9/27/11 i can't wait to get to the middle of the book because it gets really scary.
i picked it out because the front of the cover looked interesting.
i love to read really scary storys because in Jonathan Rand's books because after every chapter something goes wrong and you don't know what is going to happen next.
i know if the book would be scary because i like things really scary like on halloween.
if the creature on the front cover is big it is going to be creepy.

Zachary says

It was really exciting and entertaining.

Susan Kempel says

Great book for upper elementary kids -- short chapters, lots of actions, kids as main characters
Plus, this story leads into the next book in the series, *Mammoths of Montana*.

Kelton Saylor says

The book I read was *American Chillers: North Dakota Night Dragons*. It was a really good book. It is part of a really good series.

Brycen says

North Dakota Night Dragons by Jonathan Rand is an amazing book about three kids that go to a different realm with dragons and they fight bad dragons to save the universe from Dantar the two-headed night dragon leader of the bad dragons. The night dragons to do that they need to get the sword of eternal power. They need the sword of eternal power and the orb of Shammar to get home. This book I recommend for all people.

Renetta DeBoer says

Crazy! Entertaining and witty. The some of the dialogue is redundant and the solution was predictable and weak.
