## From Reader Review House of M: Avengers for online ebook

### Nate says

Lo recomiendo mucho y principalmente para leerlo primero. Es exactamente lo que lleva a House of M y a ver un par de cosillas que en House of M ya están sentadas. Casi que lagrimeo con el finale.

---

### Don says

Of all the individual House of M stories by team, this was one of the better ones. Some of those other spin offs go old really quick, but this one was good.

---

### Prasidh Ramson says

Listen to some Curtis Mayfield, Four Tops, Isaac Hayes, Bobby Womack while reading this for the complete experience!

Following the House of M main story arc, this 5 part spin-off is set in grimy 1970's New York. Mutants are still the dominant species while humans are the oppressed minority. It tells of Luke Cage's origin story and his efforts to form a group of superheroes (later called The Avengers) to protect human interests with a Mutant squad of the police force, called The Brotherhood, hot on their trail.

The drawings capture the gritty, seedy underbelly of New York in a tumultuous era (I felt like I was part of a blaxploitation movie!) The writing was easy to follow with an action packed storyline. For a newcomer, it nicely introduces characters like Iron Fist, Jessica Jones, Moon Knight and others. I particularly liked the Punisher's introduction but with an alternate origin story for him.

An engaging read, lending another dimension to the Marvel Universe. Given that there will be a Netflix series featuring Luke Cage, Jessica Jones and others, I'm really excited to see how this translates to the small screen. If the Daredevil series is anything to go by, fans and non-fans will have more to cheer for!

---

### Sophie says

I think along with the House of M tie-in that had the Hood being part of a resistance group, this is may be my favorite House of M tie-in. In here, Luke Cage, Iron Fist and quite a few others are the Avengers, a part of non-Mutant criminals who fight against oppression. So apparently I like stories about resistance fighters. In any way, this was interesting and I liked it. I wish there had been more interpersonal stuff (I thought it was interesting how different Luke's relationship to Danny was, for example), but overall this was well worth reading.

---

### **Holden Attradies says**

I've enjoyed all of the House of M stuff, but this one was probably the best that I've read so far. And I really enjoyed that it was written in a way that you didn't need to have read House of M at all.

The story moved along at a very steady pace, and there was pretty decent character development for a super hero comic, something I don't normally expect to see. And I REALLY enjoyed just about all the alternate versions of the characters presented here.

The artwork was a perfect fit too. It added a very gritty new york street life feel.

---

### **Elinor Master of Gifs says**

Sympa mais pas autant que la version avec les "méchants"

---

### **Relstuart says**

I recently realized I had actually never read the Avengers tie in for this event. I picked up an inexpensive copy and was not disappointed. Good art work and character development as several of the Avenger characters alternate House of M universe resist the new mutant world order.

---

### **Tony says**

Solid story arc and lots of characters introduced into the House of M universe. Turned out to be better than i was expecting.
