Right Here, Right Now HelenKay Dimon

It's Not You, It's Me. . .

For Gabby Pearson, being dumped in public before the dessert course has to be the lowest of the low--especially when it's the old, "It's not you, it's me" speech. Honestly, how about something original: "I have five minutes to live" (very possible); "It's not you, it's the voices in my head" (thanks for the warning); or "I am such a powerful sexual being I could put you into a coma with one kiss" (wishful thinking). Not that Gabby would ever know since Reed Larkin never bothered to take her to bed. Why does a girl bother (to shave)? The only thing left to do is offer the guy a goodbye-forever drink. . .on his head.

It's Me Wanting You Completely. . .

Damn. Reed did his job--he walked away from Gabby rather than drag her into his unstable life and danger. Now he's wearing her full glass of wine instead of throwing her onto his sheets. It doesn't help that the woman is smart as hell and could stop a man's breath with that wide smile and those shapely curves. Gabby has it all, and Reed wants every inch of her. And now the joke's on him, because new intel says Gabby has just become his assignment: He has one day to win her back, get information from her she may not know she has, and somehow protect her at the same time.

Right Here, Right Now. Problem?

The stakes are high. The odds are impossible. And the mutual attraction is as hot and strong as Gabby's anger. And Reed can only hope his next speech--"It's you, baby, it's definitely you. . ."--will be the start of something wild, something crazy, something dangerous, something wonderful. . .

From Reader Review Right Here, Right Now for online ebook

Kate says

This book had it all - romance, humor, drama, even a bit of mystery. I fell in love with the main characters, their storyline was realistic and just wonderful. And the romance part of it? They loved hard and fought just as hard. This book had me laughing out loud pretty frequently, some scenes were just too funny that I couldn't help myself. If you haven't read this, check it out!

Cindy says

A fun, spoofy read, especially for those that like snarky dialog. I thought the premise of undercover secret agents [from two different secret agencies:] investigating each other was cute although it does not inspire the readers to have faith in government competence.

Both leads are engaging, as are the heroine's co-workers [they both deserve their own books, especially Doug:]. Of course they achieve the requisite HEA after a couple of speed bumps, occasional homicidal thoughts, and some unexpected lane changes.

Stacie says

A quick, easy read. One of the twist was that both main characters are undercover for various agencies. The heroine does not realize that the hero is a undercover agent not the computer nerd she thinks. He is trying to figure out what her role is in working with a criminal leader and does not realize she is working undercover too. There was a lot of humor and interesting interaction as the two dance around the truth about each other.

Kerry says

This was a quick read filled with witty, fast-paced dialogue. The sex scenes were pretty good, but the story fell flat for me. I didn't feel any extreme passion, either for each other or for their jobs or for the dangerous situation that Gabby was supposedly in. I agree with another reviewer who said that the secondary character, Doug, could make a great story.

Jennifer says

An easy read!

Christa says

Right Here, Right Now was very fast paced and quick to read. The majority of it was fairly lighthearted and entertaining. I found both the hero and heroine to be likeable, and there was plenty of heat and chemistry between them. I enjoyed reading this book.

Gabby Pearson is planning to take her slow moving relationship with computer geek Reed Larkin to an intimate level, but he floors her when he unexpectedly breaks up with her. Gabby is absolutely furious, and she makes certain that Reed knows her feelings. Reed is placed in a awkward position the next day when his boss demands that he make up with Gabby. Reed is not exactly what he seems, and his classified job is the reason he met Gabby and then broke off their relationship. Reed has his work cut out for him trying to soothe Gabby's feelings enough to convince her to give him another chance. When Gabby does relent towards Reed, they engage in a few steamy encounters before Reed's charade ends with miserable repercussions. Complicating the situation are coworkers of both Gabby and Reed.

I found reading this book to be interesting and pleasant. I enjoyed the unusual beginning of the book, with the hero breaking off his relationship with the heroine. The heroine's reaction and the hero's subsequent groveling to get back in her good graces were entertaining. This book was a quick, light read.

Jennifer says

I enjoy most of Dimon's books and this one was no exception. She has nice, fast dialogue that doesn't feel empty of substance.

ElaineY says

One star is for my ditching it. It may have picked up and gotten some substance but I wasn't interested enough to wait and find out.
