothers me with this book is that Ferus continuously says he's not a Jedi, and the retort is "you still have the Force." The Force does not make one a Jedi, yeesh.

Ferus is determined to make the asteroid a place where surviving Jedi can live. Obi-Wan feels called back to Tatooine, leaving the renewed Jedi and the young teen on their own

---

## **Bailey Marissa says**

I love Obi-Wan so much and Ferus is great.

Recommended 9+ for Star Wars Violence

## **Maddax says**

5th choice Q3

I like this book. As always I have to give it points for being star wars. I like how the author decided that there

should be a fight with boba fett instead of them just dodging him and doing a stealth thing. The main problem I have with this is that there isn't that much Vader which is disappointing. Some parts are good like The looking for answers for padme's death. At some points i'll admit I wished this book was going to be longer. Still Ferus seems like a too perfect character. But if you ignore Ferus it's a good book

### **Xiaoguang Ouyang says**

#### **Now I feel the living Force**

I read the book one quite a while ago and wasn't exactly fond of it. Now I see why, book one is like an introduction to the main cast, an appetite before main course. In this book the events get intense, actions pack in, and plots start showing twists. At places as remote as outer rim and as central as Coruscant, across the entire turmoil galaxy, the seeds of rebellion have been planted. It is thrilling to feel a gathering storm. Can't wait to read the next book.

---

### **Catrina Sada says**

I always love a good non-stop Star Wars book. Every chapter, at least one fight scene occurred. The creative fight scenes, accurate to the mechanics of Star Wars, just made me love the series more. The characters, besides Obi-Wan, didn't had much depth, but their subject matter was unimportant relative to-guess what?-the incredible fights. It's been a while since I've read a good action book, and this was a great refresher.

---

### **R.J. Stowell says**

Once again a lot of fun. Enjoyed it and can't help but think how much I would have loved this book as a young adult.

---

### **Jordan Anderson says**

Much like *Desperate Mission*, *Dark Warning* is a great addition to the *Star Wars* literary world. And so what if it's intended reading audience is somewhere around "tween" age? The story is good, the action is nearly constant, and Jude Watson, like her other female peers who write for *Star Wars* has more than demonstrated her talent in being able to take the reigns and lead the story in fun and interesting directions.

Just wish she'd find better words and segues than "suddenly" and "just then".

---

### **Masharrat Khan says**

Still no ending
