This is one of the book that changed my life, I read it twice. This is where I understand how I can be free to be myself without fear. Here I also learned about "you can not give what you do not have" that I can not love God with my strength, but I can love God because of His love that I had received freely... So I realized that the matters is how I receive the love He has given to me, and then I could return it to Him, to my neighbor, and of course to myself!

There were some good thoughts in this book, a lot of common sense, and, of course, Scripture references that Meyer used to support her points. This author is a woman with a strong personality and plenty of confidence in being herself. She is not for everyone; I did not agree with some of what she said but someone recommended the book to me so I made the effort and did come away with some useful information.

This book lived up to what I expect from Joyce Meyer. It was well established in Scripture, very thought provoking, soul searching, and exceptional teaching with many examples from her own life to help me apply the lessons to my own life.

I highly recommend this book! God used it to speak truth and goodness into my life. It really encouraged me to move past discouragement in my present season of unemployment and back into faith and confidence and

trust and joy and peace in God's good plan for my life. This book taught me a lot and encouraged me in so many ways :)

I think I read this book at a time in my life when I was really ready to hear some of the things the Bible has to say about His creation. He loves us and we need to receive that love. Good stuff...however, there are some weird chapters that air on the "name it and claim it" prosperity doctrine (so be careful).

Love the way she writes.. no nonsense, get up and do something with yourself kind of writing. Just what I needed to get myself up and going. She says, "I'm not where I need to be, but thank God I'm not where I used to be. I'm ok, and I'm on my way!" I repeat that to myself often!

I bought this on sale, but the title sounded interesting to me. I am familiar with Joyce Meyer in that I had seen some of her DVD's through our ladies Bible studies. This is still on my shelf as started, but still have a long way to go.

Yes, indeed!

Joyce Meyer has written over 30 books and so far, I've read two. Her writings are filled with hope, joy, and most important, love! I encourage anyone who loves reading to get her writings...

This is the book that gave me the confidence to finally rise to my ability and not fear the future, failure or even success. You can't help but feel like you can slay dragons and conquer the world after you read this inspiring book. It's great! I believe every teen and person in their 20's needs to read this - and you should re-read it from time to time to stay motivated to be the best "you" possible!

God has greatly blessed me through Joyce. She preaches in a way that I truly understand. This one, in particular, has a special place in my heart. When I first started this book, I was so unsure of myself and I never felt that I was doing good enough to be considered a Christ follower. But God has revealed to me that you don't have to be perfect to be a Christ follower and it's still okay to accept God's amazing love and grace, despite our imperfections. I recommend this book to anyone who wants to reach their full potential, in Christ.
