**George and Martha: The Complete Stories of Two Best Friends** James Marshall , Maurice Sendak (Foreword by)

35 Stories. George and Martha: not, as one might think, the first president and his spouse, but two hippopotamuses created by the singular talent of James Marshall. For the past quarter century, these stories have entertained, intrigued, and delighted readers of all ages. The portly animals have also taught us, in a humorous and lighthearted way, about what it means to be a true friend. A man with a talent for friendship, James Marshall defined its very essence in his stories about the world's two best friends. In this volume, all thirty-five episodes are brought together to celebrate friendship and two of the most lovable book characters ever created.

## **Jane says**

No one, NO ONE, is as wonderful as James Marshall. Profound and funny, sophisticated and simple, his books are inimitable, delightful, evergreen. This collection of all the George and Martha stories is a gem. The essays by friends and admirers are a bonus, especially Maurice Sendak's tribute and Jon Scieszka's witty summary.

We have the complete collection (all of the George and Martha books in one volume). This one is our favorite. Mostly because my 2 year old reads them to herself which leaves us in hysterical giggles (note, she has a hard time with "s" at the beginning of words...).

"George and Marfa and da pit pea poop. Marfa like to make poop. But George no like poop. He eat da poop. But Marfa brings more poop she make. George hide poop in his shoes. Marfa see him hide da poop. Marfa no make poop anymore. Marfa make cookies! And George eat dem all up! The End!"

I read/re-read this wry and exquisitely composed collection in bits every night before bed for the past month and nothing has made me feel better in a long time. The words have the crisp scansion of poetry and the pictures the most loopy and deceptive kind of sprezzatura - I mean, this motherfucker knew how to block a scene! Great art for all people of all ages. Friends = 4ever.

George and Martha are the hippo version of Frog and Toad, or maybe Frog and Toad are the amphibian version of George and Martha. As a child, I made Dad read our paperback copies of these stories until the books fell apart. My favorite stories were the one where George gets a gold tooth and the one where George peeks in Martha's bathroom window, prompting her to upturn the entire bathtub onto his head.

## **Kristine Hansen says**

This is friendship.

At first I was a little skeptical. There didn't seem to be much substance in drawing or text. But a closer look showed me a whole lot going on between the lines. And it's funny how a couple strokes of the pen could put

a whole world of emotion into the eyes of Martha or the posture of George. Brilliant. Funny and brilliant.

This edition is especially nice because I love all the bits about the life of James Marshall. The memories of other authors / illustrators make me wish that I'd been able to know him as well. Definitely worth looking at. :)

You've gotta have an oddball sense of humor to really enjoy these stories-- they'll have a hilariously bizarre plot, then end abruptly! You find yourself turning the last page of each story back and forth, wondering if you skipped something. I happen to like those sorts of things, so this compilation is a favorite. I especially like the story about narcissistic Martha's mirror...

Well, when reading to your 2 and a half year old you don't usually start laughing out loud. This book made me do it not once, but 3 times.

I've read a lot of kids books to my children - we don't have a TV - but George and Martha is one of the best ones. Hands down. It's a cross between Roald Dahl's children's books and David Sedaris' memoirs...

My boys (both 8) favorite story in it is the Mirror one. When asked how many stars to give the book they said 10 when I gave them the choice between 1 and 5.

My favorite's the one where George is gawking at Martha having a bath. I won't give the rest of it away...

Am going to buy everything Marshall has written.

What is it about George and Martha? It has a similar charm to Frog & Toad. Just simple, subtle, tongue-in-cheek stories. Awesome.

### **Ben Loory says**

god, i loved these books so much when i was little, but then somehow i completely forgot about them, until today i was in the bookstore looking for the bathroom and i stumbled on this in the children's section. i stood there and read the whole thing; i couldn't help it, it was so great, i almost cried. every story is absolutely perfect, full of wisdom and beauty and the strangest understated humor. not a word out of place, not a word too many, and the drawings make the whole thing come alive.

i used to pretend to be george and martha. i'd sit in my room and talk to myself. good times.

### **Amy Groesbeck says**

I loved George and Martha when I was growing up. These books are about two hippo friends who always find themselves in hilarious and ridiculous conflicts, but yet somehow find a happy solution. You can purchase the series in a compilation or individually. I prefer the compilation, but the individual books are great for kids because they're easier to handle. This series is perfect for early grade classrooms and emergent readers. The stories are short and composed of simple text. The George and Martha series teaches children about realistic life lessons in a fun and amusing format. This book is great for conveying the importance of friendships, consideration, honesty, etc. to your children.

They taught me to never say, "I told you so". Also, don't be vain, dancing is good, and you've got to be able to laugh at yourself. Probably most importantly, to say, "Voulez-vous m'embrasser?" when I want a kiss.

These stories are perfect! And so funny. I've been reading them to my soon-to-be nieces and they love them, too. Yay!

Wonderful collection of my favorite childhood picture books.

### **Gina says**

Fantastic children stories about two best friends. I loved these stories growing up! And if you can find the hardcover version of George and Martha (not the complete stories, but the original book) it smells wonderful! I'm such a book nerd, I love the smells of certain books, and this was maybe the first book whose smell I fell in love with!

### **Annie says**

Fantastic! I think I'm going to buy this book for myself! I always loved George and Martha as a kid. It turns out I still love them as an adult! These books are so smart and funny! If I had children, I would rather have the separate books. The big book is hard to handle when reading to a child on your lap. However, as a wierdo adult, the big book works well!

## Laura says

The title is speaks for itself: George and Martha are two lovable best friends who enjoy a series of mundane yet delightful "adventures" together that teach children the value of friendship without sounding at all didactic.

I think Martha's adventure with the diving board and with George's Mexican jumping bean collection are my favorites. The illustrations are just great, and I prefer the separate, soft cover books to the complete edition because, as a kid, it was always fun to check out a stack of books from the local library and be able to brag that I'd read *several* "all by myself"! But it was just as fun listening to an adult read them out loud every evening too.
