## **Hello, World! Weather** Jill McDonald

**Young children are fascinated with weather and the seasons. Now here's a *Hello, World!* board book** that takes readers through a year of changes in a backyard--and points out the different clothes they wear to keep them comfy in winter, summer, spring, and fall.

*Hello, World!* is a series designed to introduce first nonfiction concepts to babies and toddlers. Told in clear and easy terms and featuring bright, cheerful illustrations, *Hello, World!* makes learning fun for young children. And each sturdy page offers helpful prompts for engaging with your child. ("Look out the window. What is the weather like today?") It's a perfect way to bring science and nature into the busy world of a toddler, where learning never stops.

Look for all the books in the *Hello, World!* series: *Solar System*, *Backyard Bugs*, *Birds*, *Dinosaurs* , and *My Body*.

"Written as simple questions and answers, this format provides just enough information for curious toddlers."--*Kirkus*

## **From Reader Review Hello, World! Weather for online ebook**

### **Earl says**

Hello World! is a board book series that introduces the youngest readers to nature and science concepts. Colorful images and question prompts are mixed in with the story text. For the weather book, kids can choose what to wear.

---

### **Jocelin says**

A cute little book for little ones to learn about the weather. Colorful and simple illustrations make the book fun to read

---

### **Lindsey Hapeman says**

published: 2016

this book is a nonfiction book about the different seasons and weather changes. it not only explains the different types of weather, but it explains which season has certain weather.

---

### **Michelle says**

Great for babies

---

### **Natasha Jones says**

Confused at what to wear when its windy out? Have no fear, this book will teach you all about the proper attire for any weather situation. With big yet simplistic illustrations that look almost child like and labeled clothing this board book can also help young children as they become more independent dressers.

I give this book a solid 4. I like how this book can become interactive with the labeled pictures and also educational with a how-to dress for the weather lesson. This book is a quick read with larger words so beginning readers can read along. I would introduce this book to a pre-k and kindergarten classroom as we explore the weather. I could challenge them each day to justify their outfit choices with the current weather conditions developing their reasoning skills as well as awareness of the outside world.

### **Sara Grochowski says**

Love that this board books pairs clothing with different types of weather!

---

## **Sarah says**

The genre of this book would be a picture book. I couldn't find any awards for this book. The attended age range for this book would be 3 month to 3 years. This book is about the different weather that we experience and what we should wear for the that weather that is mentioned. I believe that the effectiveness of this book is very great considering it explains each weather to were a child can understand it. Also, the book gives great pictures of the weather its showing and also the clothes that should be worn during that weather. This should be appealing to young readers because of all the different pictures it shows and its very short to read to young readers. I would use this working with children to teach them about the different types of weather and seasons that we experience.
